SRI RAM MOGALAPALLI

Senior DevOps Engineer | Cloud Infrastructure Specialist

To leverage DevOps engineering experience & a strong foundation in software development to architect secure, scalable, & cost-efficient cloud infrastructure solutions that drive digital transformation, operational excellence, & business agility.

EDUCATION

M.Tech in Power Electronics
Aditya Engineering College, JNTU Kakinada — 2016

B.Tech in Electrical Engineering
Avanthi Engineering College, JNTU Kakinada — 2012

TECHNICAL SKILLS

Cloud Platforms:
Amazon Web Services (AWS): Lambda, ECS/Fargate, S3, IAM, Cognito, CloudWatch, SSO, Step Functions, SageMaker, AWS Workspaces, VPC Networking

Microsoft Azure: Azure AKS, Azure ML Studio, AAD, Virtual Machines, Dev Boxes

Google Cloud Platform (GCP)
Infrastructure & IaC: Terraform (AWS & Azure), CloudFormation
Containerization & Orchestration: Docker, Kubernetes, Kubeshark, Hypervisor
DevOps & Automation Tools: GitHub Actions, Jenkins, AWS Amplify, CI/CD Pipelines, Git Version Control

Monitoring & Logging: Grafana, Prometheus, Log Analysis & Alerting Systems
Programming & Web Technologies: JavaScript (React.js), Python, Next.js, HTML/CSS, Storybook
Databases & APIs: Neo4j, DynamoDB, REST APIs
Cloud Security & Access Management: SOC 2 Compliance
Other Tools & Frameworks: Google Vision API (OCR), MLflow, Kubernetes Operators, PDF Parsing, OCR Pipelines, GitHub Boards, Technical Documentation

PROFILE SUMMARY

- Results-driven DevOps Engineer with 4+ years of experience specializing in cloud infrastructure, CI/CD automation, and multi-cloud architecture (AWS, Azure, GCP).
- Spearheaded AWS-to-Azure migration reducing manual config time by 40% with zero downtime.
- Engineered GitHub Actions pipelines cutting deployment time from 4 hours to 30 minutes and increasing deployment frequency by 300%.
- Achieved $300K+ annual cloud savings via infrastructure rightsizing, serverless architectures, spot instances, and automated scheduling.
- Key contributor to SOC 2 Type 2 certification by implementing compliance automation and strengthening security posture.

WORK EXPERIENCE

Drishya AI Labs – Bangalore / Remote
Senior DevOps Engineer (Jun 2022 – Present)
Software Engineer – DevOps (May 2021 – Jun 2022)
Software Intern (Mar 2021 – May 2021)

- Designed GitHub Actions pipelines reducing deployment time from 4 hours to **<30 minutes**, boosting deployment frequency by **300%**.
- Automated container builds & registry sync across AWS & Azure; achieved **99.2% deployment success** & **85% rollback reduction**.
- Integrated Storybook in React builds for automated UI testing; improved workflow efficiency by **40%**.
- Implemented quality gates that caught **92% defects pre-production**, reducing bugs by **70%** post-deployment.

Cloud Architecture & Cost Optimization

- Migrated legacy monolith to serverless (AWS Lambda + API Gateway), reducing infra costs by **45% (~$120K/yr)**.
- Scaled architecture to handle **10M+ requests/day** with 99.9% uptime & <200ms latency.
- Implemented resource scheduling, spot instance adoption, & usage-based scaling — saving **$180K–200K annually**.
- Deployed infrastructure using **Terraform** for both AWS & Azure, reducing provisioning errors by **90%**.

Kubernetes Orchestration & MLOps

- Managed Kubernetes clusters running 15+ services; deployed MLflow on ECS Fargate with private VPC + ALB.
- Built GPU-enabled ML training pipelines; enabled on-demand access to SageMaker & Azure ML Studio.
- Created automated model versioning & inference scaling, reducing model deployment cycles by **70%**.

CORE COMPETENCIES

- Cloud Migration & Multi-Cloud Architecture
- Kubernetes Orchestration & Cluster Security
- DevOps Automation & CI/CD Pipelines
- Serverless Application Development
- Infrastructure as Code (Terraform, CloudFormation)
- Cloud Security & Access Management
- Machine Learning Infrastructure Support
- Cost Optimization & Compliance

SOFT SKILLS

- Cross-Functional Team Collaboration
- Leadership & Technical Mentorship
- Analytical Thinking & Incident Management
- Documentation & Process Standardization

Incident Management & Security Compliance

- Led 3-member incident team; implemented GitHub ticketing workflow with RCA & rollback plans.
- Reduced MTTR from **4 hours to 45 minutes**; prevented **80% recurrence** via post-incident reviews.
- Automated compliance checks; supported successful **SOC 2 Type 2 audit**, boosting customer confidence.

Innovation & Automation Highlights

- Developed self-healing infrastructure using Kubernetes Operators, cutting manual fixes by **70%**.
- Built cost-aware infra optimizer saving **$200K/year** & an audit log analyzer reducing troubleshooting time by **80%**.
- Created backup & DR automation reducing backup time by **80%** & ensuring 100% data recovery compliance.

Team Training & Cross-Functional Collaboration

- Conducted DevOps training for 25+ engineers; reduced onboarding time by **50%**; 80% earned cloud certifications.
- Mentored junior engineers — **100% promotion** rate in <18 months.
- Collaborated with Product & Data Science teams for A/B testing infra, ML model lifecycle support, & real-time monitoring.
- Introduced shared dashboards & documentation; improved technical-business alignment & visibility.

CERTIFICATIONS

- HashiCorp Certified: Terraform Associate – 2024
- AWS Cloud Technical Essentials – 2022
- Full-stack Web Development Bootcamp – 2021

PERSONAL DETAILS

- DOB: 18th December 1990
- Languages Known: English, Hindi, Telugu
- Location: Vishakhapatnam, India, 531116
