JAI

Staff Software Engineer

About Me

Results-driven Staff Software Engineer with 8+ years of experience in full-stack development, technical leadership, and product innovation across fintech and telecom domains. Proven expertise in microservices architecture, cloud-native development, and cross-functional team leadership. Co-founder of a tech startup and current technical owner of Visa's fraud detection platform. Passionate about AI/ML, LLMs, and building scalable, secure systems that align with business goals.

Skills

- **Programming Languages:** Java, JavaScript, SQL, Python
- **Frameworks & Libraries:** Spring Boot, Hibernate, ReactJS, Redux, Angular
- **Databases:** MySQL, MongoDB
- **Cloud & DevOps:** Jenkins, Docker, CI/CD
- **Architecture & Design:** Microservices, RESTful APIs, Event-Driven Architecture, Scalable System Design
- **Testing & Quality:** JUnit, Mockito, Test-Driven Development (TDD)
- **Soft Skills:** Technical Leadership, Stakeholder Management, Mentorship, Agile/Scrum, Strategic Planning
- **Learning:** Deep Learning, Large Language Models (LLMs)

Experience

Staff Software Engineer

Visa

March 2022 –present

- Technical Lead & Application Owner for the Global Investigation Management Tool, a high-impact platform for fraud reporting, investigation lifecycle, and alerting across Visa's global network.
- Architected and led development of scalable microservices using Java 8, Spring Boot, and MySQL, with Angular-based frontend.
- Owned the technical roadmap, collaborated with global stakeholders, and ensured alignment with compliance and fraud prevention strategies.
- Spearheaded performance optimization, database tuning, and CI/CD pipeline improvements.
- Mentored junior engineers, conducted design/code reviews, and drove engineering excellence across the team.

Senior Consultant

Ernst & Young

August 2020 – March 2022

- Full Stack Developer for Marcus, a UK-based online savings bank. Developed RESTful APIs using Java 11, Spring Boot, and integrated with MongoDB and Kafka for real-time data processing.
- Built responsive UI components with ReactJS and Redux, enhancing customer experience.
- Implemented asynchronous processing using RxJava and Vert.x, improving system performance. Collaborated with DevOps and QA teams to streamline CI/CD and ensure high code quality

Co-Founder & Director

Nibrus Technologies Pvt. Ltd.

July 2019 – August 2020

- Co-founded and led Nibrus Technologies, a startup focused on Autonomous Survey Drones for industrial and agricultural applications. Directed product strategy, engineering, and go-to-market execution.
- Led investor pitching, funding discussions, and engagement with incubators and angel networks. Managed cross-functional teams across hardware, software, and business operations.
- Built web-based interfaces for customer onboarding and operational workflows. Negotiated vendor partnerships and drove customer acquisition, demonstrating strong entrepreneurial leadership

Extracurricular Activities

- Coordinator – Cognitia 2015 (NIT Meghalaya Tech Fest)
- Member – Robotics & IoT Club, NIT Meghalaya

Hobbies

- Playing Guitar
- PixelArt creation
- Software Prototyping

Language

English 100%

Hindi 100%

Software Engineer

Virtusa

July 2017 – July 2019

- Java Developer for British Telecom's White Label Managed Services. Developed portal and inventory modules using Core Java, Spring Webflow, and Hibernate.
- Delivered scalable solutions for B2B/B2C telecom services, including billing and customer management. Collaborated with large distributed teams across PCM, RBM, and middleware components.

Research Intern

IIT Bombay

June 2016 – July 2016

- Developed Compact Automated Waste Digester (IoT-enabled) at ERTS Lab under Prof. Kavi Arya.
- Focused on embedded systems, sensor integration, and automation for smart waste management

Education

BITS Pilani — **2023 - 2025**
MBA - FinTech — CGPA: 7.14

NIT Meghalaya — **2013 - 2017**
B.Tech — CGPA: 7.05

CBSE
Class XII — 82.6%
Class X — CGPA: 9.0

Achievements

- Second place – Visa CIT Bangalore Codefest
- Kudos Awards - EY 2021
- Startup Incubation and Funding - Nibrus Tech.
- First prize – e-Yantra Robotics Competition (IIT Bombay)
- First prize – 'Stair Clamber' Robot (TechXetra, Tezpur University)
- Second prize – 'Off the Road' Robot (TechXetra)
- Second prize – 'Line Following Robot' (Cognitia, NIT Meghalaya)
- Second prize – 'Load Upholder' (Cognitia)
