- **Methodologies:** Agile and Waterfall.

Organizational Experience:

Knila IT Solutions India Pvt. Ltd, Coimbatore Sep 2022 – Present

Payroll:

- **Sivdev Technology (OPC) Pvt. Ltd** - Sister Concern (April 2024 – Till Now)
- **Knila IT Solutions India Pvt. Ltd** (September 2022 – March 2024)

Role: Software Tester

Project: Liberty Tax Service – US

- Liberty Tax (Founded in1997) - Providing tax services and support for the US taxpayer from the moment they walked in to Liberty tax office till they are getting their tax refund.

Responsibilities:

- Understand the End-to-End business logic of the application and analyzed the test coverage.
- Extensively worked on developing automation scripts in Playwright Test framework using Typescript.
- Execution of test cases using MS Test framework using Selenium(C#).
- Implemented Data-Driven Testing frameworks to enhance test coverage and efficiency by running multiple test scenarios with varying input data.
- Optimized automation workflows to handle complex tax scenarios, ensuring edge case coverage.
- Reported defects with detailed steps, screenshots, and logs for quick resolution.
- Created and maintained test plans, test cases, and documentation for collaboration.
- Participated in sprint demos to showcase automated test coverage and functionality.
- Managed test cases and tracked defects through Azure DevOps for execution and resolution.
- Performed manual testing to access application stability and gain insights into functionality. This approach ensured a deeper understanding of the application's functionality for writing effective automation scripts.
- Followed agile methodologies and Scrum practices for sprint planning, execution, and review, enabling iterative development and continuous improvement.

OX Software Pvt. Ltd, Palani. Dec 2021 – Sep 2022
