Shanmuga Vijay

Project Management Professional - PMP

📞 +91-9940243576 | ✉️ shanmugavijay360@gmail.com | 🔗 LinkedIn

Profile Summary

Strategic and results-driven Technical Project Manager with 18+ years of experience delivering complex, cross-functional initiatives across diverse industries including Healthcare, Banking, AI, IoT, Construction Accounting, IP, Manufacturing, Media, Education, and Taxation. Adept at implementing best-in-class project management frameworks that have consistently reduced delivery delays, optimized costs, and significantly improved client satisfaction. Proven ability to lead globally distributed teams, align business goals with technical solutions, and drive innovation in fast-paced environments. Known for delivering projects on time, under budget, and with measurable impact to business outcomes.

Technical Skills

Programming & Frameworks

- .NET Core, .NET Framework, ASP.NET, MVC, C#, VB.NET, WPF, WCF, Web API, LINQ, Entity Framework, nopCommerce
- HTML5, CSS3, Bootstrap, JavaScript, Angular, React, AJAX
- Visual Studio (2002–2022), Visual Studio Code, Expression Blend

Database Technologies

- Microsoft SQL Server (2000–2022), Oracle 10g, My SQL

DevOps, Source control, Hosting & Integration

- Docker, Confluent Kafka, Avro Schema, BizTalk Server, BizTalk LOB Adapter
- Azure App Services, IIS 10 Express
- GitHub, Bitbucket, Azure DevOps Repos, TFS, VSS, Tortoise SVN, Tortoise HG, Source Vault, SourceTree

Third-Party Tools & UI Components

- Infragistics, Telerik, DevExpress, Janus

Project & Issue Management

- Jira, Trello, Assembla, ClickUp
- Bugzilla, Freshdesk, GitHub Issues, Zoho Bug Tracker

Collaboration & Communication

- Microsoft Teams, Slack, Skype

Domain-Specific Tools

- Prolog, Viewpoint, Project Sight

Development Methodologies

- Agile, Scrum

Work Experience

Senior Technical Consultant
Remote | 01 July 2023 – Present

- Specialized in **Viewpoint Construction Management Software**, focusing on seamless data integration and optimization of Purchase-to-Pay workflows.
- Developed **dynamic and responsive web applications** with Angular and React, enhancing user experience and system scalability.
- Delivered customized solutions that improved software performance and streamlined project management processes.
- Contributed to process efficiency and operational productivity through innovative technical implementations.

Technical Project Manager
ISC Global Solutions | Chennai | 27 Sep 2021 – 28 June 2023

ArcTime – Time Management System

📅 *Duration:* Oct 2021 – Mar 2022 (5 months) | 👥 *Team Size:* 8 | 🌐 Website
🛠️ *Tech Stack:* ASP.NET Web Forms, C#, Web API, jQuery, SQL Server 2018

- Developed a configurable Punch module for real-time attendance tracking.
- Enabled role-based access for Super Admin, Admin, and User tiers, enhancing data governance.
- Implemented dynamic reporting features for attendance summaries and user activity.

ArcHRM – Human Resource Management Platform
📅 *Duration:* Apr 2022 – Sep 2022 (5 months) | 👥 *Team Size:* 8 | 🌐 Website
🛠️ *Tech Stack:* ASP.NET Web Forms, C#, Web API, jQuery, SQL Server 2018

- Delivered employee lifecycle modules: onboarding, time-off management, and task tracking.
- Architected settings-driven workflow with granular access control.
- Enabled Core HR functionalities integrated with advanced reporting dashboards.

BM Sales Analytics – Real-Time Sales Reporting Solution
📅 *Duration:* Oct 2022 – Jan 2023 (3 months) | 👥 *Team Size:* 8 | 🌐 Website
🛠️ *Tech Stack:* ASP.NET Web Forms, C#, Web API, jQuery, SQL Server 2018

- Integrated real-time data streams from Rap Snacks' POS systems.
- Designed interactive data visualization tools including trend analysis and custom charting.
- Enhanced business decision-making through dynamic, filter-based reporting modules.

