Saif Mansoor

+91-9741132821 | sayfiit178@gmail.com | linkedin.com/in/saif-mansoor | github.com/sayfxmansoor019

PROFESSIONAL SUMMARY:

Software Engineer with **1.5+ years** of experience designing, developing and maintaining **backend services** for **web/cloud-based applications** and **data driven platforms** for internal and external stake holders. Strong background in **Python, Go, RESTful API, JavaScript, PostgreSQL, and Azure cloud services.** Efficient in developing scalable **microservices**, optimizing **system performance** and improving **reliability in production environment.**

TECHNICAL SKILLS:

Programming Languages: Python, Go(Golang), JavaScript, SQL (MySQL/PostgreSQL/MongoDB)
Technologies: RESTful API, DjangoREST, Spark, OOPs, Microsoft Azure, AWS, Docker, Kubernetes Microservices, System Design, Continuous Integration Artificial Intelligence (AI), Git.

PROFESSIONAL EXPERIENCE:

ServiceSphere UG (Germany, Remote) **June 2024 – Present**

Software Engineer

- Worked with **product and internal stake holders** to understand **feature requirements** and translate them into **backend implementations**.
- Designed and developed robust backend services using **Python, Django and RESTAPI, focusing on B2C** workflows **under real production traffic.**
- **Improved request throughput** and reduced query **latency by 32%** through **PostgreSQL query** optimization indexing strategies and schema refinements.

Intellipaat Software Solutions (Bengaluru, Karnataka) **Aug 2023 – June 2024**

Technical Research Analyst

- **Designed and built python-based** utilities and automation workflows **reducing latency by 20%.**
- Developed **reusable, modular scripts** emphasizing **code quality and maintainability.**
- **Implemented CI/CD** flow using Azure Pipelines, improving **reliability** and reducing manual intervention.

Google Developer Student Club, LPU (Jalandhar, Remote) **May 2021 – April 2022**

Core Team Member (AI/ML)

- Contributed to the **development and maintenance of python-based scripts and minor ML projects.**
- Assisted in technical sessions, workshops to **understand and implement real world use cases of AI/ML.**

PROJECTS:

Home Services Application: (Link) (Python, Django, REST API, PostgreSQL, LLM, GenAI)

- Designed **backend services for a B2C platform** with a focus on **reliability, data consistency and performance.**
- **Implemented RESTAPIs** and **PostgreSQL data models** to manage users, services and transactions.
- Integrated **AI Powered voice to text and image generation** workflows via backend services.

Enterprise Service Admin Portal: (Link) (Python, DjangoREST, PostgreSQL, Javasript)

- **Developed a production style admin** portal for managing enterprise workflows and **backend operations.**
- Designed **secure RESTAPIs with Django and PostgreSQL** to support monitoring and administrative actions.
- Focused on **backend reliability, clean architecture and reusability**.

Survival Prediction Pipeline: (Link) (Azure Kubernetes Service, Azure Pipelines, ML Studio)

- **Deployed a scalable ML model** on **AKS** for real time, **low latency predictions**.
- Automated deployment with **Azure Pipelines for continuous delivery**.
- **Streamlined end to end ML workflow** in Azure ML Studio, **boosting productivity by 20%.**

CERTIFICATIONS:

Microsoft Certified : Azure Fundamentals (AZ-900) **Dec 2024**

EDUCATION:

Lovely Professional University (LPU) (Jalandhar, Punjab)
Bachelor of Technology in Computer Science (CGPA : 7.21) **Aug 2020 – June 2024**
