GURSAHIB SINGH

gursahib.singh3394@gmail.com | +91 9780-633-930 | Mohali, PB

Tech Stack: NodeJS, ReactJs, PHP Frameworks, JavaScript, Cloud Services, HTML, CSS, RestAPIs, Databases.

PROFESSIONAL SUMMARY

Software Engineer Graduate with 5 years of experience gained in Information Technology. Highly organized, resourceful and keen to take on new challenges. Proficient in front-end and back-end technologies, with a strong understanding of modern web development principles. Seeking a suitable role in an IT company to drive strong interpersonal skills and offers an opportunity to work as part of a team and take on high levels of responsibility.

TECHNICAL SKILLS

- Development of technical solutions, including the design, development, testing and deployment of code.
- Database management, with a strong emphasis on MongoDB, and MySQL.
- Familiar with MVC design pattern, data migration, transformation and scripting using MySQL.
- Developing RESTful API services, Version control best practices (GitHub, GitLab).
- Excellent analytical, problem-solving and decision-making skills, verbal and written communication skills, interpersonal and negotiation skills. A team player with a track record for meeting deadlines.
- Highlight proficiency in languages relevant to the job (e.g., PHP frameworks, Node.js, React.js, JavaScript, HTML, and CSS, etc.)
- Estimating, tasking and prototyping. Collaborating with cross-functional team members on features, design and implementation.

WORK EXPERIENCE

Master Software Solutions (Contract - Software Engineer) **October 2024 – March 2025**

- Gathered project requirements, estimated timelines, and provided technical consultation to clients.
- Designed, developed, and maintained web applications using React.js, Node.js, JavaScript, HTML, and CSS.
- Built and consumed RESTful APIs, ensuring seamless communication between front-end and back-end services.
- Designed, optimized, and managed databases, including MongoDB, MySQL, for data migration, transformation, and scripting.
- Developed and implemented scalable, event-driven architectures using AWS SQS, AWS SES, and microservices.
- Worked with JIRA, breaking down projects into sprints, and ensuring timely delivery of milestones.

Master Software Solutions (Software Engineer) **December 2019 – November 2023**

- Building web applications using HTML5, CSS/SCSS, PHP frameworks, JavaScript, React.js, Node.js.
- Developing RESTful API services, monitoring error logs and addressing repeatable bugs.
- Ensure the responsiveness of applications and optimize them for maximum speed and scalability.
- Design and implement database structures using technologies like MySQL or MongoDB.
- Monitor application performance and take proactive measures to address potential issues.
- Organize and participate in tech meetups, hackathons, and workshops to stay updated with the

latest trends and developments in software engineering.

Gomad Infotech (Jr. PHP Developer) **September 2018 – November 2019**

- As a Junior PHP Developer with experience in CodeIgniter, API implementation, and WordPress and Writing clean, modular, and efficient code using the CodeIgniter framework.
- Developing and maintaining web applications and APIs, working with MySQL or other databases to store and retrieve data. Designing and optimizing database schemas and writing efficient SQL queries.
- Collaborating with cross-functional teams, including designers, other developers, and project managers.
- Communicating project progress, challenges, and solutions effectively.

EDUCATION & QUALIFICATIONS

Conestoga College (Post-Graduation, Guelph, Ontario, CA) **January 2024 – August 2024**

Postgraduate – Computer Application Development

CGC College Of Engineering, Mohali, Punjab **July 2015 - May 2018**

Bachelors - Computer Science and Engineering

ADDITIONAL ACTIVITIES

- **Tech Community Involvement**: Organize and participate in tech meetups, hackathons, and workshops to stay updated with the latest trends and developments in software engineering. Facilitate knowledge-sharing sessions on topics like web development, database management, and software architecture.
- **Open-Source Contributions**: Actively contribute to open-source projects on platforms like GitHub, collaborating with developers worldwide to solve real-world problems and enhance software functionality.
