# Rohith Ambalatharasu, Engineer – ANZ Bank

rohitharasu1995@gmail.com | **+91-9994866211** | https://www.linkedin.com/in/rohith-ambalatharasu/

## PROFESSIONAL SUMMARY

**Full Stack Software Engineer with 9+ years of experience** delivering scalable solutions across banking, healthcare, and life sciences. Proficient in **Java, Spring Boot, Hibernate, Oracle PL/SQL, Cassandra**, and **RESTful APIs**, with strong frontend skills in **HTML, CSS, JavaScript, React JS**. Experienced in **data structures, algorithms, system design (HLD, LLD)**, **SDLC**, and **GitHub Copilot** for accelerating development and improving code quality. Solid foundation in **data structures, algorithms**, and building robust, maintainable architectures.

## TECHNICAL SKILLS

**Programming Languages:** Java (8+), J2EE, JavaScript (ES6+), HTML5, CSS3, Oracle PL/SQL & Cassandra db.
**Backend Development:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate, RESTful API Design & Development
Adobe Experience Manager (AEM) 6.5, AEM as a Cloud, Migration from Day, 6.2 to AEM as a cloud service.
**Frontend Development:** React JS, Responsive UI Design, DOM Manipulation, Zustand
**Architecture & System Design:** High-Level Design (HLD), Low-Level Design (LLD), Design Patterns, Microservices Architecture, Object-Oriented Programming (OOP). **SDLC & Agile Practices:** Full Software Development Life Cycle (Requirement Analysis, Design, Development, Testing, Deployment, Maintenance), Agile & Scrum Methodologies
**Development Tools:** Swagger, Postman, Maven, IntelliJ, VS Code, Crucible, GitHub Copilot – Claude 3.5, 3.7, GPT o3.
**Containerization, Version Control & Collaboration:** Docker, Jenkins, Codefresh, Git, GitHub, JIRA, Confluence

## PROFESSIONAL EXPERIENCE

### ANZ Bank, Engineer — Aug 2024 – Till Present

- Spearheaded the design and development of scalable RESTful APIs using **Spring Boot**, powering appointment scheduling across Retail, Commercial, and Business verticals. Integrated **JRNI APIs**, improving appointment success rate by **40%**
- Enhanced backend systems with **Hibernate** and **Spring Data JPA**, optimizing query response time by **20%** through pagination, caching, and custom JPQL queries. Engineered responsive UI with **React JS** and **Tailwind CSS.**
- Conducted thorough **PR reviews** focusing on code readability, maintainability, and adherence to SOLID principles across backend and frontend repositories. Containerized services using **Docker** and orchestrated builds via **Jenkins**Worked in Agile sprints, collaborating across product owners and DevOps teams to deliver release-ready features
- Regularly audited incoming code for **security vulnerabilities**, **anti-patterns**, and **performance bottlenecks**, driving quality standards through detailed review feedback using **Blackduck** and **Checkmarx**.

### Adobe Inc, Senior Technical Consultant — Nov 2021 - Aug 2024

- Led end-to-end **design discussions** and architectural reviews for enterprise-grade web solutions across the **Banking** and **Airline** domains. Developed and maintained **editable templates**, custom and OOTB components, and **workflows** using **AEM as a Cloud Service** and **AEM 6.5**, ensuring modularity and reusability across platforms
- Collaborated with business analysts and UX teams to deliver scalable content structures tailored for multilingual and multi-brand environments. Integrated **Adobe Target** for personalized experiences, creating **activity-based rule sets** to enhance user segmentation and conversion. Configured **Adobe Launch** for tag management and event tracking across journeys.
- Gained **hands-on experience with Groovy scripts** to automate and streamline **content migration** from legacy **CRX repositories to OAK**, ensuring integrity and reducing manual overhead during AEM upgrades
- Provided mentorship to junior engineers and led code reviews, helping uplift component design quality and build standards.

### Deloitte, Consultant — Jul 2020 – Nov 2021

- Designed and implemented modular components and editable templates using **AEM as a Cloud Service**, enabling scalable content authoring for enterprise portals.
- Developed and integrated **RESTful APIs** with AEM backend services to facilitate dynamic content delivery and workflow automation across tax and consulting platforms. Collaborated with cross-functional teams to streamline content management and asset workflows, improving authoring efficiency and reducing deployment cycles

### Cognizant Technology Solutions, Associate — May 2016 – May 2020

- Assisted in building and testing **RESTful APIs** using **Spring Boot**, with tools like **Swagger** for documentation and **Junit5/Mockito** for unit testing. Collaborated with senior developers to enhance microservice components, gaining hands-on experience in debugging, API integration, and agile delivery
- Supported healthcare applications by writing and optimizing backend logic with **Oracle PL/SQL** and **Facets TriZetto**

## CERTIFICATION - Adobe Certified Professional – Adobe Experience Manager (AEM) Developer

## EDUCATIONAL QUALIFICATION

Bachelor of Engineering (BE) - Electrical & Electronics
2016 | Anna University, Chennai
