Rohan Patil

QA Engineer

Phone:+91 9011674195
Email: rrohanpatil53@gmail.com

QA Automation Engineer with **3+ years of IT experience** specializing in **Selenium Automation, Java, API Testing, and Manual Testing**. Experienced in **SDLC and STLC**, **Functional, Regression, Non-Functional, Database, Mobile, and Web Testing**, Strong expertise in designing **Automation** framework using **POM**, **TestNG**, **Hybrid** automation framework. Experience with **Agile scrum** methodology and end to end **SDLC / STLC** execution.

SKILLS

Automation Testing: Selenium WebDriver, TestNG, BDD Cucumber, Seetest.

Programming: Java
API Testing: Postman.
CI/CD and build tools: Jenkins, Maven.
Test Management and Defect Tracking: Jira.
Version Control: Git.
Database: MySQL
Methodologies: Agile, Scrum.

TECHNICAL EXPERIENCE

Quality Analyst — Sept 2024 — Jan 2026

TalentPloyer Private Ltd | Client: Barclays (Banking Domain)

Delivering end-to-end **automation testing** for **SmartInvester** banking applications across **Web, Mobile, and API platforms.**

- **Designed and executed Selenium WebDriver automation test scripts** for Card Payments, Regular Payments, Barclays ROLB, FSV SmartPay, and Barclays Mobile Banking (BMB) applications across **Web, Mobile, and API platforms**
- **Optimized existing automation frameworks** by implementing reusable utility methods and improving locator strategies, resulting in **faster execution time and increased test stability**
- Good understanding of **JAVA, OOPS Concept, Collection,** and **String.**
- **Hands-on experience across SDLC and STLC**, including **Functional Testing, Regression Testing, and Automation Testing, Defect life cycle, test plan** in Agile environments
- **Developed and maintained automation test scripts using TestNG**, leveraging annotations for test execution control, grouping, and reporting
- **Automated complex UI interactions** using Selenium, including handling **pop-ups, list boxes, iFrames, Action Class events**, screenshots, scrolling, window handling, and **Implicit and Explicit waits**.
- Automated **70% regression** test cases using **Selenium WebDriver and TestNG.**
- **Executed test suites with serial and parallel execution**, performed **cross-browser testing**, and validated application functionality using **multiple test data sets**.
- **Implemented Page Object Model (POM) with Page Factory**, integrating **Data Driven Framework (DDF), Keyword Driven Framework (KDF), and Hybrid Framework** for scalable automation solutions.
- **Actively participated in Agile Scrum ceremonies**, including daily stand-ups, sprint planning, sprint reviews, and retrospectives
- **Performed Web Service and REST API testing** and managed build, execution, and dependency configurations using **Maven**
- **Basic exposure to CI/CD pipelines** using **Jenkins** for automated test execution and build integration

- **Collaborated effectively with cross-functional teams and clients**, ensuring clear communication of test results, defects, and project status.

Quality Analyst — OCT 2023 — FEB 2024

Franconnect Softwares India Ltd – World Manager (EdTech Web Application)

- Designed, developed, and executed **Selenium WebDriver automation test scripts using Java** for an **EdTech web application**.
- Identified and documented **end-to-end test scenarios, test cases, and test data** based on business and functional requirements.
- Performed **end-to-end functional testing** of core modules including **course enrollment, assessments, quizzes, payments.**
- Executed **Functional Testing, Regression Testing, Re-Testing, Smoke Testing, and Sanity Testing** to validate application stability.
- Logged, tracked, and managed **defects using JIRA**, ensuring timely resolution through collaboration with development teams
- Developed and maintained automation scripts using **Page Object Model (POM)** and managed execution through the **TestNG framework** within a **Data-Driven Framework.**
- Actively participated in **Agile Scrum processes**, including daily stand-ups, sprint planning, and sprint reviews to ensure on-time and high-quality releases.

Quality Assurance Executive — SEPT 2022 — Aug 2023

Dhyey Consulting Services Pvt Ltd – Zeus GMPH Tours (Switzerland)

- Analyzed **business and functional requirements** to identify **end-to-end test scenarios, test cases, and test data**.
- Performed **functional, regression, and end-to-end (E2E) testing** on travel and booking applications.
- Validated critical workflows including **TBA code creation, hotel booking, room reservations, tour package booking, cancellations, and payment flows**.
- Developed and enhanced automation scripts using **Page Object Model (POM)** with **TestNG-based Data-Driven Frameworks**.
- Conducted **manual testing and automation testing** to ensure comprehensive coverage of application features.
- Performed **re-testing of defect fixes** and executed **regression test cycles** before production releases.
- Logged, tracked, and reported defects using **JIRA**, providing regular test status reports to stakeholders and management.

EDUCATION

Bachelor of Engineering
Shivaji University, Kolhapur, Maharashtra
