PROFILE

AI & Python Developer with extensive experience in backend systems, Generative AI, and full-stack application development. Alongside hands-on engineering work in RAG architectures, AI agent frameworks, and scalable API-driven platforms, have trained 30,000+ students across 40+ engineering institutions in India and recorded 100+ structured technical learning modules. Combines strong software engineering fundamentals with large-scale industry enablement and practical, project-based AI implementation expertise.

EDUCATION HISTORY

MBA in Data Science

SSBM Geneva

96.3 %

Bachelors in Engineering

SPPU(Pune University)

- Aggregate CGPA of over 9.0.
Last year SGPA of 10.0

WORK EXPERIENCE

TECHNICAL CONSULTANT – FULL STACK & AI SYSTEMS

- Phonetic | June 2025 – Present
- Designed scalable web architectures using Next.js, contributed to AI-driven feature planning and system-level architecture, and conducted code reviews to enforce structured development workflows.

SOFTWARE ENGINEER

- EZTS | 2022
- Helped building LMS using nextjs, react, tailwind css.

FOUNDER - PLACEASE | 2024 - PRESENT

Leading technology strategy and program execution focused on AI and full-stack development, architecting a custom LMS for automated assessments and project-based learning, and conducting AI & Generative AI workshops to deliver industry-aligned insights on current market trends and practical implementation strategies.

SENIOR TECHNICAL TRAINER AND DEVELOPER (CONTRACTUAL & PARTNERED) | 2019 – PRESENT

Collaborating with training and product-based organizations to deliver high-impact to 30k+ students to over 40+ institutions all over india, industry-aligned technical programs; key associations include ByteXL (since 2021), EZTS (since 2022), AlgoTutors (since 2024), Phonetic, LogicWhile, Coign, Talentio, Value Laden, and other institutional partners.

SHREE KRUSHANDAS GOSHALA WEBSITE

Developed and deployed a responsive website using Next.js and Tailwind CSS, focusing on performance optimization and clean UI architecture.

TECHNOLOGIES & DOMAINS

- **Programming & DSA** : C, C++, Java, Python, SQL, OOPs, Advanced Data Structures & Algorithms
- **Generative AI & Agentic AI** : RAG, Vector Databases, LangChain, LangGraph, CrewAI, AutoGen, Multimodal AI
- **Data Science & ML** : Pandas, NumPy, Scikit-learn, Power BI, Visualization, ML Pipelines
- **Web & Full-Stack** : HTML, CSS, Tailwind CSS, JavaScript, React, Next.js, Django, Flask, Streamlit, UI UX design, Figma
- **Cloud & Tools** : AWS, Azure, Git, GitHub
- **Soft Skills Training** : Communication, Leadership, Interview Skills, Personality Development

CERTIFICATIONS and TECHNICAL ACHIEVEMENTS

1. IBM Generative AI & Agentic Systems Specialization
- Develop Generative AI Applications
- Build Retrieval-Augmented Generation (RAG) Applications
- Vector Databases for RAG
- Advanced RAG & Retriever Architectures
- Multimodal Generative AI Systems
- Fundamentals of AI Agents
- Agentic AI using LangChain, LangGraph, CrewAI, AutoGen & BeeAI
2. Advanced Certification in Data Analytics TIH IIT Roorkee & Intellipaat | 2026
3. Golden Badges – HackerRank (C, Python, Java, SQL, Problem Solving)
4. Pandas Badge – LeetCode
5. 9+ Professional Certifications in Soft Skills & Communication
