Ankush Rawat Software Developer

Noida +91-8744920617 ankushrwt344@gmail.com | https://www.linkedin.com/in/ankush-rawat-188840163/

SKILLS

- **Programming Languages** : C#, Java, C++, JavaScript
- **Libraries and Frameworks** : .NET Core, Razor Pages, RESTful API, MVC, .NET Framework
- **Tools** : MySQL, MongoDB, Kafka, Rabbit MQ, Elasticsearch, Redis, Postman, SQL Server
- **Other Skills** : HTML, CSS, Data Structures and Algorithms, Microservices, System Design, OOPS

EXPERIENCE

Software Engineer

Smart Energy Water (Mar-2025 - Present) Noida

- Developed the **Payment Module** for the **COSC (City of Santa Clara)** and **ACWD** client.
- Implemented **Notification Worker Services** to simplify triggering email and SMS processes.
- Worked on **Razor Pages** for the **Payment Web App** for COSC and ACWD clients.
- Developed **AutoPay** and **ScheduledPay** features for ACWD and COSC customers' utility bill payments.
- Improved overall system efficiency, contributing to a **20% increase in user satisfaction ratings**.
- Enhanced database performance by writing complex queries and designing efficient schemas, resulting in a **20% improvement in application response times**.

PolicyBazaar (Oct-2024 – Mar- 2025) Gurugram

- Developed a **scalable Communication Module** for **HR Portal** to nurture lasting customer relationships, improving user engagement and retention rates by **30%**.
- Coordinated the design and implementation of **REST APIs** for configuring templates of email, WhatsApp, and SMS, simplifying communication processes.
- Executed **Worker Services** to automate report generation, reducing manual effort by **40%** and increasing productivity.
- Significantly enhanced the **user experience** by automating the entire communication process for template configuration and message delivery.
- Improved overall system efficiency, contributing to a **20% increase in user satisfaction ratings**.
- Enhanced database performance by writing complex queries and designing efficient schemas, resulting in a **20% improvement in application response times**.

Easyrewardz (Aug 2022 - Oct 2024) Gurugram

- Developed scalable **CRM and Loyalty solutions** for **BFSI**, nurturing lasting customer relationships and improving user engagement and retention rates by **30%**.
- Coordinated the design and implementation of **REST APIs** for transaction qualification and rewards, streamlining processes by **25%**.
- Executed **Worker Services** to automate report generation, reducing manual effort by **40%** and increasing productivity.
- Optimized **webpage load times** from **70 seconds to 5 seconds**, significantly enhancing user experience and reducing bounce rates.
- Improved overall system efficiency, contributing to a **20% increase in user satisfaction ratings**.
- Enhanced **database performance** by writing complex queries and designing efficient schemas, resulting in a **20% improvement in application response times**.
- Refactored **legacy codebases** to improve readability, maintainability, and performance, reducing technical debt and enhancing overall system efficiency.
- Collaborated with senior developers and actively participated in **code reviews**, following **Agile methodologies**.

Bridgelabz Solution (Nov-2021 - July 2022) Maharashtra

- Developed **Fundoo Notes** and **Bookstore** web applications.
- Coordinated the design and implementation of **REST APIs** using **.NET Core 3.1** with **MySQL** and **MongoDB** databases.
- Executed **Worker Services** to automate report generation, reducing manual effort by **40%** and increasing productivity.
- Enhanced database performance by writing **complex queries** and designing **efficient schemas**, resulting in a **20% improvement in application response times**.

PROJECTS

Orion (Policybazaar)

- Developed a **Communication Module** for enrollment invites via **WhatsApp, Email, and SMS** using **.NET Core** and **RESTful API architecture**.
- Implemented **user enrollment features** to streamline the onboarding process.
- Automated the entire communication module for enrollment, significantly **reducing errors** and **improving reliability**.
- Utilized **MVC architecture** in **.NET Core 6.0 with C#** for building RESTful APIs.

- Employed **MySQL** for efficient data management and **Kafka** to enhance processing efficiency.
- Implemented **JWT Authentication** for security and **Redis caching**, reducing response times from **200ms to 30ms**.

GOLD Loan (IIFL)

- Involved in creating a **new web application** using **ASP.NET Core 3.1, .NET 6.0, MongoDB, MySQL, Razor Pages, JavaScript, Ajax, Kafka, Serilog, Redis, and Elasticsearch**.
- Designed and implemented **backend logic from scratch** for **Points and Cash Rewards, Redemption, and Refunds**.
- Developed **microservices** for **Refund and Points Payment**.
- Built **Worker Services and Console Applications** to automate report generation.
- Implemented **JWT Authentication for security** and used **Redis for data caching**, improving response times from **200ms to 30ms**.

MFL(Muthoot Finance Limited)

- Involved in creating a **new web application** using **ASP.NET Core 8.0, MySQL, Razor Pages, JavaScript, Ajax, Kafka, Serilog, Redis, and Elasticsearch**.
- Developed features such as **Point Redemption, Refunds, Report Creation, Deals, Vouchers, Shop (Recharge, Flight) Booking, and Rewards Management**.
- Designed and implemented **backend logic from scratch** for **Points and Cash Rewards, Redemption, and Refunds**.
- Implemented **JWT Authentication for security** and used **Redis for data caching**, reducing response times from **200ms to 30ms**.

Microsite (Motherhood, BawaHotels)

- This project includes features such as **Customer Enrollment, Customer Profile Update, Point Redemption, Refund, Report Creation, Deals, Vouchers, Shop (Recharge, Flight) Booking, and Rewards Management**.
- Involved in developing a **new web application** using **ASP.NET Core 8.0, MySQL, Razor Pages, JavaScript, Ajax, Kafka, Serilog, Redis, and Elasticsearch**.
- Designed and implemented **backend logic from scratch** for **Points and Cash Rewards, Redemption, and Refunds**.
- Implemented **JWT Authentication for security** and used **Redis for data caching**, improving response times from **200ms to 30ms**.

Fundoo Notes(BridgeLabz solution)

- Developed a **RESTful Web API** for storing notes, with features such as **collaboration, reminders, archiving, and more**.
- Implemented functionalities including **signup, login, add notes, delete, archive, trash, and color customization**.
- Utilized **MVC architecture** in **.NET Core 3.1 with C#** for building RESTful APIs.
- Employed **MySQL database** and **Entity Framework (Code-First Approach)** for efficient data management.
- Implemented **JWT Authentication** for security and **Redis caching**, improving response times from **200ms to 30ms**.

BookStore (BridgeLabz solution)

- Engineered an **e-commerce bookstore** with **RESTful APIs**, implemented using **MVC architecture in .NET Core 3.1** with **C#** for robust functionality.
- Managed data with **Microsoft SQL Server**, utilizing **ADO.NET** and a **database-first approach**.

ACHIEVEMENTS

- Received 100% scholarship by Tata for Software Engineer Training under Bridgelabz

EDUCATION

Scaler 2024

Specialized in Software Development & Problem Solving

- **Coursework**: Data structures and Algorithms, Low-Level Design (LLD), High-Level Design (HLD), Backend Development.
- Solved over 500 Data Structures and Algorithms problems, consistently ranking within the top 10% of learners.

ABES IT College 2018

Bachelor Of Engineering | 6 7.77 %

Modern School 2014

12th Standard (CBSE) | 80.40%

Florence Public School 2012

10th Standard (CBSE) | 77.77%
