Skills

- Testing Expertise: Manual Testing, Functional Testing, Regression Testing, Performance Testing
- Tools & Platforms: Selenium WebDriver, Postman, JIRA
- Programming Languages: Core Java, SQL (Basic Queries)
- Methodologies: Agile, Waterfall

Experience

EPK Group | Chennai, Tamil Nadu

Software Test Engineer | October 2023 – Present

Project 1 : Office Management Software

- Spearheaded end-to-end testing for modules including Employee Management, Task Management, Attendance Calculation, Payroll, and Sales Management.
- Designed and executed comprehensive manual test cases, ensuring functionality across core features such as document management, notifications, and user authentication.
- Conducted cross-browser testing (Chrome, Firefox, Safari) and mobile testing on Android and iOS, ensuring compatibility and a seamless user experience.
- Collaborated with developers via JIRA to track, document, and resolve defects efficiently, improving delivery timelines by 15%

.

Project 2 : Property Perfect Application

- Performed exhaustive manual testing for Property Perfect Management Application, covering features like property listings, user management, and search functionality.
- Created and executed detailed test plans and test cases, emphasizing functional, regression, and integration testing to meet business requirements.
- Led cross-platform testing for mobile (Android) and web applications, ensuring uniform design and functionality across diverse devices and browsers.
