PRASANTHKUMAR RAJENDRAN

Software Engineering Manager | Lead .NET Architect | AWS & Microservices Specialist

Chennai, India | +91 8973093473 | judoprasanth13@gmail.com | https://linkedin.com/in/prasanthkumar-r

---

PROFESSIONAL SUMMARY

Software Engineering Manager with 8+ years of experience designing scalable SaaS platforms using .NET, AWS, and Microservices architecture. Proven leader managing 10–15 engineers delivering enterprise applications serving 1M+ users. Expert in cloud-native system design, distributed architecture, CI/CD automation, and high-performance API development.

TECHNICAL SKILLS

Backend: .NET 8, ASP.NET Core, C#, Web API, MVC, Node.js
Frontend: Vue.js, React (Remix), JavaScript, TypeScript
Databases: SQL Server, PostgreSQL, Redis
Cloud & DevOps: AWS (EKS, S3, SES, Secrets Manager), Docker, Kubernetes, Jenkins
Architecture: Microservices, Distributed Systems, System Design, Design Patterns
Testing: xUnit, NUnit, Postman, Playwright
Methodologies: Agile, Scrum, Technical Leadership

PROFESSIONAL EXPERIENCE

Span Technology Services

Software Engineering Manager | Jan 2025 – Present

- Led engineering delivery of U.S. enterprise tax platforms serving 1M+ users, ensuring high availability and scalable microservices architecture.
- Managed cross-functional team of 10–15 engineers across development, QA, and DevOps, improving sprint delivery efficiency and release stability.
- Architected AWS EKS-based microservices platform supporting 1M+ users, improving system scalability and deployment reliability.
- Drive Agile delivery, sprint planning, and stakeholder collaboration.

Lead Software Engineer | Nov 2022 – Jan 2025

- Led migration of legacy monolithic applications to Microservices and Micro-frontend architecture, improving scalability and deployment flexibility.
- Built Jenkins CI/CD pipelines, reducing deployment effort by 40%.
- Optimized SQL queries improving API performance by 35%.
- Conducted architecture reviews and mentored development teams.
- Led production support and root cause analysis for critical issues.

Software Engineer | Oct 2020 – Nov 2022

- Developed high-performance ASP.NET Core applications supporting 1M+ users and processing thousands of daily transactions.
- Designed scalable RESTful APIs for financial data processing.
- Collaborated with QA and DevOps teams to deliver stable production releases.

---

iSolve Technology Services

Associate Software Engineer | Jun 2019 – Oct 2020

- Developed full-stack applications using .NET Web API and SQL Server.
- Built backend services supporting mobile and web platforms.

CIITE

Junior Software Engineer | Dec 2017 – Jun 2019

- Contributed to enterprise ASP.NET web application development.
- Reduced production defects by 20% through improved testing practices.

KEY PROJECTS

TaxBandits 94x – Project Manager
Led a 10-member engineering team delivering IRS-compliant tax filing systems.

TaxBandits 1099/W2 – Lead Developer
Developed high-volume IRS tax filing modules supporting thousands of businesses and processing large-scale financial data submissions.

TaxBandits ACA / EFTPS – Technical Lead

Designed scalable .NET microservices handling IRS tax compliance workflows and high-volume financial data processing.

ACAWise – Technical Manager
Oversaw engineering delivery and architecture for ACA compliance platform.

ACHIEVEMENTS

- Employee of the Year – 2024
- Best Trainer of the Month – 2023
- Best Depute of the Quarter – 2023

EDUCATION

Master of Computer Applications (MCA) — Periyar University (2018)
Bachelor of Computer Applications (BCA) — Sengunther Arts and Science (2015)
