WORK HISTORY

Sciflare Technologies — Chennai, India

12/09/2022 - Present

Worked as a Manual / Automation tester for Fantasy Sports Apps used in India, Dubai, USA

PROJECT EXPERIENCE

Projects : **Boomer11, AmericanDream11, FanZE, DPL**

Manual Testing
- Test Cases, Go Live Checklists, Daily Checklists, Bug/Defect Tracking using Clickup.

Web Automation
- Selenium with Java using Cucumber BDD, Page Object Model frameworks.

Mobile App Automation
- Appium with Java using Page object Model framework.

API Testing
- Used Postman, Playground for testing Restful and GraphQL APIs with all possible scenarios and cases.

Performance Testing
- Using Jmeter for Performance testing (both Load and Stress testing) of APIs.

ROLES AND RESPONSIBILITIES

- Involved in End to End Testing of Features including UI, functional, API and Automation Testing
- Tested multiple parallel build releases for Android, Web, Admin Panel, and IOS Applications.
- Prepared Go Live Checklists, Daily Checklists, UI/Functional Test cases , API testing documents and Wireframe for document.
- Research for new features in apps like Payment Gateway integration, Documents verification.
- Active participation in reviews and Client status meetings. Preparing the status Reports like Minutes Of Meeting, ETA sheet and Change Request sheet.
- Involved in UAT support, Adhoc testing, Sanity testing, Regression testing and System testing
- Ensuring all Bugs are fixed, Requirements are covered and going through Go Live Check list before each release.
- Successfully delivered and launched 3 Fantasy sports applications before IPL 2024.
