Senior Full Stack Engineer with 6+ years of experience building and scaling web applications across the stack. Adept at solving complex problems in cross-functional teams, contributing to frontend (React, Next.js), backend (Node.js, Express.js), and infrastructure (Docker, AWS). Experienced in API design, system architecture, and CI/CD implementation. Brings a hands-on, ownership-driven mindset with a strong focus on collaboration and product impact.

★ EXPERIENCE

Senior React Developer — November 2024 - Present
Thence

- Led feature delivery across two enterprise projects, managing a team of 5 developers and overseeing design, development, and DevOps (Docker, CI/CD) to ensure stable multi-environment releases.
- Led the frontend development and architecture of a real-time retail stock trading web platform, delivering scalable, high-performance solutions using React, Next.js, WebSockets, and Docker.
- Enhanced existing applications and marketing pages by optimizing performance and refactoring code—resulting in 30% faster page load times, a 25% improvement in user retention, and increased system stability.
- Managed multiple projects like Indiabulls Securities retail stock trading web platform and HDFC Ergo Healthcare Marketing Page, aligning teams and stakeholders to meet goals, mitigate risks, and ensure timely, high-quality delivery.

Senior Software Developer (React Lead) — July 2023 - October 2024
Socly.IO

- Led a team of 4 developers to build and scale compliance-as-a-service products using React, driving significant improvements in development efficiency and product quality.
- Collaborate cross-functionally with product managers, designers, and stakeholders to deliver high-performance, user-centric web applications with a focus on UI/UX excellence.
- Mentored junior developers and conducted regular code reviews, fostering a culture of continuous learning and ensuring adherence to best practices.
- Architected and built a full-stack application using Next.js and SQL, implementing secure data management and efficient backend integration.
- Wrote comprehensive unit and integration tests with React Testing Library, increasing code reliability and overall test coverage.

Senior Software Developer (Team Leader) — June 2022 - June 2023
Docthub Health Tech Pvt Ltd

- Promoted to Team Leader after demonstrating strong leadership and technical skills. Led a team of 6 developers to build a comprehensive healthcare web application, featuring job and course opportunity dashboards.
- Implemented Vercel workflows and automation, optimizing deployment pipelines and reducing manual steps. This led to faster iterations, more reliable releases, and improved overall development efficiency.
- Designed and implemented MongoDB and SQL schemas using Node.js to manage user-generated content, form data, and page configurations, enabling dynamic and customizable website creation through the builder interface.
- Collaborated with product managers and the UI/UX head, sharing ideas and providing input on design improvements, leading to enhanced product features and contributing to overall product growth.

Senior Software Developer — June 2021 - May 2022
Docthub Health Tech Pvt Ltd

- Applied advanced SEO techniques to Docthub Jobs, including structured data markup and metadata optimization, enhancing search visibility and driving a significant increase in job applicants.
- Published and maintained React components as an NPM package, managing versioning, deployment processes, and ensuring seamless integration for consumers.
- Implemented Gulp-based automation to streamline front-end workflows, including minification, compilation, and live reloading, resulting in faster development cycles and more efficient deployment processes.

Junior Software Developer — November 2019 - May 2021
Docthub Health Tech Pvt Ltd

- Built responsive UIs for Docthub Events using React.js and Redux, enhancing healthcare event management.
- Integrated REST APIs for dynamic content updates, enhancing user interaction and reducing load times.
- Built and maintained a console platform using Ant Design to manage client data for healthcare products, ensuring a streamlined and intuitive admin experience.

Junior Web Designer — September 2018 - October 2019
Infyom Technologies

- Built responsive, interactive UIs for dashboards and landing pages with features like invoices and business management using HTML5, SCSS, Bootstrap, Angular, Vue, and jQuery.
- Maintained UI consistency and scalability with reusable components following Atomic Design and BEM practices

★ ACHIEVEMENTS

- Delivered a custom chat UI that improved user experience, boosting product sales through enhanced design and usability.
- Engineered an SEO-driven SSR architecture with dynamic routing, driving organic traffic growth and increasing lead conversions.
- Developed a compliance Copilot tool that reduced audit time by 40%, accelerating decision-making and enhancing operational efficiency.

★ SKILLS

Languages:
JavaScript (ES6+), TypeScript, Python

Frontend:
React.js, Angular, Vue.js, React Native, Next.js, Redux, Redux Thunk, Redux-Saga, JSX, Gatsby, Nuxt.js, VuePress, RTK Query, useSWR, jQuery, HTML5, CSS3, SCSS, SASS

Backend:
Node.js, Express.js

Database:
MongoDB, MySQL, Firebase

CI/CD:
Docker, Bitbucket Pipeline, GitHub Actions

APIs & Data Management:
REST API, GraphQL, JSON Web Token

Build Tools:
Gulp.js, Webpack, Babel,

Libraries & UI Frameworks:
Material UI, Mantine, Ant Design, Bootstrap, Styled Components, Tailwind CSS

Miscellaneous:
Object Oriented Programming, Git, Bitbucket, Github, Gitlab, Storybook, Adobe Photoshop, Adobe XD, Figma, Vercel, AWS, Azure DevOps, Jira, Visual Studio Code, WebStorm

★ CERTIFICATE

Meta Front-End Developer

The Complete JavaScript Course 2020: Build Real Projects

★ EDUCATION

Diploma in Office Automation And Publishing - 2012
Rajiv Gandhi

Bachelor of Computer Applications (Pursuing) - 2024 - 2027
Parul University
