Professional Experience

AptonWorks | August 2022 – March 2025

Player Props System

- Created a scalable web application that offers roster, stats, and odds for the Player Props System (PPS). Several third-party data sources for other sports, such as MBA, NBA, NFL, and NHL, were integrated. handled the particular difficulties posed by the various rules, laws, and data formats of each sport.
- Managed a front-end Redux toolkit, independent components, and functional controllers are included in a number of games.

Technology / Tools : Next JS, Node JS, Express JS, Typescript, Tailwind, Antd, Redux-toolkit

AptonShops

- A platform for entrepreneurs and brands to merchandize and market their products socially across the globe.
- Utilizing Webpack, Axios-customized API instances, Ant Design styling for light/dark modes, Redux for ltering, responsive design, and custom hooks for validation, our app delivers seamless performance across environments.

Technology / Tools : React JS, Tailwind, Antd, Redux-toolkit, Axios

Eternosoft LLP | June - 2020 to July - 2022

Passion Al Ari

- Access a diverse range of courses, including programming, on our online and offline platform, akin to Udemy, empowering users to learn at their convenience.
- Our platform caters to four user roles (Admin, Mentor, Expert, and Students), each with specialised responsive UIs facilitated by higher-order components and condition-based rendering.

Eco Carwash

- Utilising water-efficient methods and technologies to minimise water consumption during car washing.
- Implemented two user roles (admin and manager) with multilingual support and organised le separation, maintaining a structured and efficient codebase.

Technology / Tools :

- Utilised Axios for API calls, Sass for styling, React Router for navigation, Redux for state management, along with plugins
- Such as **Redux, Formik, React Cookie, FlatList, React Player, OAuth, Chart.js, JWT and React Slick** for enhanced functionality and user experience.

Education

Jeppiar SRR Engineering College | 2015 - 2019

Electrical Electronics Engineering - 6.8
