Software Automation Tester

Name: **ANIL KUMAR S**
Contact: +91-**9731295965** E-Mail: **anilkumar.sn511@gmail.com**

CAREER PRECIS

Technology-driven Software Engineer with 3+ years of extensive experience in designing, implementing,and executing automated test suites. Proficient in various automation tools and frameworks such as Selenium, Cucumber, and TestNG. Skilled in creating and maintaining test scripts, identifying and documenting bugs, and collaborating with cross-functional teams to ensure product quality. Strong problem-solving abilities and a commitment to improvement. Seeking to leverage my expertise in Automation knowledge to develop and implement the innovative solutions that optimize the business processes and increases the efficiency.

PROFESSIONAL SUMMARY

- Hands on Experience having **3 years 6 months** as **Software Automation Tester** dealing with major role in Software analysis in automation and manual program.
- Worked on API testing for debugging API issues and working with development teams to resolve and also in testing
- Developing and executing test cases, scripts, plans, and procedures (manual and automation) for applications testing.
- Create and maintain test documentation, including test plans, test cases, and test reports.
- Participate in code reviews and provide feedback to improve the quality of the code.
- Contribute to the development and implementation of automated testing frameworks and tools.
- Having a good hands on Experience in testing API using Postman and Automating through RestAssured.
- Worked on Programming and Scripting Languages Java
- Automated Testing Frameworks Using Selenium .
- Worked on Integration and Continuous Deployment (CI/CD) Tools like Jenkins.
- Having a good hands on experience in developing automated test scripts using selenium and Java to validate the applications functionality using TestNG , Maven and Page Object Model
- Hands on experience on Version Control Systems Git .
- Worked on Containerization and Virtualization Docker.
- Worked on Performance Testing Tools like JMeter.
- Worked with Agile team and Scrum methodologies to accomplish project milestones and meet demanding timelines.
- Exposure in creating and developing the panels on **CANOE** simulation tool.
- Good knowledge in standards and protocols like **CAN** and **UDS**.
- Hands on experience in analyzing the requirements, test cases and test procedure preparation.
- Having well-versed knowledge in modules like **SOM, BLE, BCM, BMS** and **MCU**.
- Hands on experience on handling **JIRA.**
- Worked with **ECU** flashing, **BMS** flashing & **MCU** flashing in EV vehicles.
- Worked with **ECOS & MCU** Calibration in electric vehicles.

SCHOLASTIC SUMMARY

- **B.E** (Computer science & Engineering) From SITAR Bangalore in the year 2020.

PROFESSIONAL EXPERIENCE

- Hands on Experience as **Software Automation Tester** for **3 years 6 months** in the Domain of QA (Manual and Automation Testing using Java Selenium).
- Worked as **Software Tester** to the Client **OLA ELECTRIC** From **First connect solutions Pvt Ltd** from **NOV - 2021 to FEB - 2023.**
- Worked as **Software Automation Tester** at **BRILLQUEST TECHNOLOGIES Pvt Ltd** from **MAR - 2023 to APRIL - 2025**.

TECHNICAL SKILLS

- **Web Automation Tools : Selenium, WebDriver, Cypress, Appium, Playwright , SOAP UI , Rest Assured , Page Object Model & RestAssured.**
- **Manual Testing Tools : Test Rail, Test Link, Bug Tracking & Device Testing.**
- **Programming Languages : Java, Python & Java Script.**
- **Mobile & API Tools : Jmeter, Jenkins, Postman, Test Link, BDD Framework & Cucumber.**
- **Test Management Tools : Jira, Confluence, Scrum ,Confluence,Load Runner,Pytest, Azure Databricks, Apache, Kafka, Azure SQL Database, SCCM, SQL, OOPS.**
- **Source Code Management Tools : Github Desktop, Source tree & GitHub.**
- **Protocols : CAN and USD Analyzing.**
- **Testing Types : Manual Testing, Functional Testing, Integration Testing, UAT, Regression Testing, Smoke Testing, Sanity Testing, Load Testing, Black Box Testing, Automaton Testing, API Testing.**
- **Test Processes : SDLC, STLC, Agile (Scrum), Test Planning, Test Case Design, Test scenario design, Test case Execution, Defect Reporting, Test report preparation.**
- **Soft Skills : Analytical Thinking, Communication, Collaboration, Documentation, Presentation Skills, Problem-Solving**

PROJECTS

Project : 1

Client: BRILLQUEST TECHNOLOGIES Pvt Ltd.
Role: Software Automation Tester.

Responsibilities:

- Ignite BSL - A customer - Concentric Baking solution, where I was responsible for handling and Automating API, through BDD framework and performing execution during Release Regression.

Involved in API performance testing using J meter.

- Ignite WEB - Consumer Baking Application, where I was responsible for handling, Automation Feasibility Analysis, Test script development, Jenkins integration and Test Execution during Regression and Releases.
- Ignite E2E - Tested end to end flows starting from web applications to back-end applications validation via API.

Project :2

Client: OLA ELECTRIC.
Role: Software Automation Tester.
Responsibilities:

- Involved in Automation Environment setup using Java Selenium WebDriver jars and TestNG.
- Enhancing the Selenium Test cases for Cross browser testing.
- Worked on API testing for debugging API issues and working with development teams to resolve and also in Mobile testing
- Collaborated with cross-functional teams to identify, analyze, and resolve defects and issues.
- Create and maintain test documentation, including test plans, test cases, and test reports.
- Participate in code reviews and provide feedback to improve the quality of the code.
- Contribute to the development and implementation of automated testing frameworks and tools.
- Automated Testing Frameworks Using Selenium .
- Worked on Integration and Continuous Deployment (CI/CD) Tools like Jenkins, GitLab CI.
- Worked on Performance Testing Tools like JMeter
- Discussing with the team about testing plan & execution.
- Executing the test cases and logging the defects in JIRA tool.
- Supporting the team to resolve QA / UAT / PROD bugs.
- Explaining about the requirements to the Team, Conducting the daily team meetings regarding the tasks & completion.

ACHIEVEMENTS

- Automated 50+ of test cases, thus made testing easier and got appreciations from client and manager.
- Got appreciations from clients for extended support for successful releases.
- Received 2 RnR awards and 2 spot Awards.

DECLARATION

I hereby declared that information furnished above is true & correct to the best of my knowledge & belief.