ArcSurvey – Custom Survey Management Application
📅 *Duration:* Feb 2023 – Jun 2023 | 👥 *Team Size:* 8 | 🌐 Website
🛠️ *Tech Stack:* ASP.NET Web Forms, C#, Web API, jQuery, SQL Server 2018

- Built form-builder-style survey creation tools for product feedback.
- Enabled secure user and admin portals for survey distribution and analytics.
- Implemented category-based survey campaigns with real-time response tracking.

Technical Lead
Collabera - Avenu | Chennai | 17 Nov 2020 – 24 Sep 2021

ClearView Grids – Cloud-Based Record Indexing Solution
📅 *Duration:* Nov 2020 – Sep 2021 (10 months) | 👥 *Team Size:* 6 | 🌐 Website
🛠️ *Tech Stack:* ASP.NET MVC, C#, Web API, Telerik (MVC & Reporting), SQL Server 2018

- Developed a customizable, cloud-hosted indexing platform to streamline official record processing for clerks and administrative staff.
- Engineered modules for file management, indexing, and cashiering with optimized performance and intuitive workflows.
- Implemented multi-tenant and secure SSL-certified access for remote usability, ensuring data protection and accessibility across locations.

Senior Developer
DS IT - HPCC | Chennai | 04 Feb 2019 – 30 June 2020

Viewpoint – Project Sight Integration
📅 *Duration:* Dec 2019 – Jun 2020 (6 months) | 👥 *Team Size:* 4
🛠️ *Tech Stack:* Confluent Kafka, C#, Web API, Visual Studio 2017, SQL Server 2017

- Engineered bi-directional integration between Viewpoint and Trimble Project Sight platforms using custom Web API endpoints.
- Designed and implemented Confluent Kafka adapters (Producer, Consumer, Error Record Handler, Acknowledgement Consumer) for reliable event-driven data flow.
- Optimized data synchronization workflows to ensure consistent performance across distributed systems.

Viewpoint – Global Forms Integration
📅 *Duration:* Jun 2019 – Nov 2019 (6 months) | 👥 *Team Size:* 4
🛠️ *Tech Stack:* Confluent Kafka, C#, Web API, Visual Studio 2017, SQL Server 2017

- Delivered seamless bi-directional data integration between Global Forms and Viewpoint systems via dedicated Web API services.
- Built Kafka-based middleware to manage data flow, error logging, and acknowledgements between endpoints.

- Enhanced scalability and maintainability of integration pipelines through modular Kafka adapter design.
- Validated synchronization accuracy through automated data verification and audit trails.

Viewpoint – Prolog Integration

📅 *Duration:* Feb 2019 – May 2019 (4 months) | 👥 *Team Size:* 4

🛠️ *Tech Stack:* Confluent Kafka, C#, Web API, Visual Studio 2017, SQL Server 2017

- Led development of real-time integration between Prolog and Viewpoint systems using customized APIs and Kafka adapters.
- Implemented Kafka Producers, Consumers, Error Record handlers, and Acknowledgement Consumers to ensure fault-tolerant processing.
- Coordinated with cross-functional teams to validate schema consistency and secure data exchange protocols.
- Reduced manual sync effort by automating data transfer processes and monitoring pipeline reliability.

Technical Lead

Apar | Chennai | 16 April 2018 – 01 Feb 2019

Innfluence – IoT Device Health Monitoring System

📅 *Duration:* Oct 2018 – Dec 2018 (3 months) | 👥 *Team Size:* 3 | 🌐 Website

🛠️ *Tech Stack:* ASP.NET Web forms, C#, Visual Studio 2017, SQL Server 2017

- Developed a field service platform enabling service desk teams to assign real-time tasks to field engineers based on IoT-based device alerts.
- Integrated interactive Map View for site visualization and streamlined field tracking of issue resolution workflows.
- Designed reporting features for managers to monitor engineer activity, performance metrics, and site status.
- Ensured system reliability and uptime through secure, responsive web interfaces and centralized tracking.

Innspire – Advanced Ticket Monitoring and Field Operations Platform

📅 *Duration:* Jul 2018 – Sep 2018 (3 months) | 👥 *Team Size:* 3 | 🌐 Website

🛠️ *Tech Stack:* ASP.NET MVC 5, C#, Visual Studio 2017, SQL Server 2017

- Delivered internal solution with modules for Issue Tracking, Site Installation, Field Assignment, and Scheduling.
- Enabled operational visibility through integrated dashboards and engineer scheduling features.
- Automated workflows for assembly tracking and real-time field operations monitoring.
- Implemented detailed reports for technician performance and task progress, aligning with internal SLAs.

