WHO AM I ?

A Software Engineer by choice, on a journey to design and develop efficient solutions with technology. Loves to explore, learn and innovate.

Skillset:

My Technical Stack so far….

- **Programming languages** : **C, C++,** Java
- **Frameworks** : SpringBoot
- **Build & Deploy Tools** : Jenkins, Weblogic-12C
- **Operating Systems** : RedHat Linux(User Level)
- **Others** : Algorithms & Data Structures, Competitive Programming.
  Easily Adoptable, Result oriented and Everyday Learner.

Work Experience:

❖ **SR. SOFTWARE ENGINEER** (STATESTREET GLOBAL FINANCIAL SERVICES)

Projects done:

1) Project : Foreign Exchange Foundational Components, Wall Street Systems

   Duration : 14 months

   Technology Stack : Core Java, Active MQ, Maven, GIT, SpingBoot

   Achievements:

   - Developed an intermediary application to filter the FX trades and process the trades from upstream to downstream
   - Improved the efficiency of application by implementing Cache with LRU strategy to reduce the database hits and redundant processing of trade filters
   - Delivered quality code by creating Junit test-cases for unit testing and providing quick fixes to the bugs

Information Classification: Limited Access

❖ **Software Engineer**(TechMahindra Ltd.)

Projects done:

1) Project - Intellecable
   Client - Amdocs
   Role - Java Developer
   Type - Development

Achievements:

- Developed application for processing Amdocs TV Service requests that in turn integrates with Third-Party clients for settlements.
- Designed and developed a **User Access Service** to efficiently handle regular daily technical communications between developers, which became one of the most used application in performing Day-To-Day activities with in the project

2) Project - Intellecable
   Client - Amdocs
   Role - Web Logic Administrator
   Type - Server Administration

Achievements:

- Being a developer with make-it-own type mindset, handled the server administration and deployment of developed applications

Certifications:

➢ Certification : *Data Structures and Algorithms*
Evaluator : *GeeksForGeeks*
TimeLine : April,2019 – July,2019

➢ Certification : *Foundations of Computer Science and Problem Solving*
Evaluator : *BeingZero*
TimeLine : February,2019 – March,2019

Educational Qualifications:

- **Computer Science and Engineering**(2011-2015) - 72.80%
  (JNTUA College Of Engineering, Pulivendula)
- **Intermediate**(2009-2011) - 93.70%
  (Sri Chaitanya IIT Academy, Ameenpur)
- **SSC**(2009) - 87.33%
  (St. Vincent De Paul High School, Anantapur)
