I absolutely love what I do! Every day, I get to solve real problems for people, and that's what drives me. Nothing is more satisfying than simplifying complexity and making life easier through great design. Excited to keep pushing boundaries and creating products that truly make an impact!

Work Experience

Associate UX/UI Designer - Wiz Freight

2022 - Present

- **Led Elyxr Docs as a Standalone Designer:** Completed the entire UX/UI design for Elyxr Docs, delivering a fully functional product from scratch.
- **Designed & Launched Elyxr Docs Website:** Created an engaging website to boost product visibility and user adoption.
- **Pioneered the UX for Elyxr Control Tower:** As the first designer on the project, I designed 100% of the major screens required for launch in a short timeframe. This large-scale supply chain management product has since become the company's highest revenue-generating product.
- **Accelerated Product Launch via Hackathon:** Participated in a 1-week hackathon, ensuring the faster release of Control Tower.
- **Implemented Critical UX Solutions:** Engaged directly with the business team and customers, identifying pain points and designed multiple problem-solving features for Control Tower to streamline supply chain operations and enhance user efficiency.
- **Configured & Customized for 10+ Tenants:** Conducted user research & analysis for each tenant, creating tailored UX solutions and add-on features.

Education

C-Tech Higher in VFX

Jul 2021 - Jan 2022

IMAGE Creative Education
Grade Percentage - **91.23 %**

B.E Computer Science

2017 - 2021

Meenakshi college of engineering
Grade Percentage - **7.25 CGPA**

Skills

Research

- Design Cycles
- UX Principle
- UX Laws & Methodology
- User Interviews
- Usability Analysis
- User flows
- Information Architectures

- **Sole Designer for Elyxr Trace:** Led the UX/UI of Elyxr Trace (Ocean & Air Tracking) and delivered the entire product within the deadline.
- **Refined UX with Usability Testing:** Conducted testing to enhance usability, reduce friction, and resolve design bugs with developers.
- **3 Product from ground up and 2 product as a standalone designer :** Leading the entire UX/UI process from research to final implementation. Individually designed two of them, ensuring a seamless, user-centric experience.
- **Reduced Engineering Effort & Cost:** Independently built multiple product websites in Framer & Webflow, minimizing engineering workload.
- **Boosted Product Visibility via Videos:** Created multiple product videos in various languages with subtitles, increasing brand identity and engagement.

UX/UI Designer Intern - Wiz Freight

May 2022 - Aug 2022

- **Built a Scalable Design System:** Established a structured design system, ensuring consistency across Wiz Freight's digital products.
- **Designed Product Website:** Led the website design for Wiz Freight's core product, enhancing brand presence and user engagement.
- **Owned a New Product from Scratch:** Within 1.5 months, took ownership of Elyxr Docs, a new product, and led its UX/UI development.
- **Secured a Full-Time Offer Early:** Among three interns, became the first to receive a full-time Associate UX/UI Designer offer, based on performance.
- **Achieved 50% Completion of Elyxr Docs:** Designed and delivered major, high-priority screens, covering 50% of the product by the internship's end.
