SUMMARY

A versatile and resilient **Product Manager** with a strong foundation in Customer Experience (CX) and sales, bringing a unique, user-centric perspective to product development. I thrive on challenges and embrace change, specializing in translating deep customer insights into transformative B2B SaaS products and building **AI-first solutions**. My expertise lies in leading cross-functional teams, shaping strategic roadmaps, and owning the end-to-end product lifecycle to deliver measurable business value and exceptional user outcomes.

CORE SKILLS

- **Product Management:** Product Vision & Strategy, Roadmap Planning, Prioritization, Agile/Scrum, Product Lifecycle Management, Market Research
- **AI & Automation:** AI-first Product Development, Generative AI, Agentic AI Systems, Autonomous Automation, No-Code/Low-Code Platforms, Workflow Automation
- **Technical Acumen:** System Architecture, API Integrations, Scalability, Technical Trade-offs, Backend Services, DevOps, SRE
- **Process & Quality:** Detailed Requirements Writing, Acceptance Criteria (AC), Product Backlog Grooming, Process Design, Quality Assurance (QA)
- **Data & Analytics:** Data-Driven Decision Making, Product Analytics, Customer Research, KPI Tracking, Usage Metrics
- **Collaboration & Leadership:** Cross-functional Leadership, Stakeholder Management, Consensus Building, Product Advocacy
- **Tools & Platforms:** Jira, Asana, Figma, Beamer, Metabase, Linear, Retool, Mixpanel, Pendo, n8n, Zoho Creator, Kissflow, AWS, Power BI, Power Apps, Zapier, Workato.

PROFESSIONAL EXPERIENCE

Senior Product Manager - Ecosystem - *Zuper | Chennai, India | Jan 2025 – Present*

- Owned the product vision and roadmap for Zuper's core platform, leading a dedicated product squad to design and ship AI-first tools including Workflow Builder, PDF Builder, Report Builder, Onboarding Experience and UI SDK.
- Spearheaded the launch of an **AI-assisted Workflow Builder and Report Builder** using natural language input, empowering non-technical users to create complex automations and reports with minimal friction.
- Conducted in-depth user research and competitive analysis to identify root problems and translate customer needs into a prioritized product backlog, driving value-driven outcomes.
- Defined clear product requirements and user stories, and managed the end-to-end product lifecycle from ideation and discovery to feature release and post-launch analysis.
- Championed **cross-functional collaboration**, serving as a key bridge between engineering, design, and marketing to ensure alignment and accountability across all product initiatives.
- Utilized product analytics platforms to define, track, and measure key performance indicators (KPIs), using data to validate hypotheses and inform iterative product improvements.
- Presented product updates and roadmaps to senior leadership and external audiences, effectively articulating the vision and business value of new platform features.

Manager - Onboarding & Implementation - *Zuper | Chennai, India | Jun 2024 – Present*

- Led the end-to-end delivery of complex enterprise integrations and implementation projects, deploying custom **n8n solutions** to ensure seamless data connectivity and enhanced platform efficiency for key clients.
- Managed the full implementation lifecycle from discovery and scope definition to deployment and user acceptance testing, ensuring solutions met client expectations and technical feasibility.
- Proactively resolved technical issues and performed expert troubleshooting during the implementation phase, minimizing downtime and ensuring a positive customer experience.
- Drove a **data-driven approach** by monitoring product usage, analyzing user feedback, and identifying key friction points in the onboarding process to inform product strategy.
- Provided strategic guidance and technical training to both internal teams and external partners, fostering strong relationships and ensuring the long-term success of product launches.
- Collaborated closely with the product and engineering teams to translate client feedback and implementation challenges into actionable product enhancements and bug fixes.

- Contributed to the development of internal documentation and knowledge bases, streamlining the onboarding process and improving support quality for the technical team.

