Suresh D

AZURE / AWS – DevOps Engineer

SUMMARY

Cloud-focused DevOps Engineer with **6+ years** of experience in automating deployments, managing infrastructure, and optimizing workflows on **Azure and AWS** platforms. Seeking opportunities to drive digital transformation through innovative DevOps practices.

WORK EXPERIENCE

DevOps Engineer

Intellect Design Arena Ltd 05/2023 – 02/2026

- Designed and implemented the CICD processes for app & infra to achieve maximum automation across environments and eliminated manual activities.
- Managed the deployment of services across the UAT, Pre-Prod and Production environments.
- Worked with customers from Europe and Canada on their digital transformation journey with the adoption of DevOps practices and cloud platforms like Azure and AWS.
- Automated AWS EKS and Azure AKS cluster provisioning and deployment using Jenkins.
- Worked extensivelyin Azure DevOps pipelines to deploy Terraform files.
- Migrated GitHub projects to Jenkins and automated deployment workflows.
- Configured and managed Cluster Autoscaler for EKS clusters.
- Provisioned ALB and Azure Application Gatewayload balancers, as well as NGINX Ingress Controllers for EKS and AKS clusters.

DevOps Engineer

HCL Technologies 08/2021 – 02/2023

- Hands on experience in Jenkins for continuous integration and End to End automation for builds and deployments.
- Worked with Configuration Management tools like Ansible to manage multinode configurations via YAML scripts over SSH.
- Created Docker images using Jenkins CD pipelines and deployed pods in Azure using declarative pipelines.
- Created and managed IAM policies, roles, and user access within AWS.
- Strong experience in Terraform scripting for infrastructure as code.

Operation Engineer

Karix Mobile Private Limited 10/2019 – 08/2021

- Monitored production systems, applications, and network performance using tools like CheckMk, Nagios, Kibana, and Grafana.
- Deployed builds using Jenkins and resolved build & release job failures in collaboration with developers.
- Integrated Jenkins CI with Git version control and implemented continuous build processes triggered by commits, pushes, merges, and pull requests.
- Utilized CloudWatch to monitor resources like EC2 instances, CPU, memory, and EBS volumes, and configured alarms for notifications.

SKILLS & TOOLS

- AWS (EKS, EC2, EFS, S3, IAM, ALB)
- Azure (AKS, Blob Storage, Application Gateway, File Share)
- Jenkins /Azure DevOps
- Terraform
- Kubernetes
- OpenShift
- Helm Charts
- Scripting: Shell, Groovy
- GIT
- Nagios & Grafana
- SQL

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering

Sri Muthukumaran Institute of Technology, Mangadu, Chennai.

06/2014 - 05/2018
