Professional Summary

Senior QA Analyst with 6+ years of experience in the Banking and Financial Services (BFSI) domain, specializing in Core Banking System (CBS), Loan Management System (LMS), Loan Origination System (LOS), Co-lending platforms, and digital lending fintech solutions. Skilled in end-to-end manual testing, functional validation, regression, integration, and UAT support to ensure seamless delivery of high-quality financial applications.

Professional Experience

Knight Fintech Private Limited, Mumbai

Senior QA Analyst | Aug 2023 – Present

BFSI & Lending System Testing

- Loan Origination System (LOS): Tested end-to-end journeys including customer onboarding, KYC verification, credit bureau checks, loan approval, sanction, and disbursement workflows.
- Loan Management System (LMS): Validated repayment schedules (RPS), M+1 RPS, EMI recalculations, NPA handling, Manual NPA handling, Write-Off module, waivers, GST application, ledger operations, foreclosure scenarios, OTS (One Time Settlement), delinking collections, pre-payments, Manual Loss Marking, Audit Module and value date collections.
- Co-Lending: Tested loan sharing between multiple lenders, disbursement splits, repayment reconciliations, settlements, and compliance with partner integrations.
- LMS Report Testing: Verified Disbursement, Collection, Loan Status Dump, NPA, Waiver, GST, and Ledger reports for accuracy, consistency, and alignment with financial transactions.
- Test Planning & Execution: Prepared comprehensive test scenarios and test cases, executed across multiple modules, and ensured coverage of functional, regression, integration, and UAT testing.
- Logged, tracked, and ensured timely resolution of defects, maintaining high-quality standards and compliance with business and regulatory requirements.
