PROFILE

I am a passionate Data Scientist with expertise in statistical analysis, machine learning, and data visualization. Experienced in data cleaning, exploratory analysis, and building predictive models using Python and SQL, I excel at transforming complex data into actionable insights. Collaborative and always learning, I aim to use my skills to drive data-driven solutions and contribute to innovative analytics.

SKILLS

- Python
- SQL & NoSQL
- Microsoft Excel
- Basics of AWS
- Marketing Analysis
- Big Data Analytics
- Web Analytics
- Health Analytics
- Machine Learning
- Deep Learning
- Reinforcement Learning
- Basics of Power BI

EDUCATION

2023 - 2025 **LOYOLA COLLEGE, CHENNAI** **CGPA: 8.6**
Master of Science in Data Science

2020 - 2023 **LOYOLA COLLEGE, CHENNAI** **CGPA: 8.6**
Bachelor of Science in Computer Science

2021 - 2022 **IIT - MADRAS, CHENNAI** **CGPA: 7.1**
Foundation in Programming and Data Science

EXPERIENCE

MAY 2024 **VISHAL PRECISION PRODUCTS PVT., LTD. CBE - 641 004** | MARKETING ANALYTICS INTERN

Conducted data analysis and developed insights to support marketing strategies for product promotion and customer engagement. Analysed customer data and sales trends to identify patterns and actionable insights, enhancing decision-making for targeted marketing campaigns. Created visual dashboards.

PROJECTS

DEEP Q LEARNING FOR LUNAR LANDING

Developed a Deep Q-Learning (DQN) agent to autonomously land a lunar module in the LunarLander-v3 environment using PyTorch, achieving an average score above 200. Integrated experience replay, epsilon-greedy exploration, and soft target updates for efficient training.

LINEAR REGRESSION USING BOSTON HOUSING DATASET

Implemented an end-to-end Machine Learning project using the Boston Housing dataset, encompassing data preprocessing, exploratory data analysis (EDA), and model development with linear regression. Set up version control using GitHub, created a custom environment, and deployed a Flask web application using Docker for seamless deployment and scalability.

PROJECT REVIEW PORTAL FOR LOYOLA COLLEGE ON CLOUD USING AWS.

Developed a cloud-based Project Review Portal for Loyola College, featuring 15+ functionalities tailored to academic requirements. Utilized HTML, PHP, and SQL to build the application, which was deployed and hosted on AWS.

CERTIFICATIONS

- Business Intelligence & Analytics
- AI in Marketing
- Ensemble Methods in ML
- Data Science using Python - Data Analytics
- Machine learning and Data Science using Python
