SALEEM RAJA

Phone: +91 9524704470 Email: saleemraja70@gmail.com LinkedIn : linkedin.com/in/saleemraja70 Location: Chennai

Full Stack Java Professional with 8 Years and 5 Months of hands-on experience in designing and developing scalable end-to-end applications using J2EE/Jakarta EE with an object-oriented approach. Proficient in analysis, design, development, integration, and testing using technologies such as Java, Spring Boot, Spring MVC, React, JavaScript, RESTful APIs, Oracle, PL/SQL, Hibernate, and JPA.

Work Experience

Engineer, Application Development **TransUnion** **Mar'22 – Present**
TransUnion Customer Interactive Team Chennai, Tamil Nadu

CreditViewCore

Purpose of this component to calculating the credit score from bureau reports and providing the credit score, various alerts services, dark web monitoring, email services to customer.
***Tech Stack**: Java/J2EE, React, RestApi, Oracle, JDBC, Hibernate/JPA, Maven, Wildfly, Docker, K8S, GIT/Bitbucket, Jenkins.*

- Analyzed & developed the application using Java and integrating with React user interface
- Designed region specific credit reports, assets, alerts modules to improving the maintainability & reusability
- Enhanced security mechanism XSS, CSP, and Built new Dark web monitoring Restful API's.
- Responsible for Testing & Ensuring code quality with leveraging tools such as SonarLint, SonarQube, Checkmarx.
- Designed and developed Oracle database components such as DML, DDL operations and optimized performance

CreditViewDashBoard

Purpose of this component to providing the user interface to end user to access the all services from creditviewcore.
***Tech Stack**: React, Javascript, RestApi, CMS, Docker, K8S, GIT/Bitbucket, Jenkins.*

- Built reusable components using React with hooks and improved user experience.
- Designed & integrated new Rest API services using axios/fetch and managed dynamic contents in CMS tool.
- Responsible for debugging and troubleshooting the issues.

GlobalCreditViewCore

Purpose of this component to integrating the all creditviewcore services into the one component.
***Tech Stack**: Java/J2EE, React, RestApi, Oracle, JDBC, Hibernate/JPA, Maven, Wildfly, Docker, K8S, GIT/Bitbucket, Jenkins.*

- Managed the modernization & migration activities from creditviewcore services using Java and integrating with React.
- Designed & developed Dark web monitoring "data type" API end to end functionality.
- Responsible for Testing & Ensuring code quality with leveraging tools such as SonarLint, SonarQube, Checkmarx.
- Restructured the application layers and implemented JPA/Hibernate in data access layers.
- Integrated accessibility, logout, DWM new api functionalities in GCCS.

Developer **Sella India Software Services Pvt Ltd (Banca Sella)** **Mar'19 – Mar'22**
IT Risk Management Team Chennai, Tamil Nadu

Advanced Internal Rating-Based (AIRB)

The AIRB approach is an internal rating based model that helps to measure a **credit risk** of banking system.
Components : Smartlending, MrrtMS, RatingUnico ,Scoring, Mrrt, IRS, PdModelliAirb, SegmentaioneAirb, Rorac

Smartlending, MrrtMS & Rating Unico

Purpose of these components to request calculated Ratings, PD and Max Installment for External customers.
***Tech Stack**: Java/J2EE, Spring Boot, RESTful api, Oracle/SQL, JDBC, Hibernate/JPA, Maven, Tomcat, GIT/Bitbucket, Jenkins.*

- Analyzed and Developed application using Java/J2EE with Spring Boot and Rest API using Micro Services.
- Integrated api using Rest template & feign client to produce and consume the data from External services.
- Created Oracle SQL queries, stored procedure, functions for business logic processing
- Leveraged Junit & Mockito to achieve Code coverage and ensured the code quality by SonarQube regularly.

Scoring, Mrrt, PdModelliAirb, IRS, Rorac & SegmentaioneAirb

Purpose of these components to perform calculated Score, Ratings, PD value and also measuring the risk based profitability segmentation types for Bank customers.
***Tech Stack**: Java/J2EE, H2O, Oracle/PLSQL, SOA, JDBC, JSP/JSTL, JS, Html/CSS, Web logic, Maven, ANT, Docker, Junit/Mocks.*

- Designed and Developed, Testing the application using Java/J2EE with H2O framework.
- Worked in SOA architecture to create WSDL for API services.
- Developed PLSQL procedures/functions and Designed User Interface using JSP/JS libraries.
- Designed UI page using JSP/JS libraries and responsible for unit & peer testing activities.

