Master of Computer Applications

Utkal University Khurdha

Bachelor ofScience in Physics —8.7/10 2019– 2022

BB HSC ADAKATTA Nayagarh

Intermediate Stream Science — 53.83% 2017 – 2019

Odisha State Board Nayagarh

Class X —70%

2017

TECHNICAL SKILLS

- SDLC/STLC
- Manual Testing
- Web app Testing
- Java (OOP)
- API Testing
- Agile
- Cucumber
- SQL
- Selenium Web-Driver
- Maven(Build testing tool)
- Jenkins(continuous integration)
- TestNG

Competencies

. Test Scenario Creation
. Functional Testing
. Defect Management
. Test Automation
. Quality Assurance(QA)
. Good Problem solving skill
. Good Communication Skill

CODING PROFILES

1. Code-chef -Silver Badge and continuing to achieve gold Badge
2. Hacker Rank- 4 Star on Java,4 Star in DataStructure
3. LeetCode
4. Code Tantra

PROJECT 1: Vtiger CRM website

- Domain : CRM
- Role : Manual/Automation test engineer
- Vtiger CRM operates in the Customer Relationship Management (CRM) domain, providing cloud-based solutions for sales automation, marketing automation, customer support, and business process management, primarily targeting small and medium-sized businesses.

Roles & Responsibility

- "In this project, I performed both manual and automation testing on the Vtiger CRM website as part of my Selenium Automation Testing Course at Naresh IT, Hyderabad. The course covered comprehensive testing techniques, where I gained hands-on experience with testing both the functional and automated aspects of the website."
- As part of the automation effort, I utilized the **BDD (Behavior-Driven Development)** framework, specifically **Cucumber** with **Selenium WebDriver** to write feature files and automate test scenarios in a natural language format.
- I integrated **TestNG** to organize and execute test cases, and generated detailed **TestNG reports** to track test execution.

WORK EXPERIENCE:

Suaki Information Technology
Test Engineer | March 2024 – March 2025

- **Role**: Manual and Automation Test Engineer
- **Responsibilities**:
  - Worked on manual testing and automated testing of web-based applications, ensuring high-quality software delivery.
  - Developed and executed manual test cases based on the software requirements and business logic.
  - Performed functional, regression, and integration testing across various projects.
  - Automated test scenarios using Selenium WebDriver, Java, and TestNG to enhance testing efficiency.
  - Utilized Cucumber for Behavior-Driven Development (BDD) to write clear and understandable feature files and automate test scenarios.
