Harshini Ravichandar

Quality Analyst

9597673701 | harshiniravichandar12@gmail.com

PROFILE SUMMARY

Quality Analyst with **2.8+ years of experience in Manual & Functional Testing**, specializing in **Web and Portal Applications**. Strong expertise in **SDLC, STLC, Agile/Scrum, and Defect Management** with hands-on experience in requirement analysis, test case design, and end-to-end functional validation. Skilled in **JIRA, Rapid Data Tracker, Postman (API Testing), SQL**, and UAT coordination. Proven ability to improve defect detection, reduce production issues, and deliver stable, high-quality releases.

TECHNICAL SKILLS

Testing Types: Functional, Regression, Integration, System, Smoke, Sanity, UAT
Tools: JIRA, Rapid Data Tracker, Postman
Database: SQL
Methodologies: Agile / Scrum
Concepts: SDLC, STLC, Test Case Design, Defect Lifecycle, RTM, Requirement Analysis
Applications: Web & Portal Testing

PROFESSIONAL EXPERIENCE

Rapid Data Technologies – Quality Analyst
September 2025 – Present
Project: ITSM (KHDA) & Himmatak (ZHO)

- Designed, prepared, and executed **250+ manual test cases** for ITSM and enterprise web applications, improving defect detection by **30%**.
- Performed **Functional, Regression, Smoke, Sanity, System, and Integration Testing** across multiple releases.
- Validated **end-to-end workflows** including ticket creation, assignment, escalation, SLA tracking, and closure.
- Tested **role-based access control** for Requester, Agent, Admin, and Approver roles.
- Verified **SLA rules, notifications, email alerts, approvals, and escalation configurations**.
- Conducted **integration validation** with Email, LDAP/Active Directory, and monitoring tools.
- Logged and tracked **200+ defects** using Rapid Data Tracker with proper lifecycle management.
- Supported **UAT** by coordinating with business users and validating reported issues.
- Prepared **test execution reports, defect metrics, and release sign-off documentation**.
- Actively participated in **Sprint Planning, Grooming, Daily Stand-ups, Reviews, and Retrospectives**.
- Reduced post-release defects by **25%** through strong regression and exploratory testing.

Skill-Lync, Chennai – Quality Analyst
October 2022 – January 2025

- Designed, prepared, and executed **200+ manual test cases** for web and internal portal applications, improving defect detection by **25%**.
- Performed **Regression, Smoke, Sanity, and UAT testing** for e-learning modules, payment gateways, and internal portals.
- Logged and tracked **150+ defects in JIRA**, ensuring timely resolution and accurate reporting.
- Created **test scenarios, test data, and RTM** to ensure complete requirement coverage.
- Conducted **API testing using Postman** to validate backend responses.
- Wrote and executed **SQL queries** to verify backend data integrity and reporting accuracy.
- Collaborated in **Sprint Planning, Story Grooming, and Retrospectives** within Agile teams.
- Reduced production bugs by **20%** through strong regression suites and exploratory testing.