Technical Account Manager - *Kissflow | Chennai, India | Oct 2023 – Jun 2024*

- Achieved a 95% client retention rate and 20% revenue increase from existing clients by leading up-sell/cross-sell initiatives and strategic account growth.
- Spearheaded strategic account growth initiatives, resulting in a 20% revenue increase from existing clients.
- Managed relationships with major enterprise clients in Australia, Japan, and India, including conducting business reviews and strategic planning.
- Expanded Kissflow's market presence by developing targeted strategies and analyzing market trends to inform decisions and identify new opportunities.
- Implemented feedback loops and continuous improvement processes, boosting customer satisfaction and loyalty.
- Led onboarding, training, and provided high-level technical support, ensuring smooth adoption and optimal product use, resolving complex issues.
- Served as the main liaison between clients and product teams, advocating for client needs and prioritizing feature requests.
- Facilitated regular feedback sessions and user group meetings to gather insights and drive product improvements.
- Monitored and reported on key metrics, using data-driven insights to make strategic recommendations and enhance client outcomes.

Customer Success Engineer - *Zuddl | Nov 2021 – Oct 2023*

- Pioneered the customer success engineering role at Zuddl, establishing an efficient process to facilitate collaboration between customer success and engineering teams.
- Collaborated with the CTO to develop and implement technical support strategies, resulting in maximum customer satisfaction.
- Successfully expanded the team from 1 to 4 members.
- Mentor and lead the Customer Success Engineering team, providing guidance and support to ensure optimal performance and customer satisfaction.
- Collaborate with clients to understand their unique use cases and design and implement virtual event platforms integrated with CRM systems, resulting in maximized marketing goals and improved customer experiences.
- Collaborated with cross-functional teams to drive feature enhancements and optimize product performance for improved customer satisfaction.

Senior Technical Support Engineer - *Zoho Corporation | July 2018 – Nov 2021*

- Provided comprehensive support for Zoho ONE, a complete business suite, fulfilling multiple roles and responsibilities.
- Conducted training sessions for teams across various business verticals and products to enhance their knowledge and proficiency.

- Ensured high-quality customer support by implementing quality assurance measures and continuously improving processes. Collaborated with the product management team to identify opportunities for feature enhancement and provided valuable insights from a support perspective.
- Participated in customer meetups alongside the marketing team to understand client needs and gather feedback.
- Successfully implemented the Zoho One suite for global clients, ensuring seamless integration and optimal utilization of the platform.
- Developed custom applications from scratch using low code and no code platforms to address clients' specific requirements, automating processes, maintaining clear financial records, scheduling analytical dashboards, and optimizing websites to attract leads.

Technical Support Engineer - *Tech Mahindra | Chennai, India | Aug 2017 - Jun 2018*

- Provided expert support to users in the setup and configuration of wireless bridge networks.
- Utilized tools like Pandora, Siebel, and Siiam to troubleshoot and resolve technical issues efficiently.
- Collaborated with cross-functional teams to ensure seamless network connectivity and optimal performance.
- Demonstrated exceptional problem-solving skills to identify root causes and implement effective solutions.
- Maintained a high level of customer satisfaction by providing timely and accurate technical assistance.
- Worked for Testra, Australia's largest network provider, delivering reliable and efficient support to their clients.

Junior Web Developer - *Zone Tech Solutions Pvt Ltd | Chennai, India | Aug 2016 - Aug 2017*

- Successfully planned and executed website development projects, transforming mock-ups into fully functional web presences.
- Utilized HTML, JavaScript, AJAX, and PHP coding to create responsive and user-friendly websites that met clients' specifications.
- Collaborated with designers and stakeholders to ensure seamless integration of design elements and functionality.
- Worked with CMS platforms, including WordPress and Magento, to build dynamic websites with customizable features and robust e-commerce capabilities.
- Implemented plugins, extensions, and themes to enhance website functionality and user experience.
- Conducted thorough testing and debugging to identify and resolve any issues or errors.
