Professional Summary

Senior Full Stack Developer / Senior Analyst with 3+ years of experience building enterprise-scale applications using ASP.NET Core, Angular, SQL Server, and Azure. Strong expertise in RESTful APIs, microservices architecture, JWT-based security, CI/CD pipelines, and finance-focused platforms.

Technical Skills

- **Languages:** C#, TypeScript, JavaScript
- **Backend:** ASP.NET Core, ASP.NET MVC, RESTful APIs, Web API, Microservices, Entity Framework Core, LINQ
- **Frontend:** Angular, HTML5, CSS3, Responsive Design
- **Databases:** SQL Server, MySQL, PostgreSQL
- **Security:** JWT Authentication, Role-Based Access Control (RBAC), Secure API Design
- **Cloud & DevOps:** Microsoft Azure, Azure DevOps, CI/CD Pipelines, Docker
- **Messaging & Search:** RabbitMQ, ElasticSearch
- **Testing & Practices:** Unit Testing, Agile/Scrum, SOLID Principles, Design Patterns

Work Experience

Deloitte USI – Hyderabad

Senior Analyst – Full Stack Developer | May 2025 – Present

- Developing and maintaining enterprise-level finance and meeting management platforms used across Deloitte USI offices.
- Designing and implementing scalable RESTful APIs using ASP.NET Core Web API following microservices architecture principles.
- Building and enhancing Angular-based user interfaces with focus on performance and usability.
- Implementing JWT-based authentication and role-based access control (RBAC).
- Enhancing search, filtering, email notification workflows, and resource scheduling functionality.
- Optimizing SQL Server queries and Entity Framework Core data access.
- Participating in code reviews and CI/CD deployments using Azure DevOps.

Advantage Go (Coforge) – Gurugram

Product Developer (Full Stack) | March 2022 – April 2025

- Worked on a large-scale insurance underwriting and policy management platform
- Developed and maintained ASP.NET Core Web APIs, Angular applications, and SQL Server databases
- Led development of the CMBC feature, reducing manual policy processing time by **50% for 5,000+ users**
- Integrated Application Insights for real-time monitoring and faster issue detection
- Developed proof-of-concept solutions using Microsoft Graph APIs to improve performance and reduce costs
- Implemented ElasticSearch for efficient querying across **2M+ records**
- Participated in code reviews, design discussions, and technical documentation

Key Projects

Insurance Underwriting System

- Worked on a large-scale insurance platform using ASP.NET Core, Angular, SQL Server, and RabbitMQ.
- Led CMBC feature development, reducing manual policy processing time by 50% for 5,000+ users.
- Integrated Application Insights for real-time monitoring and faster issue resolution.
- Developed Microsoft Graph API POCs improving performance and reducing costs.
- Contributed to ElasticSearch integration supporting queries over 2M+ records.

Summit Project – Deloitte USI

- Internal financial management platform for meetings with budgets above **USD 10,000**
- Enhanced meeting search, filtering, and reporting functionality
- Implemented email notifications for finance approvals and meeting lifecycle events
- **Technologies:** ASP.NET Core, Angular, SQL Server, Azure

GEP (Greenhouse Event Platform) – Deloitte USI

- Event and meeting management platform for budgets below **USD 10,000**
- Implemented end-to-end email notification workflows on meeting approval
- Optimized resource calendar booking for users, teams, and time slots
- **Technologies:** ASP.NET Core, Angular, SQL Server, Azure

Education

B.Tech in Computer Science

Babu Banarasi Das National Institute of Technology and Management, Lucknow

Awards & Recognition

- Rising Star Award – Deloitte USI
- Top Performer Q4 2024 – Advantage Go (Coforge)
