TAMILARASAN

Full Stack Developer

📧 **Email: tamilarasan1302.k@gmail.com** | 📞 **Phone: +91-8610868338**

PROFILE SUMMARY

Full Stack Developer with 7 years of experience building scalable, secure, and high-performance **web and mobile applications** in **banking and enterprise domains**. Skilled in **Node.js, ReactJS, TypeScript, JavaScript, Angular, Vue.js, React Native, and Ionic**. Strong expertise in **microservices, event-driven architecture, RESTful APIs, and cloud-native deployments on AWS (EC2, Lambda, S3, RDS, CloudWatch, Route53, SES, SNS)**. Experienced in implementing **CI/CD pipelines (Jenkins, Git, Docker)** and driving **performance optimization**. Adept at **Agile methodologies**, collaborating with cross-functional teams, and engaging directly with clients to deliver user-centric solutions.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Node.js, PHP, Python, Java, C, C++, SQL
- **Frontend Frameworks**: React.js, Angular, AngularJS, Vue.js, Ionic, React Native, jQuery, HTML5, CSS3, JSON
- **Backend Frameworks:** Express.js, Hapi.js, Flask, Laravel, Swagger
- **Databases:** MongoDB, MySQL, PostgreSQL, MSSQL, Firebase (NoSQL & SQL), CouchDB
- **DevOps & Hosting:** AWS (EC2, S3, Lambda, RDS, API Gateway), Docker, CI/CD Pipelines, Nginx, Apache, Server Configuration
- **Testing:** Unit Testing, Integration Testing (Jest, Mocha & Chai)
- **Architecture:** Microservices, Event-driven Architecture, RESTful APIs, Database Design
- **Tools & Platforms:** Git, GitHub, Bitbucket, Postman, Swagger, VS Code, Jira, Confluence
- **Experience Areas:** Web Hosting, Cloud Deployments, Performance Optimization, Client Handling, Firebase Services

EXPERIENCE

Altimetrik India Pvt Ltd | Chennai, India — *Senior Engineer*

Client - Ancestry, May 2024 - Aug 2025

- Developed and maintained scalable, reusable, and highly performant React.js components to deliver complex UI flows across Ancestry's core web applications.
- Integrated backend REST APIs with React frontend, handling state management, data fetching, and optimizing rendering performance for better user experience.
- Built and maintained Node.js (Express) backend services to support feature development, API integrations, and backend logic for the web platform.
- Collaborated with cross-functional teams and participated in code reviews to ensure code quality, performance, and adherence to best practices in both frontend and backend development.
- Implement and manage Jenkins CI/CD pipelines to automate testing, build, and deployment processes, ensuring smooth and continuous integration and delivery.

App Name: Ancestry

Stack: ReactJS, JavaScript, NodeJS (Express), Terraform, Harness, HTML and CSS

SoftReflexes SDN BHD | Malaysia — *Full Stack Developer*

Client - Maybank, Dec 2022 - Mar 2024

- Maybank MAE (Anytime, Everywhere) is a cutting-edge mobile banking application designed to provide Maybank customers in Malaysia with a seamless and convenient banking experience. With a host of features and functionalities, MAE is tailored to meet the diverse financial needs of users, offering a comprehensive suite of services rights at their fingertips
- Maybank Push Notification Service (MBPNS) is an integral part of Maybank's commitment to delivering a
- seamless and secure banking experience for users of its mobile applications. The MBPNS notification system is strategically designed to provide timely, relevant, and secure notifications to users, enhancing communication and ensuring that users stay informed about their financial activities
- Worked on AWS services like serverless EC2, S3, RDS, SNS and SES

App Name: MAE and MBPNS

Stack: NodeJS (Express), JavaScript, Firebase, MsSQL, AngularJS(1.x), ReactJS, Kafka, ReactNative, HTML and CSS

Infosys Ltd, India — *Senior Associate Consultant*

Aug 2022 - Dec 2022

- Currently learning Java (Springboot), Microservices, advance ReactJS concepts

Relevantz Technology Services, India — *Software Engineer*

Nov 2021 - Aug 2022

- Timer is an application which enables kids to interact and learn through this application which provides a quiz or can be used as a timer and the spinner is where the User spins the wheel and lands on a random number of possible points. Then the kid answers the question and, if it is correct, wins the points
- Reduced deployment time by 30% through the design and implementation of efficient CI/CD pipelines using Jenkins
- Worked on AWS service like EC2, lambda, RDS, S3, CloudWatch, SES, Route53 and SNS

App Name: Timer/Spinner (web and Android)
Stack: Ionic, ReactJS, TypeScript, Redux, HTML and CSS

NFN Labs, India — *Backend Developer*

Feb 2020 - Sep 2021

- BreadCrumb is an e-Learning application based on an available learning center which enables the children to learn in a creative way with video instructions for easy to follow and learn
- Designed and implemented CI/CD pipelines using Git and Docker, resulting in a 20% reduction in deployment time
- Worked on AWS service like Lambda, EC2, RDS, S3, CloudWatch, Route53 and SES

App Name: BreadCrumb
Stack: NodeJS (Express), JavaScript, TypeScript, Firebase, GraphQL, MySQL, ReactJS, Redux, AWS, HTML and CSS

Pyramidion Solutions, India — *Full Stack Developer*

Jul 2018 - Feb 2020

- Designed and developed the back-end and architecture of small scale taxi-hailing service applications. The product has been developed for easy
- Worked on AWS service like EC2, Lambda, RDS, S3, CloudFront, CloudWatch, Route53 and SES

App Name: GetTaxi (iOS and Android)
Stack: NodeJS (Express), MySQL, Firebase, Angular 8, AWS, HTML and CSS

- Designed the core logic and back-end architecture for food delivery application.The product has been developed for easy customization in frontend application iOS and Android and as well as client-side deployment

App Name: Eatoo (iOS and Android)
Stack: NodeJS (Express), MySQL, Firebase, Angular 8, AWS, HTML and CSS

- Sense Idea is an innovative project which allows people to share their ideas and their ideas were evaluated by Admin and paid

App Name: Sense Idea (Web and Android)
Stack: Python (Flask), MySQL, Firebase, Angular 8, AWS, HTML and CSS

- Worked on the POC and it allows scanning the object and return the respective data (i.e: name and images)

Stack: Python (Flask), Tensorflow, AngularJS, HTML, CSS and MySQL

EDUCATION

IFET COLLEGE OF ENGINEERING — *B.E (COMPUTER SCIENCE)*

Graduation Year: 2018 | CGPA: 6.28

SOFT SKILLS

- Effective Communication And Collaboration
- Problem-Solving And Critical Thinking
- Client Handling And Stakeholder Engagement
- Adaptability In Fast-Paced Environments
- Attention To Detail And Accountability

CERTIFICATION

- Completed AWS EC2 and Lambda certification issued by SkillUp
- Completed Introduction to DevOps Tools certification issued by SkillUp
- Completed Introduction to MongoDB certification issued by SkillUp
