PROFESSIONAL SUMMARY

Experienced Software Engineer designated as Web Developer with overall 6 years of IT experience. Efficient problem solver with skills in Teamwork, Quick learning abilities and delivering projects on time. Creating streamlined and intuitive controls through programming and design. I am talented at planning and developing UI components, Functionalities & Integrating API for websites and web applications using React, Redux, AEM, HTML, CSS, SCSS, JavaScript, Typescript, jQuery. Consistently employed understanding of user psychology throughout design process.

WORK EXPERIENCE

Senior Software Engineer **08/2021 - 06/2024**

Photon Interactive. **Bengaluru, Karnataka, India.**

Here I'm responsible for developing UI components, Functionalities & Integrating API based on the mock & user story provided by client in Figma, Jira.

• Communicated with product managers and UI/UX designers to translate project requirements and business objectives into polished user interfaces.

• Built highly functional web applications using React, Redux, AEM, HTML, CSS, SCSS, Javascript, Typescript, JSX, jQuery, JSON & ADA Compliance.

• Verify program logic & debugging using testing tools.

• Used Agile planning principles to deliver tailored solutions that meet customer requirements.

• Conducted live user testing of components, accessibility testing and functionality to evaluate electiveness of designs and enhancements.

Project 1: VIZIO

VIZIO is an e-commerce web application to sell their products like TV's & Soundbars. In this project I'm working as a Frontend developer responsible for developing Ui components & Functionality based on the mock & user story provided by client in Zeplin & Jira. Here we followed Agile methodology. We used React, AEM, Typescript, HTML, SCSS for Frontend modules development with Accessibility. After we develop the component, we ensure the code quality & do unit testing then deliver to QA.

SKILLS

React
Redux
Next.JS
HTML
CSS, SCSS, LESS
Bootstrap
Tailwind CSS
JavaScript, jQuery
JSX
Typescript
Adobe Experience Manager
JSON
RESTful API
Babel
Webpack
NPM
Node.js
AWS
Figma
Zeplin
WCAG
ADA Compliance
GitHub, Git
FLUX

Project 2: Kohler

Kohler is an e-commerce web application to sell their products like Luxury sanitary ware, Bathroom accessories. In this project I'm working as a Frontend developer responsible for developing Ui components & Functionality based on the mock & user story provided by client in Figma & Jira. Here we followed Agile Scrum development methodology. We used React, Redux, JSX, Next.JS, HTML, SCSS, AEM, jQuery for Frontend modules development with ADA Compliance. After we develop the component, we ensure the code quality & do unit testing then deliver to QA. After QA is passing, we're showing demo to client then it will deploy to Production environment.

Project 3: Williams-Sonoma

Williams-Sonoma, Inc. is an American publicly traded consumer retail company that sells kitchenware and home furnishings. In this project I'm working as a Frontend developer responsible for developing Ui components & Functionality based on the mock & user story provided by client in Figma & Jira. We used Vue.js, Node JS, HTML, SCSS, jQuery for Frontend modules development with ADA Compliance. After we develop the component, we ensure the code quality & do unit testing then deliver to QA. After QA is passing, we're showing demo to client then it will deploy to Production environment.

Full Stack Developer **06/2018 - 07/2021**

Hope Vision Service. **Salem, Tamil Nadu, India.**

Project 1: MIS application website

In this project, I used the tools for Frontend as HTML, CSS, Bootstrap, JavaScript, JSON, jQuery, AJAX & Backend as PHP, MySQL & AWS. MIS & Employee payroll application has been developed and it contains Employee database & reports like salary, sales data are dynamically updated.

Project 2: Invoice Calculation & Product Management

Here we developed a web application for managing the dynamic price of the products, Calculate the invoice based on the client inputs & products price, then generate the invoice in PDF format Here I used HTML, Bootstrap tools for Frontend and Core PHP, MySQL for Backend.

EDUCATION

B.E., Computer Science & Engineering. 06/2015 - 05/2018

Dhirajlal Gandhi College of Technology. Salem, Tamil Nadu, India

Diploma in Information Technology. 06/2012 - 05/2015

C.S.I. Polytechnic College. Salem, Tamil Nadu, India

UI / UX

Jest

GEN AI

PHP

MySQL

Agile

SCRUM

Jira

Confluence

Photoshop

MS Office

CERTIFICATION'S & WORKSHOP'S

Multimedia
Completed 6 month's Multimedia course certification.

Salesforce
Had participated in Salesforce Cloud computing workshop.

Digital Marketing
Had participated in DM workshop in KIOT on the title for Wi-Fi chat application.

Arduino
Had participated in IIT's Arduino Workshop.
