Piyush Kumar

+91-7004997518 piyush.piyush.singh85@gmail.com Bangalore,India

Profile Summary

Java Backend Developer with 2 years of experience building scalable REST APIs using Spring Boot and Hibernate. Experienced in microservices architecture, API performance optimization, and third-party integrations. Strong in production support and CI/CD pipelines.

Skills

Technical Skills: Java Programming | Spring Boot Framework | Hibernate | MySQL Query Optimization | Java Database Connectivity (JDBC) | Third- party API Integration | Database Integration using JDBC and JPA | RESTful APIs & Web Services | Microservices |JavaScript | Jquery | Html5 | CSS3 | Bootstrap | AngularJS | Chartjs | Git Version Control | Code Optimization & Refactoring | Eclipse and Spring Tool Suite | VsCode | Maven | Jenkins | SonarQube | CI/CD | Agile Development | Elasticsearch Logstash Kibana | Linux | AWS | MariaDB | RabbitMQ | Orchestration

Soft Skills: Team Collaboration | Communication | Problem-solving | Adaptability | Time Management | Attention to Detail | Code Reviews | Troubleshooting

Work Experience

Software Developer | Asti Infotech Pvt Limited | March 2025 - September 2025

Project Name : Imprint

Key Responsibilities & Contributions:

- Developed and enhanced backend services using **Java, Spring Boot, and Hibernate** for the Imprint project.
- Designed and implemented **RESTful APIs** to support core business workflows and data processing.
- Optimized complex **SQL queries**, improving database performance and data retrieval efficiency.
- Integrated multiple **third-party APIs** to extend application functionality and ensure seamless data exchange.
- Contributed to **CI/CD pipeline** using Jenkins and improved code quality through SonarQube analysis.
- Collaborated with cross-functional teams to troubleshoot issues and improve overall system reliability.
- Implemented code refactoring and performance improvements to enhance application maintainability.
- Implemented robust **exception handling** and validation mechanisms to improve API reliability and error tracking.
- Worked on **microservices architecture** using Spring Boot to build scalable and loosely coupled backend services.
- Performed **API performance optimization** by tuning SQL queries and improving response time.
- Wrote unit tests using **JUnit and Mockito** to improve code coverage and ensure stability.

Software Developer | Shiksha Infotech client (PhonePe) | March 2024 - March 2025

Project Name : Full KYC Workflow Development (PhonePe)

Key Responsibilities & Contributions:

- Designed and implemented an **end-to-end Full KYC workflow** to transition users from **Minimum KYC to Full KYC**, ensuring RBI compliance.
- Built backend services to capture user identity details (PAN, Aadhaar, address, DOB, etc.) and manage KYC state transitions.
- Integrated with **external verification APIs** (KYC vendors) to validate user identity and documents in real time.
- Implemented **workflow orchestration** to handle multiple KYC stages such as data capture, verification, approval, rejection, and re-submission.
- Developed **validation and business rules** to detect mismatches, incomplete data, and fraud scenarios.
- Ensured **secure handling of sensitive user data** with encryption, masking, and access control as per compliance standards.
- Optimized APIs for **high-volume traffic**, ensuring low latency and high availability.
- Implemented **failure handling and retry mechanisms** for external service dependencies.
- Collaborated with **product managers, frontend teams, and compliance teams** to align technical implementation with regulatory and business requirements.
- Added **logging, monitoring, and audit trails** for compliance audits and operational visibility.

Natixis(April 2023 - July 2023)

- **Application Support -** Projects focused on providing continuous support for financial applications, ensuring they run smoothly in a production environment.
- **Automation Projects** – Initiatives aimed at automating manual processes, such as deploying code, monitoring systems, or data entry tasks.

Other Course – Successfully completed java Full Stack Development Couse In JSpider Bangalore 2023

Education

MCA: (2019 – 2022) Marwari College Ranchi

BSC- IT: (2016 - 2019) Ranchi College Ranchi
