Md Mahmood

Software Engineer

mahmoodshaik10@gmail.com *+91-7674892729* *Masabtank, Hyderabad-500004.* *Connect with me on*

Started my career in IT as a Software Engineer after completing my engineering in Computer Science. With 4 years of experience, specializing in React Native and React.js development, I focus on app development. I am passionate about exploring emerging technologies and, as a team player, actively engage with my team to achieve project goals on time.

SKILLS

Primary:

◆ React Native ◆TypeScript ◆React Navigation ◆React.js ◆JavaScript ◆ Redux Toolkit ◆GraphQL ◆React Query ◆JEST ◆JSON ◆ES6 ◆Redux ◆Firebase Feature flags ◆Xcode ◆Android Studio ◆ React Native CLI ◆Expo ◆Hybrid App Development ◆Git/Git Bash ◆Analytical ◆Zustand ◆RESTful APIs ◆Sentry ◆BackstopJS ◆Babel ◆HTML ◆CSS

Secondary:

◆Azure DevOps ◆Jenkins ◆CI/CD ◆SAFe Agile ◆ Node.js ◆Postman ◆Proxyman ◆Cypress ◆Crodwin ◆Confluence ◆PHP ◆Python ◆Material-UI ◆SQL ◆Zod

EXPERIENCE – Tata Consultancy Services

Systems Engineer (Oct-2021 to till date – 4 years)

Best Buy US – **Best Buy**

React Native Developer (Aug-2024 to Present)

- Analysed client requirements and translated them into app features while developing reliable code using Test-Driven Development.
- Debugged and fixed app bugs, working with cross-functional teams to solve technical challenges.
- Used agile methodologies, joined stand-up meetings, and delivered sprint demos to the product team.
- Ensured code quality through clean code practices and regular PR reviews, and maintained product-specific documentation on Confluence.
- Suggested code improvements in PR reviews, contributed to both mobile and web development, and improved technical skills through continuous learning.

Colruyt Belgium – **Xtra**

React Native Developer (Sept-2023 to Aug-2024)

- Developed and maintained the Xtra App for Belgium and France, focusing on both iOS and Android platforms at Colruyt Group India.
- Implemented platform-specific code and managed feature flags in production apps using Firebase.
- Utilized Redux Toolkit for state management, along with advanced TypeScript, ES6+ features, GraphQL, React Query, Zustand, and Jest.
- Ensured code quality through clean code practices and regular PR reviews, and maintained product-specific documentation on Confluence.
- Handled incidents from Alpha, Beta, and App Store users and participated in app validation tests for Release candidate build and Client build.
- Delivered biweekly system demos to the business, integrated code as per feedback, and adhered to European work culture standards.

Unum UK – **MyUnum**

React Native Developer (Dec-2022 to Aug-2023)

- Developed and integrated components and screens for the MyUnum for Members app using React Native, React.js, and TypeScript.
- Collaborated closely with the Product Owner and UX designer, while working within an agile team.
- Debugged and resolved issues as part of the team, and handled incidents from Alpha, Beta, and App Store users.
- Participated in app validation tests for RC build, Candidate build and adapted to European work culture.

Unum UK - Claims Management System

React.js Developer (March-2022 to Nov-2022)

- Migrated a VB-based application to React.js using React Functional Components, Context API, and TypeScript.
- Developed screens based on Figma designs and implemented end-to-end flows for 6 health insurance products. Successfully migrated application in React.js Technology.

Unum US – Total Leave

React.js Developer (Oct-2021 to Feb-2022)

- Developed the front-end of the Finoes web application for automating mails and letters related to health insurance, disability, and leaves using React.js.
- Utilized Cypress for unit testing and collaborated with US developers.

INTERNSHIP – TalentSprint

Software Engineer Intern (April-2021 to Sep-2021 - 6 months)

- Gained hands-on experience in web and full-stack development while working with the company's core technology team.
- Worked with software tools like Drupal, Leadsquared, and PhpMyAdmin.
