Career OBJECTIVE:

Aspiring for a promising and motivating career in the domain of Software Testing where my skills,Knowledge and spirit for teamwork would be an asset to the organization.

Experience Summary:

- 1.6 years of experience as a Quality Analyst
- Working as Software Test Engineer in Cubix Corp from Jan 2023 to Sep 2023 and Shivam Medisoft Services from Dec 2023 to Feb 2025
- Good Experience in **Java Programming, Selenium WebDriver**
- Experience in functionality, system and regression testing
- Strong understanding in software test development life cycle and test methodologies
- Extensive experience in writing and maintaining test cases
- Expertise in problem solving and tracking bug reports.
- Interacted with the Business Users and the client to test according to their requirements.

MANUAL TESTING:

- Good knowledge on Software Development Life Cycle and types of Methodologies. · Understanding software requirement specifications and identifying the Test Scenarios.
- Good Exposure on writing Test Cases,TestExecution process, and Defect Management.
- Extensive knowledge on bug life cycle and Bug Tracking using JIRA tool.
- Excellent in analyzing **Functional requirements/Business requirement documents.**
- Identifying test scenarios and translating them to test cases.
- Well acquainted with Software Development Life Cycle (SDLC) and Software Testing Life **Cycle** (STLC).
- Exclusively performed various types of testing like **Smoke Testing, functional Testing, Integration Testing, System Testing and Compatibility Testing**.
- Conducted **Retesting** on every modified Software Build to close **Defects**. · Coordinated with the development **team** for issues and resolution of defects.

CORE JAVA

- Good Knowledge on Java Fundamentals.
- Strong Knowledge of Method overloading and Method overriding.
- Good Knowledge in Oops concept like Inheritance, Polymorphism, Encapsulation.
- Good Practical knowledge on Constructors, Interface,Arrays and Strings.

SELENIUM:

- Well Versed with TestNG - Flags,Annotations,Listener,Data provider and Parameterization.
- Good Knowledge of Data Driven and Pom class.
- Familiar with Taking Screenshot.
- Very Good Knowledge on Locators.
- Good Knowledge on Selenium Web-Driver Architecture.
- Knowledge on Keyboard Handling, Mouse Handling,Scroll Handling.
- Having Knowledge on Frame, And Nested Frame.
- Knowledge on Handling the Alert Popup,Window child popup handling. · Knowledge on Handling the Dropdown.

Key Strengths

- Excellent analytical and problem solving skills
- Excellent technical skills and ability to assimilate new technologies in quick time
- Eager to learn new technologies and methodologies
- Team Performer
- Have good interpersonal skills as well as leadership skills.
- Hard Working and Enthusiastic.
- Fully dedicated towards work and ability to work with a team

Management Skills

- Client Relationship: Extensive contact and communication with clients of all levels. My understanding nature and striving to exceed expectations has enabled me to win their confidence.
- Presentation skills: Presented **ppts** to leadership Meetings.

Project Experience

Project Name : HOSPITAL MANAGEMENT SOFTWARE (HMS) [WEB& MOBILE APP]
Clients : SAHYADRI HOSPITALS, UJWALA CYGNUS
Role : Software Test Engineer

Description:

This project is aimed to develop a web and mobile based Health Care Domain System, which is used to handle all operations in hospitals, and can provide a better service to patients It is also provide better service to the administration, to automate all the activities of administration. The HMS can be used as local software system. This system can be used to maintain the records of all patients like Location, Ward Number, In Time, Out Time, Doctor Schedule, Billing Details and Diagnosis. It is developed to manage the daily activities of a Doctor with regards in maintaining his personal records, scheduling patient appointments, case history, doctor's advice, admission details, physical examination & investigation reports and Daily progress.

Key Responsibilities:

- Understanding the application thoroughly with help of BRS/SRS (Baseline document)
- Deliver the New requirements and help the users with training
- Involved in Functionality testing, Integration testing and Regression testing.
- Involved in Compatibility testing on different Browsers and OS.
- Preparing and documenting the test scenarios, test cases and test data.
- Reviewed Test cases and updated the review comments.
- Executing test cases based on readiness of the module and raising bugs.
- Coordinating with the Test Lead and Development Team for Bug Fixing.
- Involved in Analyzing Test Results and Reporting.
- Working on Reports

EDUCATION:

- BSc(hons) in Bachelors of Science Agriculture Year: 2018-2022

Bharatiya Engineering Science and Technology Innovation University, Anathapur

Date:

Place: Hyderabad, India. **(G.Sangeetha)**
