EXPERIENCE

HONEYWELL INDIA- SOFTWARE ENGINEER - II

MAY 2025 - Present BANGALORE, INDIA

- Engineered scalable, high-availability frontend platforms for **Boeing Aerospace's** cloud-based network management system, supporting **5M+ users** with real-time monitoring of large-scale networks.
- Designed high-performance dashboards to visualize large-scale data, ensuring low-latency rendering for high-volume workflows.
- Designed and implemented RBAC-based access control, securing multi-role workflows and improving system governance and compliance.
- Owned end-to-end feature delivery, driving performance optimizations (30–40% faster load times) and collaborating with global cloud, backend, security, QA teams and stakeholders to ensure production reliability.

SAMSUNG INDIA - SOFTWARE ENGINEER - II

JANUARY 2024 - MAY 2025 NOIDA, INDIA

- Built and delivered scalable full stack projects for multiple Samsung platforms through Adecco, collaborating with cross-functional teams to ensure timely and high-quality releases..
- Championed modern fullstack development for the **Samsung L&T** project, leading multiple platforms **(Self-Serve, Cosmos, Inhouse Playout, and MAM)** **serving 30M+ users**, improving workflows and mentoring junior developers on best practices.
- Actively contributed to Samsung R&D **open-source projects**, driving adoption of modern frontend standards and improving code quality across teams.

INGENUITY (Client - Airtel) - SOFTWARE DEVELOPER

OCTOBER 2021 - DECEMBER 2023 NOIDA, INDIA

- Delivered customer-facing web applications for **Airtel**, supporting high-traffic enterprise workflows.
- Established reusable component libraries and coding standards, reducing development effort and improving consistency across applications.
- Improved application performance through build optimization (minification, Grunt), reducing initial load time by 71%.
