PROFILE SUMMARY

Full Stack Software Engineer with 3.5+ years of experience designing, developing, and deploying scalable web applications and microservices. Hands-on expertise in **.NET Core, ASP.NET MVC, Python, JavaScript, and React**, with strong database skills across **SQL Server, MySQL, Postgres, and MongoDB.** Experienced in building **RESTful APIs**, system integrations, performance optimization, modular architecture, and cloud-native deployments using **AWS, Docker, Kubernetes**. Skilled at collaborating with Agile teams to deliver secure, maintainable, and production-ready solutions.

WORK EXPERIENCE

Software Engineer (Full Stack) *May 2024 – Present*
EasyRewardz Software Services *Gurugram, India*
Tech: .NET Core, ASP.NET, JavaScript, SQL Server, Elasticsearch, JWT, OAuth2, Git

- Developed and maintained full-stack modules in **.NET Core** and **ASP.NET MVC**, improving maintainability and release efficiency.
- Designed and optimized SQL Server database models and stored procedures,reducing query execution time.
- Increased application reliability by implementing centralized logging and monitoring.
- Implemented Elasticsearch indexing to enable faster search & analytics, reducing response latency.
- Worked in Agile Scrum environment coordinating with backend, QA, and DevOps teams.
- Participated in Agile ceremonies (daily stand-ups, sprint planning, retrospectives) ensuring timely delivery and cross-team collaboration.

Full Stack Developer *Oct 2023 – May 2024*
PRD Robotech Solutions *Noida, India*
Tech: Python (Flask), MongoDB, React/HTML/CSS/JS, REST API Integration,.NETCore, ASP.NET, JavaScript,SQL Server

- Developed modular services for robotics workflow automation, improving operational efficiency.
- Designed and implemented database schemas in MongoDB to support real-time dashboard analytics.
- Built responsive UI components to enhance application usability and performance.
- Optimized **RESTful API** responses leading to smoother real-time updates across devices.

Full Stack Developer *Nov 2022 – Sep 2023*
ZeroPoint Robotics *Bangalore, India*
Tech: Python (Flask), MongoDB, REST APIs, React, JavaScript

- Built scheduling & pipeline execution platforms to support automated robotics workflows.
- Developed **reusable backend service components,** reducing development effort on new modules.
- Integrated UI and backend layers for consistent data flows and improved maintainability.
- Participated in **CI/CD release cycles**, identifying and resolving deployment issues.

Software Engineer Intern (R&D) *May 2022 – Nov 2022*
Radware Innovation Center *Bangalore, India*
Tech: Java (Spring Boot), Kafka, Redis, Docker, Kubernetes, Elasticsearch, Grafana

- Contributed to **microservices** development in **Spring Boot**.
- Worked with **Kafka & Redis** for distributed, real-time data streaming.
- Deployed containerized microservices using **Docker, Kubernetes**.
- Monitored production systems using **Grafana** dashboards and Kibana logs.

TECHNICAL SKILLS

- **Programming**: C#, Python, Java, JavaScript
- **Backend**: .NET Core, ASP.NET MVC, Django, Flask, Node.js, Express.js
- **Frontend**: React.js, Angular, JavaScript (ES6+), HTML5, CSS3, Bootstrap, jQuery
- **Databases**: SQL Server, MySQL, Postgres MongoDB, Redis
- **Microservices & Cloud**: RESTful API, Microservices Architecture, AWS (EC2, S3), Docker, Kubernetes
- **DevOps & Tools**: Git, GitHub, Jenkins, CI/CD Pipelines, Linux, ELK/Elasticsearch, Grafana

EDUCATION

Bachelor of Technology in Computer Science & Engineering — *July 2018 – June 2022*
Anand Engineering College, Agra — CGPA: 7.6

CERTIFICATIONS / TRAINING

- Google Cloud Digital Leader (GCDL)
- Python Training — Infoseek (My5 Technologies Pvt Ltd), Lucknow
- Soft Skills and Personality — NPTEL

PROJECTS

Control Tower-WebApp *(PRD Robotech Solutions)*
Tech: C#, .NET MVC, MySQL, jQuery, HTML, CSS, JavaScript, React

- Developed a **logistics and inventory management dashboard** with **real-time order tracking**.
- Built **modular backend services** in **.NET MVC** and optimized **MySQL workflows**.
- Designed **intuitive dashboards** for **business and operational decision-making**.

Bank-App
Tech: Node.js, Express.js, MongoDB

- Developed a secure backend **banking application** enabling user profile management, deposits, withdrawals, and inter-account fund transfers.
- Designed and implemented RESTful APIs using **Node.js and Express.js** with proper request validation and error handling.
- Integrated **MongoDB** to manage structured user accounts and maintain detailed transaction histories with data consistency.
- Implemented basic security practices to ensure safe financial operations and reliable data storage.

Real-Time Workflow Orchestration Platform
Tech: Python (Flask), MongoDB, REST APIs, Docker

- Built a **workflow orchestration engine** that manages **dozens of concurrent long-running tasks**.
- Developed **REST APIs** for **real-time job tracking, execution status, and error reporting**.
- Designed **event-driven MongoDB data models** to support **high-volume writes and fast status queries**.
- Implemented **retry, timeout, and failure-handling logic** to ensure **workflow reliability**.

EXTRA ACTIVITIES

- Member, **E-Cell**, Anand Engineering College.
- Participated in **Entrepreneurship Awareness Camp, DST-NIMAT (2019)**
