Name: Tushar L Sawadekar

Address: 302, Chetan Heights, Sasane Nagar Hadapsar, Pune - 411028

Contact No: +91 8149306515 Email ID: sawdekartushar@gmail.com

Objective

Obtain a position as a team-player in a people-oriented organization where I can maximize my knowledge & experience in a challenging environment to fully utilizing my skills and abilities to achieve the corporate goals.

Experience

Company / Organisation	Position	Year
Suzlon Global Services Ltd	Manager Data Analytics	Feb 2018 – Present
Mahindra MachinePulse	Data Scientist	Dec 2015 – Jan 2018
Innoplexus Consulting Services Pvt. Ltd	Associate Data Scientist	Aug 2015 – Dec 2015
Algoanalytics Financial Consultancy Pvt. Ltd	Project Intern – Analytics	Sept 2014 – June 2015
Giant Metrewave Radio Telescope – TIFR	Summer Intern	May 2014 – July 2014

CURRENT ROLE

Design and Build Advanced Analytics strategies and Predictive Analytics Application to make data driven decision making using IOT, SCADA, SAP Data and Image data.

AREA OF INTEREST

Data Science, Data Analytics, Machine Learning, Signal & Image Processing, Statistical Modeling, Data Structures, Optimization, Operational Research

Education

Examination	Stream	Board/University	Year of passing	GPA/Percentage
M. Tech	Mathematical Modelling & Simulation	Centre for Modelling & Simulation, University Of Pune	2015	4.55 / 6 (Grade - A)
PG-DAC	Advanced Computing	CDAC-ACTS, Pune	2012	62.12
B.E.	Computer	PES Modern College of Engg. University Of Pune	2011	58.27
H.S.C	Science	Maharashtra Board	2006	60.00
S.S.C	General	Maharashtra Board	2004	84.26

SKILLS

Machine Learning Techniques : Regression, Time Series Forecasting, Deep Learning, Neural Network, CNN, RNN, Ensemble Learning, SVM, Kmeans Clustering, KNN, PCA, Genetic algorithm, Ant Colony Optimization, SA

Statistical & Big Data Tools : Azure Cloud, R, Python, R Shiny Apps, Python Flask Apps, Spark H2o, WEKA, SciKit-Learn, Keras, Tensor flow, NLTK

Database & Web Tech. : SQL Server, MongoDB, ElasticSearch, Oracle-11g, HTML, Java Script.

PROJECTS

PROJECT SUMMARY:

PROJECT -1:

TITLE	: Data Lake 360 View Predictive Analytics Application using SCADA, SAP, IOT and Image Data
CLIENT COMPANY	: Suzlon Global Services Ltd - Company Internal Analytics Product
Skill Set Used	: Deep Learning, Azure Cloud, R, Python, H2o-Spark, ML and Statistical modeling, CNN, LSTMs, Image Processing and Ensemble of Methodologies.
Roles and Resp	: Lead, Develop and deploy ML/ANN Model using ML and Statistical techniques in Azure cloud Data lake application.

PROJECT -2:

TITLE	: Prediction and Forecasting of Solar Power and Wind Power generation using Time series and Deep learning models like RNNs and LSTMs
CLIENT COMPANY	: Mahindra Machine Pulse - Company Internal Analytics Product
Skill Set Used	: Python, Spark, R-Studio, Time Series Forecasting, Recurrent Neural Networks, LSTMs, H2o deep learning library and Ensemble Forecast Methodologies.
Roles and Resp	: Develop Forecasting ensemble Model using ML and Statistical techniques.

PROJECT -3:

TITLE	: Feedback Module for Customer Relationship Management (CRM) and Automatic Cost Allocation Engine
CLIENT COMPANY	: One of the Top Leading Bank
Skill Set Used	: Python, Machine Learning, MongoDB, Elastic Search and Web Crawling using Selenium.
Roles and Resp	: Develop ML/ANN Model using Statistical techniques. Unstructured data management in MongoDB and elastic search.

PROJECT -4:

TITLE	: Multiclass classification of Images
CLIENT COMPANY	: Kaggle Project
Skill Set Used	: Computer Vision, Deep learning, Python, Convolution Neural Network, Scikit-Image, Keras

M. TECH THESIS:

TITLE	: Experiments in Deep Learning
PROJECT COMPANY	: AlgoAnalytics Financial Consultancy Pvt Ltd

Skill Set Used : R, Python, Shell Script, Python- Sci Kit-Learn, Machine Learning.

SUMMARY : Predict Stock price of various Stocks for next 1min, 5min and 10min in share market using Deep learning techniques - Auto-encoder, Back-propagation, Neural Networks and analyze results with different machine learning techniques like SVM, logistic Regression, KNN, etc. and Implement Moving average strategy using Support vector Machine and Hurst Coefficient to take Buy/Sell position in Stock Market

M. TECH SUMMER INTERNSHIP:

TITLE : Analysis of MAD based spectral domain RFI filtering Techniques

PROJECT COMPANY : Giant Metrewave Radio Telescope - TIFR

Skill Set Used : Matlab, C++, Statistical Modeling.

SUMMARY : Study, analyze and simulate algorithms for narrow band Radio Frequency Interference (RFI) mitigation using a robust statistical estimator- Median Absolute Deviation (MAD) for real-time signal processing chain of the upgraded GMRT. Analyze MAD based spectral domain RFI filtering techniques using actual real time raw voltage data recorded and Astronomical Data acquired from the one of the antenna at GMRT.

CDAC PROJECT:

TITLE : Web-based Recruitment Process System

PROJECT COMPANY : CDAC-ACTS

Skill Set Used : Java, J2EE, Struts, Hibernate, Oracle-11g, AES-Algorithm

SUMMARY : This project is aimed at developing a web-based and secure Recruitment Process System for the HR Group for a company using AES algorithm and Java technologies.

B.E. PROJECT:

TITLE : Automated Toll Collection System

Skill Set used : Java, Jsp, MySQL, RFID Technology,

SUMMARY : We proposed the optimal operation strategy of highway tollgate by benefit-cost analysis on the basis of benefit in saving total waiting time and operating cost. Our main aim is to develop a micro simulation model, to eliminate the delay on toll roads by collecting tolls electronically by using RFID technology.

ACADAMIC PROJECT:

1 : Active Kaggle participant

2 : Mathematical Modeling and Simulation Single Lane Traffic Problem using C++ and OOP

3 : Mathematical Modeling and Simulation of Elevator for 100 floor Building using C

4 : Library Management using C++ and C

TRAINING/CERTIFICATION

- “Web Component Development Using JAVA Technologies” at NIIT Ltd.

- Object Oriented Programming Using C++ at NIIT Ltd.
- Programming in C with grade ‘A’ at MCITR.

Other Activities

- Participated consistently in college technical event (M-pulse) & various other colleges.
- Participated in, Impetus & Concept’11, National technical event Project competition at P.I.C.T. Pune.
