Anish Kumar S

Automation Test Engineer

Phone: +91- 9361612533| Email: anishkur.k@gmail.com

SUMMARY:

Over 4.7 years of experience in both manual and automated software Quality Assurance Testing of web-based applications testing, Object-oriented analysis design with in-depth understanding. Extensive Knowledge of Quality Assurance standards, methodologies, and strategies with a better understanding of the Software Development Life Cycle (SDLC).

TECHNICAL SKILL SET:

Category	Software/Tool/Technology
Language	Java
Automation Tools	Selenium, Appium
Knowledge	Playwright
Frameworks	Cucumber, TestNG, POM, Data Driven
Build and Integration Tools	Maven and Jenkins
Project/Code Management Tools	JIRA and GIT Repository
Methodologies	Agile Methodology
Api Testing	Postman, RestAssured

PROFILE SUMMARY:

- Extensive experience in developing and maintaining, executing scripts written using **Selenium WebDriver with JAVA** for the automation of web applications and **Appium** for Mobile Testing(**Android and IOS**).
- Good experience in using **Singleton Design Pattern**.
- Worked on Cucumber BDD using POM well versed with Feature files.
- Worked on Apache POI store adding data from external sources preferably an Excel sheet to feed locators into the test script.
- Good working experience in building management tools like **Maven**, automating and scheduling test execution
- Expertise in Hybrid Framework using Data Driven approach based on Page Object Model design pattern and **TestNG.**
- Experience working in various frameworks like **Data Driven framework in Selenium**.
- Experience in identifying different page elements using object locators and creating an Object repository for all the pages.
- Maintained the Selenium **WebDriver, Java automation code**, and resources in source control **Git** Hub.
- Exposure to Git commands.
- Well-versed with **XPath, Document Object Model (DOM).**
- Self-Acquired knowledge in API testing – Postman & Rest Assured.

- Experience in all phases of the **Software Testing Life Cycle (STLC).**
- Exposure to **Agile Methodology** and well-versed with terms like **Scrum, Sprint, Product Backlog, Sprint Backlog, and Sprint Retrospective.**
- Possess excellent skills in designing and executing test scripts.
- Capable of working with a team as well as individual.
- Engage in client calls and meetings on a daily base.

EDUCATION:

B.E(CSE) from **Vels University in 2020** with 70%.

WORK EXPERIENCE:

Working as Automation Test Engineer in Unitel Software Ltd(June 2020 to Till Date),Bangalore

PROFESSIONAL EXPERIENCE:

Project 1: FemEssence (Selenium & Appium) **Feb 2024 to TillDate**

Tools Used: Core Java, Selenium WebDriver, Appium , Cucumber ,Postman, RestAssured, GIT, JIRA

Description:

FemEssence is a sophisticated and empowering brand dedicated to offering premium wears designed for the modern woman.

Responsibilities:

- Understanding the Requirement which are provided, and create Test scenarios and Test cases to meet the requirement
- Develop appropriate test scenarios as per the Business requirement document using Jira.
- Scripting the step-by-step functionality in Selenium
- Maintaining existing framework and enhancing the new functionalities based on requirements.
- Performed application testing by utilizing the **Scrum (Agile) methodology**.
- Do Functional, Integration and Regression testing on new build
- Connect with Customer QA and development team on daily basis to discuss about testing progress
- Maintaining the script and updating the script as per requirements
- Report the defects uncovered during the test execution and track the defects till its closure.
- Regression checkout for defect fixes.
- Provide post implementation testing support for the business.

Project 2: Crust & Crumble **Dec 2022 to Jan 2024**

Tools Used: Core Java, Selenium WebDriver, Appium , Cucumber , Postman, GIT, JIRA

Description:

Crust & Crumble is a bakery that celebrates the art of homemade goodness. Our products range from flaky pastries and soft breads to indulgent cakes and cookies, crafted with the finest ingredients and baked fresh daily.

Responsibilities:

- **Analysing the User Stories** and planning the User Stories to be completed in the particular Sprint.
- Test manually and identify the defects.
- Prepare test scenarios and test data for different user stories.
- Identify the scenarios which can be automated and which can't be automated.
- Prepare automation script which can be automated.
- Test script execution and analyze the failed scenarios.
- Developed test scripts using **Eclipse**.
- Daily schedule the run batch in **selenium for testing**.
- Developing BDD test using **Cucumber.**
- Uploaded test cases in **JIRA Executed test cases and logged defects.**
- Performed **Functional, Regression Testing.**
- Attending Defect triage calls with developers and solving the issue soon.
- Defect logging & tracking in the **Test Management tool using JIRA** which were found at execution time.
- Retested the defects once they have been resolved and updated the defect report.
- Done both **automation and manual testing** to identify the defects and prepared defects summary report & fix it.

PROJECT 3: Kenzo **August 2021 to Oct 2022**

Description:

Kenzo, is a French luxury designer, multi-brand, multi-channel retailer Company offers anassortment of women's, men's and children apparel and accessories.

Tools Used: Core Java, Selenium WebDriver, TestNG , GIT, JIRA

Responsibilities:

- Prepared Test Plan, test Cases, Test scripts for the application based on the functional requirements, portal redesigned and test specs.
- Worked in an **Agile** environment, with the ability to accommodate and test the newly proposed changes at any point of time during the release.
- Evaluate and analyze Business Requirements, Functional Specification documents.
- Developed and executed test plans, and test cases utilizing QA best practices and standards.
- Designed, developed, and implemented automation testing **framework utilizing Java, TestNG and Selenium Web Driver.**
- Involved in designing and implementing of hybrid automation framework to be used with Selenium Web Driver.

- Created Test plan, High level scenarios, test case construction and test estimates, resource estimates and weekly status reports.
- Daily schedule the run batch for testing.
- Attending defect calls with developers and clients to enhance the project.
- Defect logging & tracking in **Test Management tool using JIRA**.
- Retest the defects once they have been resolved and updated the results in Confluence Page.
- Participating in all the Agile ceremonies – **Sprint Planning, Daily scrum calls, Sprint review and Sprint retrospective.**

PROJECT 4: Zaful **August 2020 to July 2021**

Description:

Zaful is one of the top-notch fashion clothing Store for the Men's and women's E- Commerce is the activity of buying or selling products on online services or over the internet.

Tools Used: Core Java, Selenium WebDriver, TestNG , GIT, JIRA

Responsibilities:

- Analysed the Business Requirements and Functional specifications within the team for business understanding and end-user focus.
- Analysing the User Stories and planning the User Stories to be completed in the particular sprint.
- Test manually and identify the defects.
- Identified test cases to automate.
- Automate those test cases using **Selenium WebDriver, TestNG and Java (Eclipse IDE).**
- Contributed in framework creation.
- Uploaded test cases in **JIRA** and executed test cases and logged defects.
- Also performed **Functional and Regression testing.**
- Defect logging & tracking in **Test Management tool using JIRA** which were found at execution time.
- Retest the defects once they have been resolved an updated defect report.
- Performed manual tests to conduct functional, system, integration regression on the application.
- Involved in executing automated test cases using **Selenium WebDriver** to automate manual testing solutions.
- Owned up an entire module and prepared defects summary report of that particular module for reporting a daily triage call with developers to get it fixed on time.

DECLARATION:

I hereby declare that above mentioned particulars are true to the best of my knowledge and belief.
