MOULI VIKASH

Software Tester

9087804080 moulivikash@gmail.com Coimbatore, India

EXPERIENCE

Test Analyst
NET ART, Coimbatore, India
Jan 2023 - Sept 2024

- Test Case Development: Designed comprehensive test cases based on business requirements, ensuring maximum test coverage.
- Functional Testing: Conducted thorough end-to-end manual and automated testing for web applications, validating business logic and user experience.
- Automation Scripting: Developed and maintained Selenium test scripts using Java for regression testing.
- Defect Management: Utilized JIRA for defect tracking and ensured quick resolution through collaboration with development teams.
- SDLC Compliance: Adhered to the Waterfall model, ensuring systematic testing phases for each project.
- Cross-Functional Collaboration: Engaged in weekly meetings with business analysts to review progress and testing outcomes.
- Performance Testing: Assisted in load and stress testing to analyze application stability under heavy traffic.
- Reporting: Generated detailed test execution reports and defect logs to provide stakeholders with insights into software quality.

Junior Analyst
AOSTA INDIA PVT. LTD, Coimbatore, India
Jul 2022 - Dec 2022

- Medical Records Retrieval: Managed patient medical record acquisition by coordinating with hospitals across the U.S.
- Stakeholder Communication: Acted as a liaison between insurance companies, law firms, and medical institutions.
- Process Optimization: Specialized in handling aged cases, improving Turnaround Time (TAT) with streamlined workflows.
- Client Escalations: Managed client concerns with effective communication and escalation handling strategies.
- Data Validation: Ensured the accuracy and completeness of retrieved medical records for legal and insurance processes.
- Documentation: Maintained detailed logs of interactions and document processing for audit purposes.
- Workflow Coordination: Worked closely with internal teams to enhance record retrieval efficiency.
- Compliance: Ensured all processes met regulatory and compliance requirements.

Test Analyst
NET ART, Coimbatore, India
Jun 2021 - Jun 2022

- Requirement Analysis: Translated business requirements into detailed test scenarios.
- Web Application Testing: Conducted manual and exploratory testing to validate functionality.
- Defect Reporting: Logged defects in JIRA, ensuring timely resolution by development teams.
- E-commerce Testing: Specialized in E-commerce domain testing, covering order management and payment processing.

PROFESSIONAL SUMMARY

Results-oriented and detail-driven Software Test Analyst with 2.8 years of experience in manual and automation testing. Adept at interpreting business requirements and transforming them into efficient test strategies. Proficient in Selenium, Cypress, JIRA, HP-ALM, SQL, API testing, and Agile & Waterfall SDLC methodologies. Demonstrates expertise in cross-functional collaboration, defect tracking, automation framework development, and various testing methodologies including functional, exploratory, and regression testing. Committed to continuous learning and technological advancements to ensure superior software quality.

EDUCATION

Bachelor of Engineering
SNS College of Technology | 2018-2022

Diploma
Sri Ranganathar Institute of Polytechnic College | 2014-2017

10th Grade
Sri Ambai Matric Higher Secondary School | 2013-2014

CERTIFICATIONS

Software Testing Training
Besant Technologies

SKILLS

- Web Application Testing (Functional & Automation)
- Manual Testing
- Selenium WebDriver with Java
- Cypress Automation
- API Testing
- SQL & Database Testing
- JIRA & HP-ALM
- Agile & Waterfall SDLC
- Test Planning & Strategy
- Test Case Development
- Defect Tracking & Management
- Regression & Exploratory Testing

- Regression Testing: Executed regression test suites before product releases.
- SDLC Methodologies: Worked within the Waterfall Model, ensuring structured testing phases.
- Test Reporting: Created test execution reports for senior management.
- Team Collaboration: Attended weekly status meetings with stakeholders to discuss testing progress.

PROJECTS

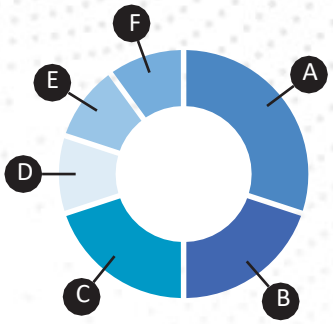
Beachbody | E-commerce | SDLC: Waterfall Model
- Contributed to Beachbody, a leading fitness e-commerce platform.
- Focused on Purchasing, Canceling, and Returns modules.
- Conducted rigorous manual and automated testing for transactional integrity.
- Ensured seamless integration between payment gateways and order processing systems.

Wellness Essentials | Health & Wellness Solutions | SDLC: Agile
- Played a key role in testing Wellness Essentials, a health-focused e-commerce platform.
- Automated test scripts using Selenium with Java to validate user profile management and recommendation engines.
- Conducted loyalty program testing, ensuring accurate points accumulation and redemption.

HealthHub Wellness Solutions | Health & Wellness Services | SDLC: Waterfall Model
- Conducted comprehensive functional testing for HealthHub's wellness solutions.
- Focused on User Authentication, Appointment Scheduling, and Payment Processing modules.
- Developed and executed Selenium WebDriver scripts for regression testing.
- Ensured application security and data integrity during transactions.

- Smoke & Sanity Testing
- Component & System Testing
- UAT (User Acceptance Testing)
- Performance Testing
- Mobile Application Testing
- Cross-Browser Testing
- Continuous Integration (CI/CD)
- Linux Commands

TECHNICAL SKILLS



A Database: SQL

B Test Management Tools: JIRA, HP-ALM

C Automation Tools: Selenium WebDriver (Java), Cypress

D Programming Languages: Java, JavaScript (Basic)

E Defect Tracking Tools: JIRA, HP-ALM

F Operating Systems: Windows, Linux

Dear Hiring Manager,

I am excited to apply for the Software Tester role at your esteemed organization. With 2.8 years of experience in manual and automation testing, I have honed my skills in Selenium, Cypress, SQL, API testing, and test management tools like JIRA and HP-ALM. My expertise in SDLC methodologies (Agile & Waterfall) and strong analytical abilities allow me to effectively contribute to the quality assurance of software products.

Throughout my career, I have successfully tested web applications, e-commerce platforms, and health-tech solutions, ensuring optimal performance, security, and user experience. I am adept at collaborating with cross-functional teams, identifying defects, and implementing automation frameworks to enhance testing efficiency. My ability to adapt quickly to new technologies makes me a valuable asset to any team.

I look forward to the opportunity to discuss how my skills and experience align with your organization's quality goals. Thank you for your time and consideration.

Best Regards,
Mouli Vikash
