Detail-oriented, organized and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

Skills

- **Tech Stacks**: **Golang, SDN Technology, REST API, GRPC, Kubernetes, docker, Kafka, Python, PON technology, AWS lambda, DynamoDB, SQS, SNS, Kinesis streams, S3 bucket, CloudWatch, SQL, RabbitMq, GORM**

Operating System: Linux, Windows

Protocols: TCP/IP, UDP, OMCI, BGP

Tools: GIT, JIRA, Wireshark, REDIS dB, ETCD

Soft Skills: Leadership, Time Management

Work History

2018-06 - 2022-10

Senior Software Engineer

Radisys India Limited, Bengaluru

Client: Reliance JIO

- I was part of the Control Plane team in SDPON project and was working on broadband access system integration and on OMCI protocol based in **Go language**. Hands on experience in platform engineering such as **Kubernetes and Docker** to make our software more scalable and robust.
- Worked on various VLAN control models, alarm frameworks.
- Design and Discussion: Held ownership of modules and active participation in design and discussion of LLD/HLD for different features like building many frameworks in SDPON software.
- Worked with project managers, developers, quality assurance and customers to resolve technical issues.
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Worked with software development and testing team members to

design and develop robust solutions to meet client requirements for functionality, scalability and performance.

- Trained and mentored junior developers and engineers, teaching skills in end to end system integration and OMCI protocol and working to improve overall team performance.

Skillsets Used: **Golang, Python, Kubernetes, docker, Kafka, UDP, Multicast, OMCI,Redis DB, SDN, Distributed architecture, Cloud Native architecture, Platform Engineering.**

2022-10 - 2024-7

Associate IT Consultant-IS2

ITC Infotech, Bengaluru

Client: Well's Pharmacy

- I am part of the Backend team in Well's pharmacy project and working on building backend system for Well's ecommerce website where customers can buy online clinical products and medicines and schedule appointments with doctors.
- Worked on Shipment API's integration using tech stacks like **Golang,AWS Cloud services like SQS, SNS, DynamoDB, AWS lambda, SendGrid** framework to deliver orders to customer's doorstep.
- Created subscription model using **Golang & Combination of AWS SQS and AWS SNS fanout pattern, AWS lambda, AWS DynamoDB, AWS kinesis streams** to create distributed scalable system which was handling 10k+ requests per day.
- Design and Discussion: Held ownership of modules like subscription manager, clinical review, hoff proxy component and active participation in design and discussion for LLD/HLD for different features like building many frameworks in Well's project.
- Worked with project managers, developers, quality assurance and customers to resolve technical issues.
- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations.
- Worked on Payment gateway like Braintree and integrated it with subscription model for automatic payment process.
- Worked on ONSCHED API integration with shop model for booking appointments with doctors, cancel appointments and many more.

- Trained and mentored junior engineers, teaching skills in End-to-end system integration and **Golang** toimprove overall team performance.

Skillsets Used: **Golang, AWS lambda, DynamoDB, kinesis stream, SQS, SNS,CloudWatch, S3 bucket, Payment Gateways, Shipment process integration, MySQL, Serverless Framework, CI/CD pipeline, Cloud Architecture, Platform Engineering.**

2024-07 -2025-5

Principle Development Engineer

Calsoft, Kolkata

Client: Extreme networks

- I am part of the Back end team of total 15 developers where leading 10 developers, leading the team.
- Giving KT sessions to juniors regarding **Golang** and **kubernetes** and learning new tech skills like **RabbitMQ**, **GORM** framework, **etc....**
- Working on data center networking automation product where we are configuring data center networking devices via our efa(extreme fabric automation) solution and creating many configurations on SLX switches. For ex: BGP, Overlay-underlay network, VXLAN. VLAN, LLDP, configure Maintenance mode and may more.
- Working on Gen4 OS integration along with efa solution to make efa compatible for both Gen4 OS switches and SLX switches and creating extreme platform one.

2025-05 -Present

Software Engineer III

Cisco Systems, Bengaluru

Project: SoNIC – Manageability Team

- Working as part of the **Manageability Team** in the **SoNIC project**, focusing on enhancing network device management and automation.
- Contributing to the **OpenConfig YANG data model** to ensure standardized configuration and telemetryacross network devices.
- Developing and maintaining features in **Golang** for the **sonic-mgmt-common module**, Implementing **gNMI** operations such as **Get**, **Set**, **Update**, and **Replace**.
- Designed and delivered configurations for **BGP Prefix Lists** and **BGP Neighbors** using **OpenConfig YANG** models and **gNMI** interfaces.
- Worked extensively on **OpenConfig platform components**, ensuring seamless integration with SoNIC's network management framework.
- Leveraging **Redis DB** as a backend data store to manage configuration states efficiently.
- Collaborating with cross-functional teams to deliver scalable and robust management solutions for **SoNIC's** network operating system.

Skillsets Used: Golang, OpenConfig YANG, gNMI, Redis DB, SoNIC, Network Management, BGP Configuration, Platform Components.

'Education

Bachelor of Engineering Technology: Electronics And Instrumentation Engineering

JIS College of Engineering - Kalyani, West Bengal, North 24 Parganas

CGPA: 8.9

Additional Information

- Awards: Awarded Department Champion in Radisys Codeathon - 2021.

Interests

- Watching web series in my free time or any educational video based on stock market.
- Playing chess and table tennis.
