Mohsin Mithawala

G-303 Jannat Residency,New Vavol, Gandhinaga 382016 • (635) 454-9679 • mohsinmithawala07@gmail.com

Detail-oriented Python Developer with 3 years of experience in designing, developing, and deploying scalable web applications. Proficient in back-end development and RESTful API services, with a strong foundation in object-oriented programming and software development methodologies. Adept at collaborating with cross-functional teams to deliver high-quality software solutions, optimizing performance, and enhancing user experiences. Passionate about coding best practices, clean architecture, and continuous learning.

Experience

DEC-2019 – MAY-2023
Senior Software Engineer | Bank of America| GIFT CITY, Gandhinagar

- Developed and maintained scalable web applications using FastAPI and Flask, resulting in a 20% increase in application performance.

- Collaborated with front-end developers to integrate user-facing elements with server-side logic, improving overall user experience.

- Implemented RESTful APIs to facilitate seamless communication between the front-end and back-end systems.

- Conducted code reviews and provided mentorship to junior developers, promoting best coding practices and maintaining code quality.

- **Participated in Agile ceremonies, including daily stand-ups, sprint planning, and retrospectives, ensuring timely project delivery.**

• Worked on Quartz Framework for Bookmap project mainly used for Traders in Bank.

• Alleviated code redundancy and improved developer productivity by designing and implementing a common module using Python which helps create in-memory txtures and mock trade data for building unit tests with better coverage.

• Improved client experience by implementing a feature to support Unicode character ltering in search screens. • Developed Unit Tests with over 85% coverage for critical modules performing validations and reconciliation on 100k+ trading data every day.

• Handled full Agile release cycle of BookMap, an enterprise application for the creation and maintenance of global trading data, performed regression tests, and handled Production to UAT data refresh.

• Performed peer code reviews, and sprint planning and solved multiple QA/UAT/Prod issues as part of ROTA support. • Processing the Un-Assign Requests, Party Request of Entity Management System.

•Designing the UI part of the CRT Tools Project using Angular and Provide support for Existing modules & Sub-module. Involved in Unit testing and bug/code fixing

DEC 2016 – DEC 2019
Android Developer | Stack Built Pvt Ltd. | Ahmedabad

Successfully developed and released 15 Android applications on the Google Play Store. Developed a UI/UX design for a mobile application that was used by over 100,000 users.

Responsible for the maintenance and improvement of existing Android applications. Utilized Java, XML, and Android Studio to develop Android applications.

Collaborated with a team of developers to create a multi-platform mobile application. Implemented Restful APIs for mobile application development. Developed and tested Android applications for various screen sizes and devices. Utilized Git for version control and bug tracking for Android projects.

Skill:

- **Programming Languages:** Python, JavaScript, HTML, CSS
- **Web Frameworks:** Django, Flask, FastAPI
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Version Control:** Git, GitHub, Bitbucket
- **Tools & Technologies:** Docker, Kubernetes, RESTful APIs, JSON, CI/CD pipelines
- **Testing:** PyTest, Unit Testing
- **Cloud Services:** AWS (S3, EC2),

Education

MAY 2013
Bachlors Of Engineering | Gujarat Technological University | Ahmedabad

6.3 GPA
