SANGRAM KESHARI ROUT

Software Development Engineer in Test (SDET) | QA Engineer | Automation Test Engineer

Bangalore | routsangram98@gmail.com | +91 7008891638 | LinkedIn

Professional Summary

Results-driven **Software Test Engineer / SDET** with **3+ years of experience** in **Manual Testing, Automation Testing, and API Testing** across **CRM, E-Commerce, and Hospital Management Systems**. Strong expertise in **Java, Selenium WebDriver, TestNG, Maven, Jenkins, SQL, and Rest Assured**. Proven ability to design scalable automation frameworks, improve regression efficiency, and ensure high-quality software delivery in **Agile/Scrum environments**. Hands-on experience with **CI/CD pipelines, defect management, and backend validation**. Continuously enhancing skills to deliver **developer-level test automation solutions**.

Core Skills

Testing: Manual Functional Testing, Integration Testing, System Testing, End-to-End (E2E) Testing, Regression Testing, Smoke Testing, Sanity Testing, API Testing.

Automation: Java, Selenium WebDriver, TestNG, Maven, Page Object Model (POM), Data-Driven Frameworks

Processes: SDLC, STLC, Defect Life Cycle, Test Planning, Test Case Design, Defect Tracking.

Methodologies: Agile, Scrum.

Tools: Jira, TestRail, Postman, BrowserStack, Eclipse, CI/CD (Jenkins), Git & GitHub.

Experience

Software Development Engineer in Test (SDET) **Mar 2022 – Present**
Fusion Technosoft Pvt. Ltd. Bangalore, India

- Managed end-to-end **STLC activities**, including requirement analysis, test planning, test case design, test execution, defect management, regression suite execution, and **Requirements Traceability Matrix (RTM)** preparation.
- Executed **manual functional, integration, and regression testing** for web-based applications and backend-integrated systems, ensuring compliance with quality standards.
- Performed **API testing using Postman** to validate business workflows, backend services, and data integrity across multiple REST endpoints.
- Developed and maintained **automation scripts using Java and Selenium WebDriver** for critical workflows (e.g., registration forms and contact forms), improving regression stability and repeatability.
- Conducted **cross-browser and cross-device testing** using BrowserStack to ensure consistent user experience across environments.
- Managed the complete **defect life cycle** using Jira and TestRail, including defect logging, root cause analysis, retesting, and fix verification.
- Collaborated closely with **developers, business analysts, and product owners** in Agile/Scrum teams to support timely and stable releases.

Education

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering
GIFT Autonomous Engineering College, Bhubaneswar, Odisha 2015 – 2019
CGPA: 7.41

Certifications & Training

- **Selenium Automation Testing with Java** – Completed project-based training at QSpider, gaining hands-on experience with Selenium WebDriver, TestNG, and Cucumber frameworks for automated test execution and validation.
- **Employee of the Month – September 2024** for exceptional test coverage and defect reporting at Fusion Technosoft Pvt. Ltd.
