BAAHEERATHI R

Email: baaheegce @gmail.com
Contact : 8072171915

Technical Skills:

- ETL testing
- BI testing
- Data Warehouse testing
- SQL Scripting
- Functional testing
- Regression testing

Domain Knowledge:

- LIFE INSURANCE
- RETAIL
- HEALTHCARE
- BANKING

ETL Tools:

- INFORMATICA POWER CENTER

Databases:

- Oracle
- SQL Server
- SNOWFLAKE

Languages:

- SQL
- UNIX
- PYTHON(PANDAS)

PROFILE SUMMARY

- Having FIVE years of experience in ETL TESTING,DATABASE Testing, BI Report Testing and FUNCTIONAL Testing.
- Expertise in SQL, UNIX, ETL principles, PLSQL and Python basics.
- Experience in various types of testing–Functional, Regression, Retesting, Smoke testing, Sanity testing.
- Experience in testing web-based applications like transactions applications.
- Experience in End to End testing based on the requirements.
- Experience in working with Star Schema, Snowflake Schema, Fact tables and Dimension Tables.
- Hands-on Experience in Using Python Pandas functions to validate heterogeneous databases.
- Proven experience in utilizing databases such as Oracle and SQL Server
- Involved in PowerBI Report Validation.
- Award Winner for the project ETS Lights on Support on June 2008.
- Got Team Spot Award for NFUM Life Insurance Testing on OCT-2013.

WORK EXPERIENCE

- Working as an ETL Tester in SECOVA SOLUTIONS, Chennai from NOV 2020 to Till Date.
- Worked as a MANUAL Tester in MINDTREE Chennai from Feb 2012 to March 2016.
- Worked as a Manual Tester in Mphasis Chennai from Jan2011 to Jan2012.
- Worked as a SOFTWARE ENGINEER in UST-GLOBAL Trivandrum from Nov2006 to Feb 2010.

EDUCATION QUALIFICATION

- Completed BE – EEE in 2006 at Anna University with 75% marks.

Project #1

ROLE : ETL TESTER

- **Domain - Healthcare**
- **Client - Ramsay healthcare,UK**
- **Duration – JAN 2022- till date**

ROLES AND RESPONSIBILITIES:

- Generated test cases by analyzing mapping documents from both the Source and Target Environments.
- Developed ETL test scripts according to technical specifications and source-to-target mappings.
- Performed testing on SQL queries to ensure data accuracy and assess data performance.
- Involved in PowerBI Report Validation.
- Engaged in data quality validation encompassing row count verification, sample data analysis and comprehensive data reconciliation.
- Possess a proficient comprehension of Software Testing Life Cycle (STLC) Processes.
- Hands-on Experience in Using Python Pandas functions to validate heterogeneous databases.
- Produced documentation for bug identification, prioritization, tracking, and reporting purposes.

Project #2

ROLE : ETL TESTER

- **Domain - Investment banking**
- **Client - Axion Capital Partners, Australia**
- **Duration - Nov2020 –Dec 2021**

ROLES AND RESPONSIBILITIES:

- Conducted comprehensive analysis of the project and performed testing on source, staging and target data.
- Developed SQL Queries incorporating sub-queries, joins, grouping and analytical functions to execute test cases effectively.
- Communicated identified defects in the testing environment to the development team.
- Established traceability relationships between requirements within the same module and across different modules.
- Participated in Scrum Meetings, providing regular updates on day-to-day activities and status
- Created PLSQL Stored procedure for regression automation

Project #3
ROLE : MANUAL TESTER

Project #4
ROLE : MANUAL TESTER

Project #5
ROLE : MANUAL TESTER

Project #6
ROLE : Software Engineer

MANUAL TESTING EXPERIENCES:

- **Domain** - Retail , **Client** - e-bay , **Duration** -Mar 2014-Mar 2016.
- **Domain** - Life Insurance, **Client** - ITS-IIG-NFUM, **Duration** - Feb 2012-Mar 2014.
- **Domain** - Insurance , **Client** - AIG-Sailpoint, **Duration** -Jan 2011-Feb 2012.
- **Domain** - Healthcare , **Client** - ETS-LIGHTS on support, **Duration** -Mar 2007-Feb 2010.

DECLARATION

I hereby declare that all the details furnished above are true to the best of my knowledge.
