- **Programming Languages:** Java, SQL
- **Test Automation:** Selenium WebDriver, TestNG, API Testing
- **Version Control:** GitHub
- **Methodologies:** Agile, Scrum
- **Analytics Tool:** Firebase, Mixpanel

Professional Experience

Software Quality Engineer

Contus Tech Pvt. Ltd., Chennai, India.
Nov 2024 - Present

Responsibilities:

- Design and execute manual and automated test cases.
- Identify, log, and track software defects.
- Collaborate with developers to resolve issues.
- Ensure software meets functionality, reliability, and performance standards.
- Use tools like Selenium, JIRA, and JMeter for testing and tracking.
- Follow Agile practices.
- Maintain test documentation and update test plans.
- Utilized Firebase tools (Crashlytics, Test Lab, Performance Monitoring) to identify, report, and track issues in Android/iOS applications, contributing to improved app stability and performance.
- Validated Mixpanel event tracking implementation to ensure accurate user behavior data collection and analytics.
- Executed performance and load testing using Apache JMeter to measure system stability under high-traffic scenarios.
- Reported and tracked defects using JIRA with well-defined steps to reproduce, screenshots, and logs for better resolution time.
- Worked closely with developers during daily stand-ups, sprint reviews, and retrospectives to improve test coverage and reduce bugs.

Projects

Psychic Cloud - Daily Readings
Overview: Psychic Cloud is a real-time spiritual consultation platform designed to connect consumers with psychics via live chat, audio, and video calls. The system supports multi-channel interactions with flexible availability settings for advisors, intelligent promotional flows, event-based appointment booking, and detailed session management. It integrates advanced analytics using Mixpanel and Firebase to track user behavior, call performance, and conversion metrics. The platform ensures a seamless user experience with real-time notifications, in-app purchases, and support for custom call flows including call recovery and compensation handling.

Platforms: Web, Android, iOS

Quality Assurance Analyst
MacAppStudio Pvt. Ltd., Chennai, India.
May 2023 - Aug 2024

Responsibilities:

- Developed and executed detailed test cases and test scripts for web and mobile applications, ensuring comprehensive coverage and defect identification.
- Collaborated with developers and stakeholders to understand requirements and deliver high-quality software solutions.
- Automated test cases using Selenium, reducing manual testing time by 30%.
- Conducted performance and load testing to validate application scalability and responsiveness.
- Documented and reported bugs, issues, and test results using Zoho Bug Tracker and Jira, facilitating effective resolution and communication with the development team.
- Participated in daily stand-up meetings and sprint planning to align testing activities with project goals and timelines.

Projects

Bidz.ai
Overview: Bidz.ai is a SaaS-based solution revolutionizing the procurement process by offering a comprehensive suite of features tailored to streamline RFQ workflows. Designed to meet the demands of modern businesses, Bidz.ai simplifies the creation of RFQs, vendor enlistment, quote comparison, and contract awarding, making procurement tasks efficient and hassle-free.
Platforms: Web.

DoctorsMatrimony
Overview: The Doctors Matrimony is a dedicated matrimonial platform designed to help doctors and healthcare professionals find their ideal life partners. With a focus on catering to the unique needs and preferences of medical professionals, The Doctors Matrimony offers a secure and user-friendly interface for profile creation, search, and matchmaking. The platform ensures privacy and confidentiality, making it a reliable choice for doctors seeking meaningful connections and compatible matches within the medical community. Platforms: Web, IOS, Android.

MedConnect

Overview: MedConnectJobs is a specialized job portal dedicated to connecting healthcare professionals with premier employment opportunities in the medical field. Catering to doctors, nurses, and allied health professionals, MedConnectJobs provides a streamlined and efficient platform for job seekers to identify positions that align with their expertise and career aspirations. Employers benefit from the portal's comprehensive recruitment tools, enabling them to swiftly and effectively source top-tier talent. Featuring a user-friendly interface and robust search capabilities, MedConnectJobs ensures a seamless experience for both job seekers and employers within the healthcare industry.
Platforms: Web, IOS, Android.

QA Trainee

NTT Data Pvt, Ltd., Coimbatore, India.
