Rahul Wali **QA Engineer**
Email : waliraul18@gmail.com
Contact: +91 9686011343

CAREER OBJECTIVE:

To get an opportunity where I can make the best of my potential and contribute to the organizations growth where I can use my Knowledge of software testing, technical skills like **Manual Testing** Using **Functional, Non Functional, Sanity, Smoke, Retesting, Regression**, **API Testing**, **Database** Testing, **OOPS Concept**, **Automation Testing** using **Selenium** and **Java.**

PROFESSIONAL SYNOPSIS:

- **Software Test Engineer** with **4 Years** of experience in Software Testing, proficient in testing on **Web based Applications** using Java with **Selenium Web Driver**. Strong in **SDLC, STLC** and **Defect Life Cycle** Proficiency in **Agile Sprint** Test Plan.
- Hands on Experience of different types of testing like **Sanity**, **GUI, Functional Testing**, **Re-Testing, Regression Testing, Globalization** Testing and Manual Testing**, Browser Compatibility** Testing**.**
- Hands on experience of handling **Iframes**, **Mouse hover actions**, **Popups and List Box using Action Class and Select Class.**
- Experience in Build Management Tool which is **Maven** for the **Data Driven Framework**.
- Having good knowledge on **API Testing** using **POSTMAN**
- Experience in **creating mock test** data for **system testing, UAT, and regression testing**.
- Good knowledge of **SQL**
- Hands on with **Automation framework design and implementation** according to project structure
- Involvement in **Test Execution**, **Result Analyzing** and **defect reporting.**
- Performed **Tester activities** for manual as well as automation testing execute, maintain & enhance the existing new **automation test suite.**
- Strong understanding of **Java & OOPS concepts**, **Arrays**, **Collection**.
- Create and maintain libraries and object repositories for the **Automation Framework**.
- Exposure to terms like **Method Overloading** and **Method Overriding**, **Inheritance**, Abstraction, **Encapsulation** and **Polymorphism**.
- Knowledge of **Data driven Testing**, multiple browser testing and Parallel Test execution using **Selenium WebDriver and TestNG**.
- Hands on experience in end to end functional and regression testing of applications, including **requirements understanding**, test case and **Scenario Development**, test execution, **results analysis** and **sign off**.

TECHNICAL SKILLS

- **Operating Systems** : Windows 7,8,10,11
- **Programming / Web Technologies** : Core java
- **Databases** : MYSQL
- **API Testing** : Postman
- **Project Management Tool** : JIRA , MS-Excel
- **Automation Testing Tool** : Selenium
- **Automation Framework** : TestNG, BDD, Cucumber

WORK EXPERIENCE

Worked as **QA Engineer** with **Trenika Technologies Pvt LTD** **September 2023 to June 2025**

Worked as **Associate QA Engineer** with **Finastra** **June 2022 to August 2023**

Worked as **Associate QA Engineer** with **SUNVI TECHNOLOGIES PVT LTD** **August 2021 to May 2022**

PROJECTS

Project:1 E-commerce

Project:2 Global Play Plus (GPP) **Domain : Banking**

Testing Approach: Manual & Automation Testing

Roles and Responsibilities

- **Proficient in developing and executing automation scripts using Selenium WebDriver with Java.**
- **Implemented Behavior Driven Development (BDD) framework using Cucumber integrated with Selenium and TestNG.**
- **Created and maintained Feature Files using Gherkin syntax to define business-readable test scenarios.**
- **Developed Step Definition classes and Hooks (@Before, @After) to bind Gherkin steps with Java automation code.**
- **Designed and implemented Page Object Model (POM) within the BDD framework to enhance test maintainability and reusability.**
- **Utilized Scenario Outline and Data Tables in Cucumber for data-driven testing.**
- **Configured Maven for project build and dependency management.**
- **Generated Cucumber HTML and JSON reports for clear and detailed test result visualization.**
- **Performed cross-browser and parallel test execution using Selenium Grid and Cucumber tags.**
- **Integrated the automation framework with Jenkins CI/CD pipelines for scheduled and triggered test runs.**
- **Collaborated closely with developers, product owners, and QA teams to define acceptance criteria and ensure test coverage.**
- **Worked on Git/GitHub for version control and team collaboration.**
- **Handled web elements dynamically using XPath, CSS Selectors, and custom locators.**
- **Automated functional, regression, and smoke tests, improving overall test efficiency and reliability.**
- **Implemented logging and exception handling for robust test script execution.**
- **Participated in Agile/Scrum ceremonies and contributed to sprint planning, estimation, and defect triage meetings.**

DECLARATION:

I hereby declare that the above information furnished is true to the best of my knowledge and belief.
