Nilesh Sanjay Patil

8888062050 | patilnilesh.tech@gmail.com | Pune, Maharashtra, India

PROFESSIONAL SUMMARY:

- **4.2 Years** of **industry experience** in the area of **Automation & Manual Testing.**
- Automation Testing using **Selenium WebDriver** using **Page Object Model**.
- Good experience in creating custom **xpath** identifier for locating objects on web pages.
- Writing Test cases using **Element locators**, **WebDriver** methods, **Java programming** features and **TestNG** Annotations.
- Experience in **Data Driven Testing, Cross Browser Testing & Parallel Test Execution.**
- Debugging & Running the Test cases and Analysing the Test Results.
- Understanding **Requirement Specifications** and **Design Documents**.
- Familiar with all aspects of **SDLC** and **STLC.**
- Familiar with **Functional** & **Non-Functional Testing**, **Mobile Testing & Regression Testing**.
- Interpreted and converted manual test cases into **Automation Sanity** and **Regression suites**
- Well versed with **Test Documentation** (**Test Scenarios, Test Plan, Test Data, Test Cases & Defect Reports**).
- Experience in Data driven Testing, multiple browser testing and Parallel **Test execution** using **Selenium WebDriver** and **TestNG**
- Basic hands on experience for build configuration on **Maven** and **Jenkins.**
- Involved in **defect management process.**
- Timely **reporting of Status / Risks / Issues** to client by direct interaction in Client Status Calls / Program Calls / Scrum calls and by status emails.
- Presented **Demos sessions** to stake holders during different releases of UAT.
- Preparation of Daily Status Report (**DSR**.
- Possess **excellent interpersonal, communication & analytical skills** with demonstrated abilities in customer relationship management.

WORK EXPERIENCE:

1. **Sagitec Solutions Pvt. Ltd.**
   Senior Test Engineer | Jul 2022 – Oct 2025
2. **iPERCEPT Consulting Pvt. Ltd.**
   Test Engineer | Jul 2021 – Jun 2022

TECHNICAL SKILS:

- **Manual Testing:** Requirement Analysis , Test Planning, Test Case Design & Execution, Functional, Regression, Smoke, Sanity, Integration, System & UAT Testing, Defect Tracking, Test Metrics & Documentation
- **Automation Testing:** Selenium WebDriver, TestNG, Cucumber (BDD), Maven, Page Object Model (POM), Data-Driven & Hybrid Frameworks, Cross-Browser Testing, Script Development & Maintenance, Playwright (Automation Testing), End-to-End Testing
- **API Testing:** Postman, Rest-Assured, REST API Validation
- **Programming:** Core Java, OOPs Concepts, JavaScript
- **Database Testing:** MySQL, MS SQL Server, SQL Queries, Data Validation
- **Tools & ALM:** JIRA, Azure DevOps, Neo-Track
- **CI/CD & DevOps Exposure:** Jenkins, Git/GitHub, Automated Test Execution in CI/CD Pipelines
- **Methodology:** Agile Scrum

PROJECT EXPERIENCE

Project Name: Neosurance – Maryland UI Benefits
Project Description: Neosurance – Maryland UI Benefits is a state-level Unemployment Insurance application designed to manage claimant benefits, eligibility determination, and payment workflows while ensuring regulatory compliance and system reliability.
Key Responsibilities:

- Performed manual and automation testing for critical UI Benefits modules.
- Automated regression test scenarios using **Selenium WebDriver, TestNG, and Cucumber (BDD)**.
- Validated backend data, business rules, and transactions using **SQL queries**.
- Executed **functional, regression, smoke, and system testing** across multiple releases.
- Logged, tracked, retested, and closed defects using **JIRA**
- Collaborated closely with developers and business analysts to ensure timely defect resolution.

Project Name: Workforce Product
Project Description:
The Workforce Product supports job seekers and employers through modules such as user profiles, job postings, job matching, and workforce analytics, requiring high system stability and data accuracy.
Key Responsibilities:

- Executed **functional, regression, smoke, and integration testing** for workforce modules.
- Automated core business workflows to improve test coverage and system stability.
- Performed **REST API testing** using **Postman** and **Rest-Assured**.
- Conducted backend database validation using **SQL queries**.
- Participated in **Agile ceremonies** including sprint planning, daily stand-ups, and retrospectives.
- Maintained test cases, **RTM**, and execution reports in **Azure DevOps**.

Project Name: Neosurance – Ohio UI Benefits
Project Description:
Neosurance – Ohio UI Benefits is a state-level Unemployment Insurance system handling claimant registration, eligibility processing, benefit calculation, and payment processing in compliance with state regulations.
Key Responsibilities:

- Tested complex insurance workflows using **manual and automation testing**.
- Automated repetitive regression scenarios to reduce release cycle time.
- Performed **system, regression, globalization, and compatibility testing**.
- Validated backend database records and financial transactions using **SQL**.
- Managed the complete **defect lifecycle** from identification to closure.
- Worked closely with development teams on **root-cause analysis** and retesting.

EDUCATION:

M.Tech
Walchand College of Engineering, Vishrambaug – Sangli
Year: 2020
