MOHAMMED-AKIF

React JS Developer | Front End Developer | UI Developer

+91-8309657702 | mdakif620@gmail.com | Bangalore, India

PROFESSIONALOVERVIEW

Detail-oriented Frontend Engineer with 5+ years of experience in developing user-friendly web applications. Demonstrates expertise in modern JavaScript frameworks like React, Redux, and Next JS. Well versed with Reactjs, JavaScript, Redux, Tailwind, JavaScript, HTML, CSS, Bootstrap, Git, Postman, Jest, Responsive Web, Typescript, UI/UX, NextJs, and API Integration. Capability to build additional features, functionality & applications to continue impressive growth.

SKILLS

- **Programming Languages**: JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frameworks**: React, Redux, React Router, Styled Components, Next.js
- **UI Libraries**: Material UI, Chakra UI, Bootstrap.
- **Debugging Tools:** React Developer Tools, Chrome DevTools
- **Data Fetching:** Axios, Fetch API
- **Development Tools:** npm, yarn
- **Databases:** SQL Server
- **Collaboration Tools**: Jira
- **Backend Integration:** REST APIs
- **Version Control:** Git, GitHub, GitLab
- **CI/CD Pipelines:** Jenkins, GitHub Actions
- **Agile Methodologies:** Agile, Scrum
- **Build Tools:** Webpack, Babel, Create React App

WORKEXPERIENCE

Next Quarter (Registered as ForecastEra Technologies Pvt. Ltd.) React Associate - Software Developer	Remote, India Jan 2025 – Feb 2025
MindSprint Digital(India) Private Limited Sr Engineer - Software Development	Bengaluru, India Oct 2024 – Nov 2024
BSW SOFT Front End Developer	Bengaluru, India Sep 2021 – Oct 2024
PITCS - BlackBuck (Zinka Logistics Solutions Pvt. Ltd) Associate Operations Support	Bengaluru, India Feb 2021 – Aug 2021
Trangla Private Limited UI Developer	Hyderabad, India Oct 2019 – Feb 2021

PROJECTS

Next Quarter | Remote, React Associate

Project 1: Financial Management

- **Environment**: JavaScript, React JS, Hooks, Routers, REST APIs, Material UI, Redux.
- **Description**: Developed a React-based Financial Management System to streamline payroll processing, wage forecasting, and compensation structuring. Built dynamic modules for tracking employee work cycles, automating salary calculations, and segmenting earnings over time. Designed an intuitive web interface for seamless role assignments and project timelines while leveraging data-driven insights to enhance financial planning and workforce compensation management

MindSprint | Bangalore, Sr. Software Developer
Project 1: Digitalization of Farms

- **Environment**: React JS, React Hook, JavaScript, Routers, REST APIs.
- **Description**: Contributed to the development of a React-based web portal for a Forest Resource Management System aimed at streamlining the management of forestry activities in large forest areas in France. Implemented features to facilitate real-time data collection, supervision, and process tracking across various stages of forestry operations, including: Harvesting, Bucking, Skidding, Shoring, Evacuation.

BSW SOFT | Bangalore, Front End Developer
Project 1: Screen Sharing

- **Environment**: HTML5, CSS3, React JS, React Hook, and JavaScript.
- **Description**: Contributed to the development of a React-based project by integrating a screen sharing feature, fostering seamless real-time collaboration among users, ensuring efficient transmission of audio, video, and screen data. Took charge of frontend components to facilitate intuitive session management, allowing users to initiate, control, and terminate screen sharing sessions effortlessly
- **Roles and Responsibilities**:
  UI/UX Design Implementation: Designing and implementing user interfaces that are responsive, and aligned with user needs.
  • **Frontend Development**: Writing clean, maintainable code using HTML, CSS, JavaScript, and frontend frameworks like Reactjs.
  • **Integration with Backend Services**: Collaborating with backend developers to integrate frontend components with server-side logic and APIs.
  • **Testing and Debugging**: Ensuring the frontend components are thoroughly tested for performance, accessibility, and cross-browser compatibility.
  • **Continuous Improvement**: Staying updated with the latest frontend technologies and best practices to continuously improve the user experience and development process

Project 2: Employee Attendance Payroll Management (EAPM)

- **Environment**: HTML5, CSS3, React JS, React Hook, and JavaScript.
- **Description**: Employee Attendance Payroll Management (EAPM) is a software solution that streamlines employee attendance tracking, payroll processing, and expense management for companies. It maintains a centralized database of employee information, tracks attendance, automates payroll calculations, manages expenses, and provides insightful reports and analytics
