RAHUL SHARMA

SOFTWARE ENGINEER

+91-8198955724 | rahulchamp012@gmail.com | Rahul Sharma | Rahulbuddy009

Technology – driven professional with expertise in Full - Stack Development, Agile development, CI/CD, Microservices architecture, REST APIs, MVC, Entity Framework, Containerization.

Professional Skills

Critical Thinker | Team Work

Analytical |Conflict Resolution

Technical Skills

Languages: C#, SQL, JavaScript, Type Script, Python

Technologies: .NET Core, Microsoft SQL Server, Microsoft azure Functions, Docker, Kubernetes, Angular.js, React.js, Rest API, SOAP

Resource Management: Team Foundation Server (TFS),Github, CI-CD Pipelines

Development Tools: Visual Studios, Visual Studio Code, Keras, Pandas, Tensor Flow

Monitoring Tools: Kibana, Microsoft Azure App Insight, Azure Key Vault, Elasticsearch

Core Competencies

- Database Management
- RESTful API Development
- Debugging & Troubleshooting
- Software Development Life Cycle
- System Architecture

Certification

- **Certified in Data Structure and Algorithm**: Python
- **Certified in System Design**: HLD, LLD, Microservices
- **Certified in Machine Learning**: Python, Tensor Flow, Keras, Pandas
- **Certified in ASP Dot Net : C#**

Profile Summary

- **Software Engineer** with extensive experience of **nearly 4 years** in **Web Development**, focusing on **Full-stack Technologies**, showcasing a strong grasp of both **Client-Side** and **Server-side Programming**.
- Working as a Software Engineer at **Bentley**, actively engaged in the Infra Cloud Engineering Department, crafting exceptional web applications tailored to meet client requirements and improve user satisfaction.
- Developed substantial proficiency in multiple programming languages and frameworks such as **ASP.NET Core, React.js, MySQL, Azure Functions, Docker** and **Kubernetes** while also mastering system design principles and optimizing data structures for enhanced performance.

Work Experience

Bentley System - Pune, Maharashtra | Software Engineer | Feb'2025 – Present

Product: *Bentley iTwin / iModel Platform* — a cloud-based digital twin technology enabling infrastructure professionals to design, visualize, and manage engineering data across disciplines in real time.

Key Result Areas:

- **Developing and maintaining microservices** using **ASP.NET Core and React.js**, supporting key modules within the **iModel Hub** and **iTwin Cloud Services** that handle real-time model synchronization and versioning.
- Contributed to **containerized deployments using Docker and Kubernetes**, improving release reliability and system scalability in production environments.

Icertis Solutions - Pune, Maharashtra | Software Engineer | Feb'2022 – Feb'2025

Product: *Icertis Contract Intelligence (ICI)* — an AI-powered enterprise Contract Lifecycle Management (CLM) platform used by Fortune 500 clients to manage complex contracting workflows and compliance.

Key Result Areas:

- **Implemented client-side and server-side solutions** using **C#, JavaScript, and ASP.NET Core**, customizing modules like *Obligation Management* and *Contract Approval Workflows* to meet client-specific business rules.
- **Developed and optimized MySQL database schemas**, improving query performance by **25%**, enhancing the responsiveness of contract data retrieval modules.
- Mentoring junior developers, fostering a culture of continuous learning and improvement within the team.

Education

B.Tech. Electronics & Communication
Maharishi Dayanand University
Coursework: Microprocessor, Digital and Analog Electronics, Microcontrollers, Data Structures and Algorithms

Projects

2048 Game | Tools: Python, Jupyter Notebook, Data Structures and Algorithms.

- Developed a 2048 game in Python, leveraging advanced data structures and algorithms for an engaging and efficient experience.

Path Optimization Application | Tools: *C#, .NET Core, Google Maps API, SQL, JavaScript*

- **Developed a path optimization web application** that calculates and visualizes the most efficient routes between multiple destinations using the **Google Maps API**.