Innoculate – IoT-Powered Surveillance and Site Health Analysis Platform

📅 *Duration:* Apr 2018 – Jun 2018 (3 months) | 👥 *Team Size:* 3 | 🏢 *Client:* NCR | 🌐 Website

🛠️ *Tech Stack:* ASP.NET C#, Visual Studio 2017, SQL Server 2017

- Engineered a comprehensive IoT platform for banking sector clients to monitor site health, track incidents, and manage field operations.
- Integrated live tracking, ticket management, and e-surveillance modules to support real-time awareness.
- Developed analytics dashboards for health assessments and reporting of device performance across multiple locations.
- Automated field task scheduling and enhanced data accuracy in site-level operations through secure data sync and validation.

Technical Lead

eCentricHR – Wipro | Chennai | 12 June 2017 – 31 Oct 2017

NetOxygen Enterprise – Loan Origination System

🏢 *Client:* US Bank | 📅 *Duration:* June 2017 – Oct 2017 (4 months) | 👥 *Team Size:* 12

🛠️ *Tech Stack:* NetOxygen Studio, Visual Studio 2017, SQL Server 2012, TFS

- Contributed to the development and implementation of the **Wholesale module** in NetOxygen, enhancing automation across the loan lifecycle.
- Collaborated with cross-functional teams to deliver features supporting lead management, processing, underwriting, and post-closing activities.
- Utilized **NetOxygen Studio** for configuration and development of enterprise-grade components, improving system scalability and maintainability.

Senior Software Developer
Cram Group | Chennai | 07 Dec 2015 – 15 Feb 2017

BizTalk & WCF Integration Projects

🏢 Client: Hensel Phelps Construction Co, US

📅 Duration: (Total: ~14 months across projects) | 👥 Team Size: 8

🛠️ *Tech Stack*: BizTalk Server 2013, WCF LOB Adapter SDK, WCF, LINQ, C#, EF, SQL Server 2012, Source Vault

Prolog – Viewpoint Integration (BizTalk)

📅 Oct 2016 – Feb 2017

- Designed and implemented BizTalk middleware to integrate Prolog and Viewpoint systems using custom LOB Adapters.
- Developed and configured vocabulary using Business Rule Composer to support transaction orchestration and decision logic.
- Monitored integration health via event logs and managed BizTalk artifacts, including send/receive ports, pipelines, and orchestrations.

Prolog – Viewpoint (Custom BizTalk LOB Adapters)

📅 May 2016 – Sep 2016

- Created two custom BizTalk LOB adapters for Prolog and Viewpoint, serving as reliable middleware components.
- Utilized Custom Adapter Wizard Tool to extend base adapter functionality and tailor to client-specific integration needs.
- Optimized adapter communication protocols to support high-throughput data exchange and fault tolerance.

Viewpoint – WCF Web Service Application

📅 Dec 2015 – Apr 2016

- Developed a scalable WCF Web Service for Viewpoint, encapsulating CRUD operations across all business processes.
- Structured service endpoints to be reusable within BizTalk LOB adapters and other integration pipelines.
- Delivered core platform features with an emphasis on modularity, reusability, and maintainability.

Senior Software Consultant
QuantityIP | Chennai | 14 Nov 2014 – 30 Nov 2015

Strategy Planner Online – Portfolio Cost Analyzer

🏢 *Client:* In-House Project | 📅 *Duration:* Nov 2014 – Nov 2015 (12 months) 👥 *Team Size:* 6

🛠️ *Tech Stack:* MVC 5, VB.NET, Visual Studio 2015, SQL Server 2012, Tortoise SVN

- Designed key business modules such as **User Settings**, **Scenario Planning**, and **Strategy Specification**, supporting customizable cost modeling across global patent families.
- Integrated logic for **stage-wise cost projections** considering jurisdictional attributes like number of claims, PCT/EPO status, and regional regulations.
- Enabled real-time analytics covering **Official Fees**, **Local Associate Charges**, and country-wise estimates to inform strategic patent decisions.

