- Stakeholder communication
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking
- Manual testing
- Selenium automation

## LANGUAGES

- English: Intermediate
- Tamil : Fluent

## WORK EXPERIENCE

**Amazon development centre** 2022 - 2024

**Designation: Quality Service Associate**

## PROJECT EXPERIENCE

**Amazon Screen Sharing to Fire OS devices**

• Led the optimization of the Amazon Screen Sharing feature, enabling remote access to Fire OS devices and the Amazon Alexa app on Android and iOS platforms.
• Conducted comprehensive manual testing using the **internal Amazon tools** on both the agent and customer interfaces.
• Spearheaded **regression testing** for each new build, ensuring the stability and reliability of the system.
• Worked on the CSD project, which involves testing the help option inside the Amazon website using both desktop and mobile. I **successfully owned and managed a project for U.S. clients independently**, from inception to completion, and ensured its successful sign-off.

**Amazon Kindle E-books**

• Worked E2E in both rendering and conversion projects of YJ in Kindle with coverage of **Android, iOS, FOS, and e-reader** surfaces.
• Overall, I have logged **202 valid bugs**, including 26 blockers and 56 critical bugs. In addition, worked on **capturing crash logs in iOS using Xcode.**
• Primarily owned AVI, PNG, and Spinner features in YJ projects and p-Doc, Barolo E2E, Fast Metrics testing, and **accessibility testing**.
• Written and revamped test cases for Amazon Kindle books and Alexa.

## AUTOMATION EXPERIENCE

- **Automated** Amazon's "Use our call me service page" using **Selenium** Java, saving 50 hours of manual work per annum.
- Basic understanding to automate a mobile application using **Appium** Inspector.

## OWNERSHIP

- Took primary ownership of the devices, which we used for testing, and generated the audit report for the same on a weekly basis.
- Given KT to new joiners and conducted play-with session for other teams.
