SWATI BANSAL

+919975110349
bansalswati.90@gmail.com; Bangalore

Profile Summary:

- Senior Software Engineer with 6.5+ years of IT experience in developing software solutions in JAVA technology.
- Skilled developer with practical approach to problem solving and have extensive experience in Analysis, Design, Development, Testing and Integration of J2EE software applications and disciplined agile methodologies for operational efficiency.
- Aspiring Data Scientist with knowledge on CRISP-DM framework, Machine learning, Statistics, Modelling techniques, Exploratory data analysis, Hypothesis testing, Hadoop, SparkR, AWS.

Educational Qualifications:

PG Diploma in Data Science IIIT-Bangalore & Upgrad **CGPA 4 / 4** Since July-2017

- Completed projects in data management, statistics and predictive analytics courses, consistently scored >95th percentile on all projects
- Implemented Linear Regression, Logistic Regression, SVM Models, Decision Trees, Hierarchical models, Hadoop(Hive) and SparkR in auto, telecom and E-commerce industry projects
- Details of the project and assignments undertaken in the program can be viewed under: https://github.com/bansalswati90/PGDDAProjects

Bachelor of Engineering (EXTC) Mumbai University **76.83%** May-2007 to July-2011

Key Academic Projects:

- **New York Parking Ticket case study**: Carried out exploratory analysis on new York parking tickets for the 3 years(2015,2016, 2017) and derived most important factors leading to parking tickets using SparkR
- **Investment case study**: Identified best industry sectors, countries, and a suitable investment type for making investments for 60000+ industries.
- **Uber Case study**: Identified the root cause of the problem (i.e. cancellation and non-availability of cars) for Airport/City Pickups during peak time slots.
- **Loan Credit Risk Analysis**: Identified driving factors for loan defaults for the usage of portfolio and risk assessment of consumer finance business for 39000+ customers.
- **Car Company**: Predicted the factors on which the pricing of a car depends using linear regression model with 85% accuracy.
- **HR Analytics**: Predicted factors for 15% of employee attrition each year for XYZ Company having 4000+ employees using Logistic regression model with 75% accuracy.

Professional Experience:

- **Flexera Software (InstallAnywhere) (October'17 –Present)**

  Enhanced Product UI by introducing customizable Runtime UI themes.

  Integrated with FlexNet Code Aware which enables software developers to quickly scan their products for security and intellectual property (IP) compliance risk.

  Migrated project to latest ANT.

  Implemented continuous integration for the build and automation task to be run using Jenkins tools

- **Ness Technologies (InstallAnywhere) (January'16 –September'17)**
  Enhanced the product for automating the process of installation along with dependencies, upgradation, configuration for all Linux distributions by leveraging Linux package manager.
  Developed in-house automation framework for both front end and back-end to reduce the time required in manual testing using Core java and Swing. Using this framework, QA team is able to build test case repository, 500 tests and more, resulting in better quality product releases.

- **BNP Paribas (Banking and Commodities) (October'14 – August'15)**
  Migrated **Work in Progress** tool, which is used for workload and task status tracking from RichFaces1.3 to PrimeFaces2.0 and enhanced UI experience using JSF2.0.
  Enhanced Java based messaging module and the interface between the **Connexis** portal and **GTSA** database used by BNP Paribas to perform international trading with clients using SQL, PL-SQL,Java

- **Infosys (Capital Group Companies) (August '11 – October '14)**
  Developed **Retirement Planning** application solution and services website using Java, Struts 1.3, JDBC, JSP, HTML, XML, CSS.
  Developed and maintained websites of **TRAC**, MyPlanNetwork, FanPlanSponsor using JQuery, Java, JSP, HTML.
  Branded and created highly collaborative platform for **American Funds** by using SharePoint.

Technical Skills:

• **Machine Learning** Modelling Techniques • **Analytics Languages**: R (Intermediate), Python (Introductory)
• **Visualization tools**: Tableau, R, MS Excel
• **Hypothesis Testing** • **Databases:** SQL Server 2008, Oracle 11g, MySQL • **Web Server:** Apache Tomcat
• **Statistics** & Exploratory Data Analysis • **Programming:** Core Java, Swing, JSP, HTML, Struts, XML , Hadoop(HQL) , SparkR, AWS
• **Programming Tools:** Eclipse, Perforce, Jenkins ,IBM Rational ClearCase, JIRA,TOAD, Secure FX, Secure CRT, ANT, Maven, Microsoft Office SharePoint

Accolades:

- Appreciation from client and mangers for the quality work done on time.
- On the spot award from Manager for additional effort in delivering the zero bug free code.
- Collaborating and working as team lead for project work and also Fun committee member in the organization.