Team Lead
Vivid Infotech | Chennai | 24 May 2012 – 31 Oct 2014

ERP IWL – Manufacturing ERP Solution

🏢 *Client:* IWL India Limited, Chennai | 📅 *Duration:* 12 months | 👥 *Team Size:* 6

🛠️ *Tech Stack:* MVC 5, C#, Entity Framework, LINQ, SQL Server 2012

- Designed a secure, cross-browser enterprise application tailored for internal operations like Purchase Management.
- Led architecture planning and implemented user-friendly interfaces with scalable three-tier structure.
- Enabled role-based access and enhanced data security for operational workflows in manufacturing.

ACHC Suite – Healthcare Accreditation Solutions

🏢 *Client:* Accreditation Commission for Health Care Inc, Cary NC

Customer Central

📅 *Duration:* 6 months | 👥 *Team Size:* 6 | 🌐 Website
🛠️ *Tech Stack:* Asp.Net MVC 5, C#, EF, LINQ, SQL Server 2012

- Delivered accreditation platform supporting 7 healthcare programs (Home Health, Hospice, DMEPOS, etc.).
- Integrated secure downloads, payment processing, and standards access management.

Policies Portal & eStore
📅 *Duration:* 2 months each | 👥 *Team Size:* 6 | 🌐 Website
🛠️ *Tech Stack:* Asp.Net MVC 4, C#, EF, SQL Server 2012, NopCommerce

- Developed eStore for healthcare clients to purchase accreditation standards.
- Built policy acceptance flow for redirected users, enabling secure authentication via registered emails.

Vivid Monitoring Tool – Employee Activity Tracker
🏢 *Client:* In-House | 📅 *Duration:* 4 months | 👥 *Team Size:* 6
🛠️ *Tech Stack:* Asp.Net MVC 2, C#, Web Services, SQL Server 2008 R2

- Built real-time employee monitoring system with browser/tablet access.
- Integrated screen capture, live video feed, IM tracking, and productivity analytics.
- Designed secure backend for audit trail and reporting.

MDSPOTS – Physician Job Portal
🏢 *Client:* MD Spots, Florida | 📅 *Duration:* 6 months | 👥 *Team Size:* 6 🌐 Website
🛠️ *Tech Stack:* VB.NET, ADO.NET, SQL Server 2012

- Created centralized portal for physicians to find practice opportunities and post resumes.
- Implemented resume management, job board, and user onboarding workflows.

ARROD – Diagnostic Imaging Platform
🏢 *Client:* Arista Medical Imaging, USA | 📅 *Duration:* 6 months | 👥 *Team Size:* 6 | 🌐 Website
🛠️ *Tech Stack:* ASP.NET Web forms, C#, SQL Server 2012

- Built a secure application for physicians to manage patient data and diagnostic reports.
- Supported CRUD operations and role-based access for clinical workflows.

Algebra-In-Action – Educational Resource System
🏢 *Client:* Slim Good Body Corp, US | 📅 *Duration:* 4 months | 👥 *Team Size:* 6 | 🌐 Website
🛠️ *Tech Stack:* Asp.Net MVC 3, C#, EF, LINQ, SQL Server 2008

- Created teacher/student interface for curriculum planning and progress tracking.
- Integrated Common Core standards and secure account management across organizations.

Flexcel – Staffing and Consulting Portal
🏢 *Client:* Flexcel Network LLC, USA | 📅 *Duration:* 4 months | 👥 *Team Size:* 6 | 🌐 Website
🛠️ *Tech Stack:* Asp.Net MVC 3, C#, EF, LINQ, SQL Server 2008

- Developed profile management system for job seekers and recruitment admins.
- Enabled resume uploads and candidate filtering for flexible employment models.

Delivery Dos – Food Delivery Ecosystem
🏢 *Client:* Prime Software Development, USA | 📅 *Duration:* 2 months | 👥 *Team Size:* 6| 🌐 Website
🛠️ *Tech Stack:* Asp.Net MVC 3, C#, EF, LINQ, SQL Server 2008

- Engineered multi-role eCommerce platform for customers, suppliers, and delivery partners.
- Integrated catalog management, order queue visualization, and user dashboards.

