Summary:

- Over **3 years** of experience architecting and developing scalable **web** and **mobile** applications.
- Expertise in **React** in **micro frontend** and micro service. Proven success driving complex projects, enhancing performance, and improving developer experience.
- **Proficient in creating web pages** using HTML5, CSS3, SCSS, Bootstrap, **JavaScript**, React.js, TypeScript, and Material
- Good Expertise in analyzing and debugging the DOM Layout, **DOM Functions**, java Script functions, and CSS across browsers using the Developer Tool Bar.
- Strong background in supporting production environments and meeting customer needs.
- Excellent Client interaction skills and proven experience in working independently as well as in a team.

Skills:

- **Libraries** and **Framework**: **React js** | React native |Next js
- **Programming Languages & Cms**: **Javascript** | Typescript | word press
- **Testing & Designing Tools**: Git | Gitlab| Firebase | Netfliy | jest | Post Man | Figma | Adobe XD
  Technologies: HTML5 |CSS3 |Javscript |Bootstrap5| ES6 |SASS | **Redux(Toolkit)** | React Router v6 | Redux Saga
- Web Pack | babel |**GraphQL** | AWS (EC2, S3, DynamoDB) | GCP
- **Security :** OAuth, JWT, MFA

Work Experience:

FRONT END DEVELOPER : Tata consultancy service (TCS) , Chennai JAN2023 – At Present

Client : **Etihad Airways**

- **Developed** advanced listing and search functionalities utilizing AJAX for real-time data retrieval, achieving a 25% increase in response speed while **enhancing API** interactions with JSON to ensure seamless user experiences.
- Applied **Context** and **Graphql Api** for state management, implemented React Hooks (useState,**useEffect**, use Dispatch), and used ES6 fetch **for API calls**.
- Standardized application using tools such as **ESLint**, Prettier, and Conventional Commits
- **Lead GraphQL API integration**, optimizing app-wide state management and reducing data fetch times by **40%**Accountable for Integrating Front End application with the Application Business layer.

Client: **State Bank Of India (SBI)**

- Architected and implemented micro services architecture using Java and React, stream lining product flow, cutting operational latency by 50%, and boosting **transaction** processing time by 35%.
- Advanced listing and search functionalities, integrated 5+third-partyAPIs, and designed multi-layered security protocols, driving a 40% increase in user engagement and a **25% reduction** in search latency.
- Leveraged **Git for version control**, slashing deploy men terrors by 30%,designed security layers that decreased security incidents by 20%, and executed CRUD operations for user management, enhancing data retrieval efficiency by 40%.
- Enhanced conversion efficiency, user interaction, and **code maintainability**.

JUNIOR SOFTWARE DEVELOPER: Paladin software, Chennai OCT2021–NOV 2022

Client: Dealynx

- This DEALYNX consumes the above project and uses it to provide an interface for admin to verified and Customer details
- Created reusable functional components for e-commerce apps, **reducing code** duplication by 40% across web and mobile platforms. Experience in request validation**, lazy loading**, and Redux design patterns.
- Optimized frontend performance using Lighthouse, elevating its score from **25 to 82** and reducing page load time by 50% through React 15 **code splitting**.
- Integrated 7+third-party APIs and crafted specific work flows for seamless functionality.
- Published a reusable component on npm: https://www.npmjs.com/package/pss-react-components-1
- Employed a stack comprising JavaScript, React JS, **ReduxSaga**, **ReduxToolkit**,and Express.js, accelerating development speed by 30% and enhancing application performance by 25%.

Client: PAWS-ADMIN

- **Developed and optimized screens** for CRUD operations (Create, Read, Update, Delete) in the "The Paws" web and mobile application, streamlining the management of services and customer details for over **10,000 active users**.
- Designed web pages using Javascript/ReactJS, **Redux** and CSS3
- Experienced in integrating **RESTful APIs**.

Professional Certifications :

- **Professional Cloud Developer (PCD), Google Cloud Platform (GCP**)

Projects:

React E-commerce Chat Bot ecommerce-react-chatbot.netlify.app

- Handled 50% of support queries, optimizing costs and integrating seamlessly with existing e commerce platforms for enhanced UI scalability.

Education:

St.peter's College of Engineering And Technology Aug 2017 - May2021
BE and Electronics Communication Engineering CGPA 7.56/10