DBUNrtSispa
This Component which handles to fetching the Queue messages from JMS server to web application and persist into DB.
***Tech Stack**: Java/J2EE, Spring Boot, JMS Queue, Oracle, Hibernate/JPA, Maven, Web logic, Tomcat, Junit.*

- Designed and Developed Java/J2EE Application with new Spring Boot component and JMS Queue Configuration.
- Configured JMS Server, Module, Connection factory, Queue Creation, in Web logic server.
- Integrated Application with JMS Server using JNDI and deployment activities to Tomcat Server and Unit testing.

Operational Risk
Managing the abnormal events such as Malfunctions, Inconsistent processes, System or human Error and Notify to users.
***Tech Stack**: Java/J2EE, Spring Framework, H2O, Oracle, SOAP, React JS, JSP, JS, Html/CSS, Maven, Jenkins, Web logic, Docker.*
Ciclocontrolli & OperationalRiskSuite

- Designed and implemented using Java/J2EE based application with H2O Framework (State machine).
- Integrated SOAP web service to application with using contract stub classes and testing, code coverage activities.
- Designed and Developed UI Interface and handling the Oracle Procedure, Functions and DB activities.

Software Engineer — **Interlace India Pvt Ltd** — **Dec'16 - Mar'19**
Java Team — Chennai, Tamil Nadu

EBharat - Mizoram, Aug '18 - Mar'19
The aim of the Government of Mizoram is to deliver as many services via Web application & Mobile platform to citizens.
***Tech Stack**: J2EE, Spring MVC, Hibernate/JPA, REST, MySQL, JSP, JSTL, Html/CSS, JS, Jquery, Maven, AJAX, JBOSS.*

- Analyzed & Developed application using Java/J2EE Technology with Spring MVC, REST.
- Handling the backend implementations with JDBC, Hibernate/JPA and Oracle activities.
- Designed UI Pages using with JSP, JS/Html/CSS. Responsible for unit Testing and Bug Fixing.

TNEB -HT Billing, Nov '17 – Aug '18
"TN Electricity Board" Centralized web based application for **High Tension** to manage New connection, Billing, Reading etc.
***Tech Stack**: J2EE, Spring MVC, Hibernate/JPA, ORACLE, Jasper, JDBC, JSP, JSTL, Html/CSS, JS, AJAX, JBoss, Maven.*

- Responsible for Java/J2EE Coding using Spring MVC and Hibernate (JPA) frameworks and Oracle backend.
- Configuration Report generation using Jasper Report with iReport Tool.
- Designed UI Pages using JSP, Html/CSS and field validations by using JavaScript and Jquery.

Management Intelligence System, Dec '16 - Nov '17
MIS-This system which is managed for mines and harbor coals handles such as Operations, Maintenance, Inventory, Transport.
***Tech Stack**: Java/J2EE, Spring MVC, Hibernate, MySQL, JSP, JavaScript, JQuery, Maven, JBoss.*

- Developed Java/J2EE application with Spring MVC, Hibernate (JPA) and Mysql.
- Requirement Analysis and SRS document preparation and designed prototype models.
- Involved in Database Related Activities and designed UI Pages using JSP, JS, Html/CSS.

Skills

- **Backend :** Core Java, J2EE, Jakarta EE, Java 8, Spring Core, Spring Boot, Spring MVC, Spring Security, Spring Data, JMS, Hibernate, JPA, Jasper Reports, Linux Shell Script.
- **Architecture & Web Services :** Microservices, REST Api, SOAP, SOA, OpenAPI.
- **Frontend :** React, JavaScript, JSP, HTML/CSS, JSTL, AJAX, jQuery.
- **Databases and Cloud :** Oracle, PL/SQL, MySQL, AWS.
- **Application Servers :** WildFly, WebLogic, JBOSS, Tomcat.
- **Testing Frameworks :** Junit, EasyMock, PowerMock.
- **CI/CD Build Tools :** Jenkins, Docker, Kubernetes, Maven, ANT, JIRA, SonarQube, Checkmarx.
- **Version Control :** GIT (BitBucket, GitHub), Tortoise SVN.
- **Monitoring Tools :** Splunk, Grafana.
- **Tools :** IntelliJ, Eclipse, VSCode, ERStudio, CMS, Postman, SoapUI, Iterable, Burp Suite.

Education and Certifications

- **M.C.A -** AVC College of Engineering in Mayiladuthurai, Anna University **- 78.8%** — **2013 - 2016**
- **B.C.A -** Annai College Of Arts & Science in Kumbakonam, Bharathidasan University **- 70.6%** — **2009 - 2012**
- **PGDCA** - Sree Aravindha Educational Trust in Kumbakonam, Alagappa University - **70%** — **2012 - 2013**
- **HSC -** George Higher Secondary School in Vishnupuram**, 65.5%** — **2009**
- **SSLC -** Government Higher Secondary School in Eravanchery**, 65.2%** — **2007**