Senior Software Engineer
K Networks | Chennai | 25 Oct 2010 – 30 Sep 2011

Analysis Tool – Aeronautics Domain Data Analysis Application
🏢 *Client:* SRA, USA | 📅 *Duration:* 8 months | 👥 *Team Size:* 4
🛠️ *Tech Stack:* WPF, C#, WCF, SPRING.Net, SQL Server 2008, LINQ, Visual Studio 2010, SVN

- Developed a Three-Tier desktop application retrieve and analyze data from SAT drives.
- Built interactive WPF interfaces enabling efficient data extraction, export to Excel, and visual reporting capabilities.
- Implemented core analysis modules calculating **Accuracy**, **Probability of Detection**, and **Update Rates**, supporting first-phase diagnostics.
- Utilized **WCF services** for secure, scalable communication between client UI and backend logic layers.

Software Engineer
Strowger Prodact Solutions | Chennai | 01 June 2009 – 10 Oct 2010

ITRA – Income Tax Receipt Audit System

🏢 *Client:* Accountants General, Chennai | 📅 *Duration:* 8 months | 👥 *Team Size:* 4

🛠️ *Tech Stack:* ASP.NET, C#, Oracle 10G, Visual Studio 2008, IIS, VSS

- Developed a secure, three-tier web application for hierarchical auditing and legal case tracking in government.
- Implemented dynamic report generation, enabling customized audit across five authority levels.
- Enabled remote audit report submission and vetting workflows and eliminating manual paperwork.
- Integrated logic for issuing Local Audit Reports (LAR), tracking company responses, and escalating unresolved cases to legal enforcement teams.
- Designed role-based approval processes where senior officers finalize Paras raised by junior auditors, ensuring compliance and accountability.
- Facilitated audit visit planning by implementing modules for party member assignments and field inspection coordination.

Software Engineer
RoomWithNet Systems | Navi Mumbai | 01 Jun 2007 – 21 Sep 2009

VOD – Video on Demand System

🏢 *Client:* Sahara Aamby Valley City, Lonavala | 📅 *Duration:* 4 months | 👥 *Team Size:* 6

🛠️ *Tech Stack:* ASP.NET, C#, ADO.NET, SQL Server 2005, Visual Studio 2005, IIS, VSS

- Developed a set-top-box-compatible VOD client to deliver multimedia services via network-connected standalone systems.
- Created a custom browser interface using Internet Explorer components for full-screen GUI interaction.
- Integrated infrared remote and keyboard input support for seamless navigation across 3D template-based GUI screens.
- Implemented service access workflows with billing logic for chargeable content (e.g., Pay TV), recorded through secure transaction tracking.
- Enabled user-tailored interface configurations to meet diverse hospitality and entertainment needs.

TechCaster – Digital Signage and Media Scheduling System

🏢 *Client:* Suria KLCC, Petronas Tower, Malaysia | 📅 *Duration:* 4 months | 👥 *Team Size:* 6

🛠️ *Tech Stack:* Asp.Net, C#, Windows Services, SQL Server 2005, Visual Studio 2005, VSS

- Designed and deployed content scheduling engine for dynamic media playback across digital signage platforms.
- Supported customizable screen layouts and targeted advertising based on location, time, and audience groups.
- Developed playlist looping algorithms with randomization and time-based scheduling for maximum engagement.
- Enabled compatibility with diverse media types: video, audio, Flash, PowerPoint, HTML, and images.
- Implemented service health monitoring and activity logging to track playback accuracy and system status.

Formula Search Engine – Educational Math Lookup Tool

🏢 *Client:* Educational Institution | 📅 *Duration:* 5 months | 👥 *Team Size:* 6

🛠️ *Tech Stack:* ASP.NET, C#, ADO.NET, SQL Server 2000, Visual Studio .NET 2003, IIS

- Developed a search-based application for retrieving mathematical formulas across academic disciplines.
- Integrated keyword-based search functionality with topic classification (Trigonometry, Algebra, Calculus, etc.).
- Enhanced user experience through categorized formula lists and responsive search performance.
- Provided scalable architecture to support educational institutions in streamlining curriculum support.

Education

Master of Science in Computer Science & Technology
(5 Years Integrated Course)

Thiruthangal Nadar College| Madras University | 2002 - 2007

Certifications

- PMP – Project Management Professional
- HP UX Certified Professional
