Jeyaprakash S

Software Test Engineer

ABOUT ME

Known for my innovative thinking, I constantly seek out opportunities to optimize testing processes and drive efficiency gains and Facilitate effective communication between development and QA teams

SKILL

- Java
- Selenium
- Jenkins
- Git
- SQL
- Maven
- POM
- TestNG
- BDD Cucumber
- Jira
- Rest Assured
- Postman
- Manual Testing

EDUCATION

B. Sc | chemistry
Cardom planters association college
2020 - 2023

WORK EXPERIENCE

NielsenIQ **Apr 2023 - Present**

I thrive in fast-paced Agile environments, contributing to iterative development cycles and delivering high-quality software incrementally and **1.8 years of experience** in API Testing, Web Application Testing using tools like Postman, Rest Assured, Selenium, BDD Cucumber, TestNG.

PROFESSIONAL SUMMARY

- Skilled in defining JIRA issue types, fields, and screens for capturing relevant project information.
- Experienced in creating and customizing Maven build profiles to support different deployment environments.
- Skilled in extracting and validating response headers, cookies, and other metadata in Rest Assured and Postman.
- Skilled in multithreading and concurrency in Java using threads, synchronization, and locks.
- Experienced in handling alerts, pop-ups, and iframes during automated testing using Selenium.
- Skilled in switching between Git branches and merging changes using Git merge and rebase.
- Experienced in setting up Jenkins agents with specific environments and configurations to execute BDD tests against different target environments.
- Proficient in exception handling in Java using try-catch blocks, throw, and throws keywords.
- Proficient in verifying JSON and XML payloads for data integrity and compliance with API specifications.

PROJECT I - CATAWIKI

Domain: ECommerce
Jan 2024 - Present

Catawiki is an online auction platform for buying and selling special items and collectibles and hat sells collectibles like art, jewelry, watches, and old autos

SKILLS

- Java Selenium
- BDD Cucumber
- Postman
- Rest Assured
- Jenkins

Roles and Responsibilities

- Proficient in working with Git submodules to manage dependencies and modularize codebases.
- Expertise in testing the visual elements and user interface of applications to ensure a consistent and intuitive user experience.
- Knowledge of using testing frameworks like BDD Cucumber to organize and manage Selenium test cases Familiarity with using Cucumber for API testing and validation.
- Proficient in setting up and managing environments in Postman for testing across different configurations.
- Expertise in testing various API endpoints to verify that they return the expected results and handle different input scenarios.
- Proficient in implementing dynamic waits in Selenium to handle synchronization issues during test execution.

PROJECT II - ATWIMA RURAL BANK

Domain: Banking
Apr 2023 - Dec 2023

Atwima Rural Bank Ltd is a rural bank and located in Kumasi, Ghana. Like other rural banks in Ghana it provides banking services to the rural population and is regulated by the ARB Apex Bank

SKILLS

- Java Selenium
- TestNG
- Manual Testing

Roles and Responsibilities

- Knowledge of optimizing SQL queries through proper indexing and performance tuning techniques
- Strong understanding of using Git tags for versioning releases and marking significant milestones in development and testing.
- Proficient in creating and maintaining traceability matrices to link test cases back to requirements for comprehensive coverage.
- Strong understanding of tracking the status of reported bugs and following up on their resolution with development teams.
- Demonstrated adherence to industry best practices in test automation, ensuring maintainability and scalability.
- Knowledge of generating and interpreting comprehensive HTML reports using TestNG for effective communication of test results.
- Skillful in using Jira to manage versioning and releases, ensuring accurate tracking of feature development and testing progress.
