EDUCATION

Master of Business Administration (MBA)

Specialization : Business analytics

SRM Institue of Science and Technology

2022-2024 8.3 CGPA

Bachelor of Commerce (B.Com)

Specialization : General

Ethiraj College for Women

2018-2021 8.2 CGPA

AWARDS

- **Tech Titan Award – Digit Insurance**

Recognised for outstanding technical contributions and innovation in mobile application testing and automation.

- **Wall of Awesomeness – Digit Insurance**

Honoured for exceptional performance, collaboration, and impact across QA initiatives and team leadership.

WORK EXPERIENCE

Quality Engineer Dec 2023- Present

Digit Insurance

Domain: Insurance

- Conducting mobile application testing on **real devices (iOS & Android), simulators, and emulators**, ensuring robust coverage across diverse environments.
- Analyzing business requirements and enhancements to define effective **test strategies**, aligning with quality benchmarks and delivery timelines.
- Spearheading mobile test automation using **Appium**, including script development, framework design, and integration with CI/CD pipelines for cloud-based parallel execution—demonstrating deep expertise in scalable automation practices.
- Previously utilized **Katalon Studio** for automation scripting and execution via Katalon Runtime Engine and TestOps, showcasing versatility across automation platforms.
- Performing A/B testing using **Firebase**, and conducting white-box testing with direct codebase access via Visual Studio Code.
- Monitoring app performance and crash analytics using Firebase, with root cause analysis through **UserExperior** and **Dynatrace**.
- Leveraging AI-driven tools like **Copilot** to accelerate tasks such as test case design, automation script generation, log analysis, and documentation—enhancing productivity and reducing turnaround time.
- Conducting API testing using **Postman** and Insomnia, and validating backend logs using **Reactron** for deeper insight into application behavior.

TECHNICAL SKILLS

Languages

- Java
- Groovy
- SQL

Frameworks

- Selenium
- TestNG
- Cucumber BDD
- Appium

Tools & Platforms

- Postman API
- JIRA
- Confluence
- Adobe Experience Manager
- Charles Proxy
- Reactron
- Dynatrace
- User experior
- Firebase
- Pcloudy
- Browserstack
- Katalon studio
- Android studio
- Visual studio code
- xcode
- Android Debug Bridge
- DBeaver

PERSONAL SKILLS

- Stakeholder Management
- Decision-Making
- Adaptability
- Process Improvement
- Cross-functional Collaboration
- Agile Project Leadership
- Quality Strategy Planning
- Mentoring & Coaching
- Conflict Resolution
- Innovation & Continuous Learning

- Leading multiple QA teams and managing end-to-end operations, including requirement gathering, technical use case identification, **test case design**, metrics consolidation, reporting, and stakeholder communication —ensuring transparency, alignment, and continuous quality improvement across projects.

Test Analyst

Oct 2021- Nov 2023

Cognizant Technology Solutions India Private Ltd

Domain: Retail and e-Commerce

- Performed comprehensive mobile application testing across functionality, compatibility, usability, and performance, including iOS testing via **TestFlight**, simulators, and **Charles Proxy** for network debugging.
- Conducted backend testing using **Google Cloud Platform**, validating **Kubernetes** container logs and BigQuery for server-side log routing.
- Led CMS testing on **Adobe Experience Manager (AEM)** to ensure efficient content management and publishing workflows.
- Documented and prioritised defect reports and functional observations, contributing to continuous quality improvement.
- Supported sprint execution tracking through metrics computation and consolidation, aiding team performance visibility.
- Participated in **Agile ceremonies** and collaborated with cross-functional teams to ensure quality deliverables.

CERTIFICATIONS & TRAINING

GenC Training Program – Quality Engineering & Assurance (Cognizant Technology Solutions)

- Trained in Java, Selenium, Maven, TestNG, and Agile methodology.
- Automated test scenarios for PolicyBazaar.com as part of the capstone project.

Licentiate Certification – Insurance Institute of India

- IC01: Principles of Insurance
- IC14: Regulations and Compliance
